This Adobe Fillable form is intended to provide a list of information that is required for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request. The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

BRRTS #: PARCEL ID #:

ACTIVITY NAME: WTM COORDINATES: X: Y:

CLOSURE DOCUMENTS (the Department adds these items to the final GIS packet for posting on the Registry)

- Closure Letter**
- Maintenance Plan** (if activity is closed with a land use limitation or condition (land use control) under s. 292.12, Wis. Stats.)
- Conditional Closure Letter**
- Certificate of Completion (COC)** for VPLE sites

SOURCE LEGAL DOCUMENTS

- Deed:** The most recent deed as well as legal descriptions, for the **Source Property** (where the contamination originated). Deeds for other, off-source (off-site) properties are located in the **Notification** section.
Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.
- Certified Survey Map:** A copy of the certified survey map or the relevant section of the recorded plat map for those properties where the legal description in the most recent deed refers to a certified survey map or a recorded plat map. (lots on subdivided or platted property (e.g. lot 2 of xyz subdivision)).
Figure #: **Title:**
- Signed Statement:** A statement signed by the Responsible Party (RP), which states that he or she believes that the attached legal description accurately describes the correct contaminated property.

MAPS (meeting the visual aid requirements of s. NR 716.15(2)(h))

Maps must be no larger than 8.5 x 14 inches unless the map is submitted electronically.

- Location Map:** A map outlining all properties within the contaminated site boundaries on a U.S.G.S. topographic map or plat map in sufficient detail to permit easy location of all parcels. If groundwater standards are exceeded, include the location of all potable wells within 1200 feet of the site.
Note: Due to security reasons municipal wells are not identified on GIS Packet maps. However, the locations of these municipal wells must be identified on Case Closure Request maps.
Figure #: 1 **Title: Site Location & Local Topography**
- Detailed Site Map:** A map that shows all relevant features (buildings, roads, individual property boundaries, contaminant sources, utility lines, monitoring wells and potable wells) within the contaminated area. This map is to show the location of all contaminated public streets, and highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding a ch. NR 140 Enforcement Standard (ES), and/or in relation to the boundaries of soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Levels (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.
Figure #: 3 **Title: Soil Sample Locations & Extent of Remedial Excavation**
- Soil Contamination Contour Map:** For sites closing with residual soil contamination, this map is to show the location of all contaminated soil and a single contour showing the horizontal extent of each area of contiguous residual soil contamination that exceeds a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.
Figure #: 3 **Title: Soil Sample Locations & Extent of Remedial Excavation**

BRRTS #: 02-05-547169

ACTIVITY NAME: Progressive Farmers Cooperative - Greenleaf

MAPS (continued)

- Geologic Cross-Section Map:** A map showing the source location and vertical extent of residual soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL). If groundwater contamination exceeds a ch. NR 140 Enforcement Standard (ES) when closure is requested, show the source location and vertical extent, water table and piezometric elevations, and locations and elevations of geologic units, bedrock and confining units, if any.

Figure #: 3 **Title: Geologic Cross Section A-A'**

Figure #: N/A **Title:**

- Groundwater Isoconcentration Map:** For sites closing with residual groundwater contamination, this map shows the horizontal extent of all groundwater contamination exceeding a ch. NR140 Preventive Action Limit (PAL) and an Enforcement Standard (ES). Indicate the direction and date of groundwater flow, based on the most recent sampling data.

Note: This is intended to show the total area of contaminated groundwater.

Figure #: 1 **Title: Groundwater Elevation Contour Map June 11, 2009**

- Groundwater Flow Direction Map:** A map that represents groundwater movement at the site. If the flow direction varies by more than 20° over the history of the site, submit 2 groundwater flow maps showing the maximum variation in flow direction.

Figure #: 1 **Title: Groundwater Elevation Contour Map June 11, 2009**

Figure #: **Title:**

TABLES (meeting the requirements of s. NR 716.15(2)(h)(3))

Tables must be no larger than 8.5 x 14 inches unless the table is submitted electronically. Tables must not contain shading and/or cross-hatching. The use of **BOLD** or *ITALICS* is acceptable.

- Soil Analytical Table:** A table showing remaining soil contamination with analytical results and collection dates.
Note: This is one table of results for the contaminants of concern. Contaminants of concern are those that were found during the site investigation, that remain after remediation. It may be necessary to create a new table to meet this requirement.

Table #: 2 & 3 **Title: Soil Sample Field Lab. Results (2) & Excavation Soil Sample Lab. Analytical Results (3)**

- Groundwater Analytical Table:** Table(s) that show the most recent analytical results and collection dates, for all monitoring wells and any potable wells for which samples have been collected.

Table #: 2 **Title: Groundwater Sample Laboratory Results**

- Water Level Elevations:** Table(s) that show the previous four (at minimum) water level elevation measurements/dates from all monitoring wells. If present, free product is to be noted on the table.

Table #: 1 **Title: Groundwater Elevation Data**

IMPROPERLY ABANDONED MONITORING WELLS

For each monitoring well not properly abandoned according to requirements of s. NR 141.25 include the following documents.

Note: If the site is being listed on the GIS Registry for only an improperly abandoned monitoring well you will only need to submit the documents in this section for the GIS Registry Packet.

- Not Applicable**

- Site Location Map:** A map showing all surveyed monitoring wells with specific identification of the monitoring wells which have not been properly abandoned.

Note: If the applicable monitoring wells are distinctly identified on the Detailed Site Map this Site Location Map is not needed.

Figure #: 1 **Title: Groundwater Elevation Contour Map June 11, 2009**

- Well Construction Report:** Form 4440-113A for the applicable monitoring wells.

- Deed:** The most recent deed as well as legal descriptions for each property where a monitoring well was not properly abandoned.

- Notification Letter:** Copy of the notification letter to the affected property owner(s).

BRRTS #: 02-05-547169

ACTIVITY NAME: Progressive Farmers Cooperative - Greenleaf

NOTIFICATIONS

Source Property

- Letter To Current Source Property Owner:** If the source property is owned by someone other than the person who is applying for case closure, include a copy of the letter notifying the current owner of the source property that case closure has been requested.
- Return Receipt/Signature Confirmation:** Written proof of date on which confirmation was received for notifying current source property owner.

Off-Source Property

Group the following information per individual property and label each group according to alphabetic listing on the "Impacted Off-Source Property" attachment.

- Letter To "Off-Source" Property Owners:** Copies of all letters sent by the Responsible Party (RP) to owners of properties with groundwater exceeding an Enforcement Standard (ES), and to owners of properties that will be affected by a land use control under s. 292.12, Wis. Stats.

Note: Letters sent to off-source properties regarding residual contamination must contain standard provisions in Appendix A of ch. NR 726.

Number of "Off-Source" Letters: 1

- Return Receipt/Signature Confirmation:** Written proof of date on which confirmation was received for notifying any off-source property owner.
- Deed of "Off-Source" Property:** The most recent deed(s) as well as legal descriptions, for all affected deeded **off-source property(ies)**. This does not apply to right-of-ways.
Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.

- Letter To "Governmental Unit/Right-Of-Way" Owners:** Copies of all letters sent by the Responsible Party (RP) to a city, village, municipality, state agency or any other entity responsible for maintenance of a public street, highway, or railroad right-of-way, within or partially within the contaminated area, for contamination exceeding a groundwater Enforcement Standard (ES) and/or soil exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL).

Number of "Governmental Unit/Right-Of-Way Owner" Letters: 2

Impacted Off-Source Property Information

Form 4400-246 (R 3/08)

This fillable form is intended to provide a list of information that must be submitted for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request (Section H). The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

State of Wisconsin
Jim Doyle, Governor

Department of Agriculture, Trade and Consumer Protection
Rod Nilsestuen, Secretary

May 19, 2010

Mr. John Schmidt
Agri-Partners Cooperative
438 West Ryan Street
Brillion, WI 54110

Re: Final Case Closure with Land Use Limitations or Conditions
Agri-Partners Cooperative, 6772 Benzenburg St., Greenleaf, WI 54126
DATCP Case No. 99407041501
BRRTS No. 02-05-547169

Dear Mr. Schmidt:

On January 15, 2010, our Closure Committee reviewed the above-referenced case for closure. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On February 16, 2010, you were notified that the Closure Committee had granted conditional closure to this case.

On May 7, 2010 the Department received correspondence indicating that you have complied with the requirements of closure. This included documentation of abandonment of the monitoring wells. The abandonment form for monitoring well TW-1 was received on May 18, 2010. Geographic Information System (GIS) Registry fees were received by the Wisconsin Department of Natural Resources (WDNR) on February 26, 2010.

Based on the correspondence and data provided, it appears that your case meets the requirements of ch. NR 726, Wisconsin Administrative Code. The Department considers this case closed and no further investigation or remediation is required at this time.

GIS Registry

The conditions of case closure set out below in this letter require that your site be listed on the Remediation and Redevelopment Program's GIS Registry. The specific reasons are summarized below:

- Residual soil contamination exists that must be properly managed should it be excavated or removed
- If a structural impediment that obstructs a complete site investigation or cleanup is removed or modified, additional environmental work must be completed
- Groundwater contamination is present above Chapter NR 140 enforcement standards

Information that was submitted with your closure request application will be included on the GIS Registry. To review the sites on the GIS Registry web page, visit the RR Sites Map page at <http://dnr.wi.gov/org/aw/rr/gis/index.htm>. If your property is listed on the GIS

Agriculture generates \$59 billion for Wisconsin

2811 Agriculture Drive • PO Box 8911 • Madison, WI 53708-8911 • Wisconsin.gov

An equal opportunity employer

Registry because of remaining contamination and you intend to construct or reconstruct a well, you will need prior Department approval in accordance with s. NR 812.09(4)(w), Wis. Adm. Code. To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line at <http://dnr.wi.gov/org/water/dwg/3300254.pdf> or at the web address listed above for the GIS Registry.

Closure Conditions

Please be aware that pursuant to s. 292.12 Wisconsin Statutes, compliance with the requirements of this letter is a responsibility to which you and any subsequent property owners must adhere. If these requirements are not followed or if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, welfare, or the environment, the Department may take enforcement action under s. 292.11 Wisconsin Statutes to ensure compliance with the specified requirements, limitations or other conditions related to the property or this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code. The Department may conduct inspections in the future to ensure that the conditions included in this letter are met.

Remaining Residual Soil Contamination

Residual nitrogen and pesticide soil contamination remains at the approximate locations shown on Figure 3 of Bonestroo's GIS Registry Package. The GIS Registry Package can be viewed at <http://dnr.wi.gov/org/aw/rr/gis/index.htm>. If residual contaminated soil is excavated in the future, then the property owner at the time of excavation must sample and analyze the excavated soil to determine if residual contamination remains (requirement pursuant to ch. NR 718, and ch. 289, Stats., and chs. 500 to 536 may also apply). If sampling confirms that contamination is present the property owner at the time of excavation will need to determine whether the material would be considered solid or hazardous waste and ensure that any storage, treatment, or disposal is in compliance with applicable standards and rules. In addition, all current and future owners and occupants of the property need to be aware that excavation of the contaminated soil may pose a direct contact hazard and as a result special precautions may need to be taken to prevent a direct contact health threat to humans.

Structural Impediments

Structural impediments existing at the time of cleanup including the bulk dry fertilizer warehouse, seed storage building (former bulk dry fertilizer warehouse), and sales and office building made complete investigation and remediation of the soil contamination on this property impracticable. Pursuant to s. 292.12(2)(b), Wis. Stats., if the structural impediments on this property that are described above are removed, the property owner shall conduct an investigation of the degree and extent of nitrogen and pesticide contamination. If contamination is found at that time, the Department shall be immediately notified and the contamination shall be properly remediated in accordance with applicable statutes and rules. If soil in the specific locations described above is excavated, the property owner at the time of excavation must sample and analyze the excavated soil to determine if residual contamination remains. If sampling confirms that contamination is present the property owner at the time of excavation will need to determine whether the material would

be considered solid or hazardous waste and ensure that any storage, treatment or disposal is in compliance with applicable statutes and rules. In addition, all current and future owners and occupants of the property need to be aware that excavation of the contaminated soil may pose a direct contact hazard and as a result special precautions may need to be taken during excavation activities to prevent a health threat to humans.

Per Wis. Admin. Code s. ATCP 33.70(1), environmental assessment is also required whenever a mixing and loading pad, sump, or secondary containment structure used for bulk liquid fertilizer or pesticides leaks, is removed, or remains out of use for more than five years. Therefore, the soil beneath these structures will need to be evaluated if these conditions are ever met.

Remaining Residual Groundwater Contamination

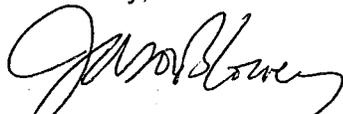

Groundwater impacted by nitrite-nitrate as nitrogen (NO_{2-3} as N), atrazine, cyanazine, metolachlor, and simazine contamination greater than enforcement standards set forth in ch. NR140, Wis. Adm. Code, is present both on the contaminated property and off the contaminated property. Off-site property owners have been notified of the presence of groundwater contamination. For more detailed information regarding the locations where groundwater samples have been collected (i.e., monitoring well locations) and the associated contaminant concentrations, refer to the Remediation and Redevelopment Program's GIS Registry at the RR Sites Map page at <http://dnr.wi.gov/org/aw/rr/gis/index.htm>.

ACCP Considerations

If the case is re-opened, Agricultural Chemical Cleanup Program (ACCP) reimbursement may still be available. Determination of the ACCP eligibility of any future corrective action costs incurred at this site should be made before the corrective action is performed. It is in your best interest to keep all documentation related to the cleanup project and ACCP reimbursement applications.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this closure decision or anything outlined in this letter, please call me at 608-224-4515.

Sincerely,

Jason B. Lowery, P.G.
Hydrogeologist

Re: lot 12 and the North 35 feet of lots 13,
 14, 15 and 16, Plat of the Village of
 Greenleaf, according to the recorded plat
 thereof, Town of Wrightstown, Brown County,
 Wisconsin.

STATE OF WISCONSIN)
) ss
COUNTY OF BROWN)

Celia Kanugh of 940 Ruscoe Street, Green Bay, Wisconsin, being first duly sworn, says the following, to-wit:

That from June 21, 1941 to April 14, 1969 the affiant resided and owned jointly with her husband, Adam Kanugh, lots 13, 14, 15 and 16, Plat of the Village of Greenleaf, according to the recorded plat thereof, Town of Wrightstown, Brown County, Wisconsin. That in November of 1966, the affiant's husband negotiated with the De Pere Progressive Farmers the sale of the Northerly 35 feet of lots 13, 14, 15 and 16. The affiant states that as to her knowledge, she knows her husband placed a stake on what he believed to be the Southwest corner of the property to be transferred. That the said stake was placed at the said spot in the presence of the personnel of the De Pere Progressive Farmers, which stake remained in the said position during all the time the affiant resided on and owned the premises before referred to as lots 13, 14, 15 and 16.

The affiant further states that at no time did they claim title to or any rights in lot 12 of Block 6, Plat of the Village of Greenleaf, according to the recorded plat thereof, Town of Wrightstown, Brown County, Wisconsin, upon which the De Pere Progressive Farmers built a building, which is in being at the present time and has been since and after the latter part of 1966.

REGISTER OF DEEDS BROWN COUNTY

APR 15 1980

AT 3:10 O'CLOCK P.M.

REGISTER OF DEEDS

RETURN TO Morris & Vanden Heuvel Box 1128 De Pere, WI 54115

Town of Wrightstown

quit-claims to De Pere Progressive Farmers Cooperative

the following described real estate in Brown County, State of Wisconsin:

The North one-half of a portion of Greenleaf Street, more particularly described as follows: The North 33', more or less, of a portion of Greenleaf Street, commencing at the point at which the northern boundary of said Greenleaf Street intersects with the western boundary of Benzenberg Street and thence West approximately 210' to the point at which the northern boundary of said Greenleaf Street intersects with the eastern boundary of the Chicago, Milwaukee, St. Paul & Pacific Railway Company right-of-way, and which is bordered to the north by Lots 13, 14, 15 and 16, all of Block 6, all according to the Plat of the Village of Greenleaf in the Town of Wrightstown as recorded in the office of the Register of Deeds in and for Brown County, Wisconsin.

The purpose of this deed is to reflect the formal proceedings of the Town Board of the Town of Wrightstown whereby said board, in the public interest and to avoid a waste of public funds, discontinued a portion of Greenleaf Street. Said street, having been dedicated, but never having been opened, developed, or traveled as a street, is hereby returned to the owners of the adjoining lands.

In Witness Whereof, the said grantor has caused these presents to be signed by Landelin Kabat, Town Clerk for the Town of Wrightstown.

FEE # 7725(13) EXEMPT

This is not homestead property. (is) (is not)

Dated this 8th day of April, 1980

Town of Wrightstown

RIDER TO QUIT CLAIM DEED

Grantor: WISCONSIN CENTRAL LTD.

Grantee: PROGRESSIVE FARMERS COOPERATIVE

Legal Description:

All that part of the Grantor's real property in the Southeast Quarter (SE-1/4) of the Southeast Quarter (SE-1/4) of Section Five (5), Township Twenty-one (21) North, Range Twenty (20) East, Town of Greenleaf, County of Brown, State of Wisconsin, more particularly described as follows:

Commencing at the Northwest corner of Lot Three (3), Block Six (6), Original Plat of Greenleaf, thence Southwesterly along the Easterly right-of-way line of the Wisconsin Central Ltd., said line being the common Westerly line of Lots 3, 8, 9, 10, 11, 12 and 13 of said Block 6 and a Southwesterly projection of said line 470 feet, more or less, to the centerline of Greenleaf Street, thence Westerly along said centerline of Greenleaf Street 50 feet, more or less, to a point 25 feet Easterly of, as measured perpendicular to, the centerline of the main track of the Wisconsin Central Ltd., thence Northeasterly along a line parallel with and 25 feet Easterly of, as measured perpendicular with, said main track centerline 470 feet, more or less, to a projection of the South line of Klaus Street as said South line of Klaus Street would cross the Wisconsin Central Ltd. right-of-way, thence Easterly along said South line projection of Klaus Street 50 feet, more or less, to the point of beginning and there terminating.

Said premises sometimes referred to as: Lot 7, Block 6, according to the recorded Plat thereof, in the Village of Greenleaf, Brown County, Wisconsin.

Reservation of Easement

Grantor, for itself, its successors and assigns, hereby reserves a perpetual easement twenty (20) ft. in width, on, over and across that portion of the property hereby conveyed, being ten (10) feet on either side of the centerline of the track presently located on the premises, for a railroad right-of-way, including, but not limited to, the right to maintain, repair, renew, replace, use and operate a railroad track and appurtenances, and to construct, maintain, repair, use and operate wires or cables, together with poles or other structures supporting the same above the surface of the premises, or pipes or conduits or other structures beneath the surface of said premises.

Drainage

Grantee, for itself, its grantees, successors and assigns, covenants and agrees that it will not do or cause to be done any act which will unreasonably impede the flow of drainage water over the premises hereby conveyed which would adversely affect continuing rail operations. This covenant shall run with the land.

**PROGRESSIVE FARMERS COOPERATIVE
DE PERE (GREENLEAF), WISCONSIN**

Site Five:

Parcel 1:

Lot 43, East Greenleaf Assessor's Plat formerly described as Lots 1, 2, 3, 8, 9, 11, 12, 13, 14, 15 and 16 in Block 6, Village of Greenleaf, Town of Wrightstown, Brown County, Wisconsin; and the N 1/2 of a portion of Greenleaf Street, more particularly described as follows: the North 33 feet, more or less, of a portion of Greenleaf Street, commencing at the point at which the Northern boundary of said Greenleaf Street intersects with the Western boundary of Benzenberg Street and thence West approximately 210 feet to the point at which the Northern boundary of said Greenleaf Street intersects with the Eastern boundary of the Chicago, Milwaukee, St. Paul and Pacific Railway Company right-of-way, and which is bordered to the North by Lots 13, 14, 15 and 16, all of Block 6, all according to the Plat of the Village of Greenleaf in the Town of Wrightstown as recorded in the Office of the Register of Deeds in and for Brown County, Wisconsin.

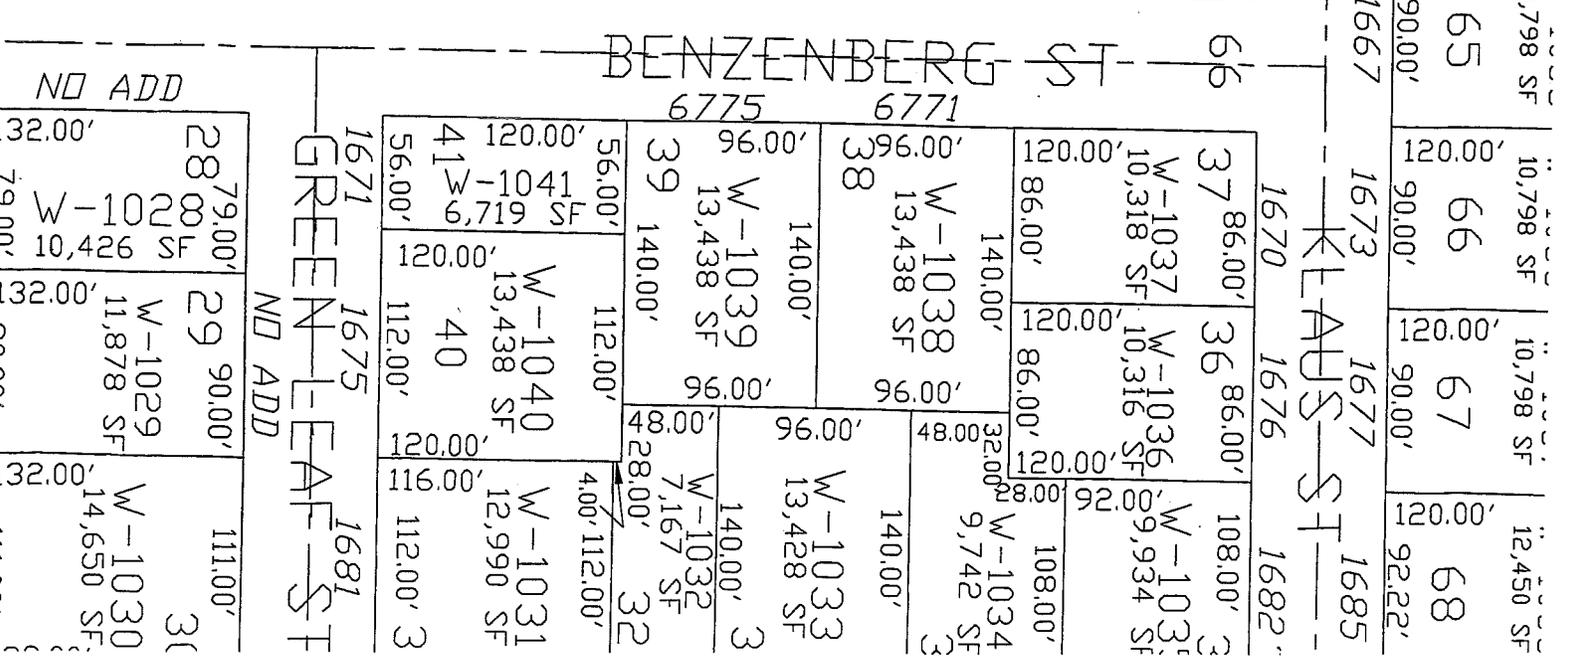

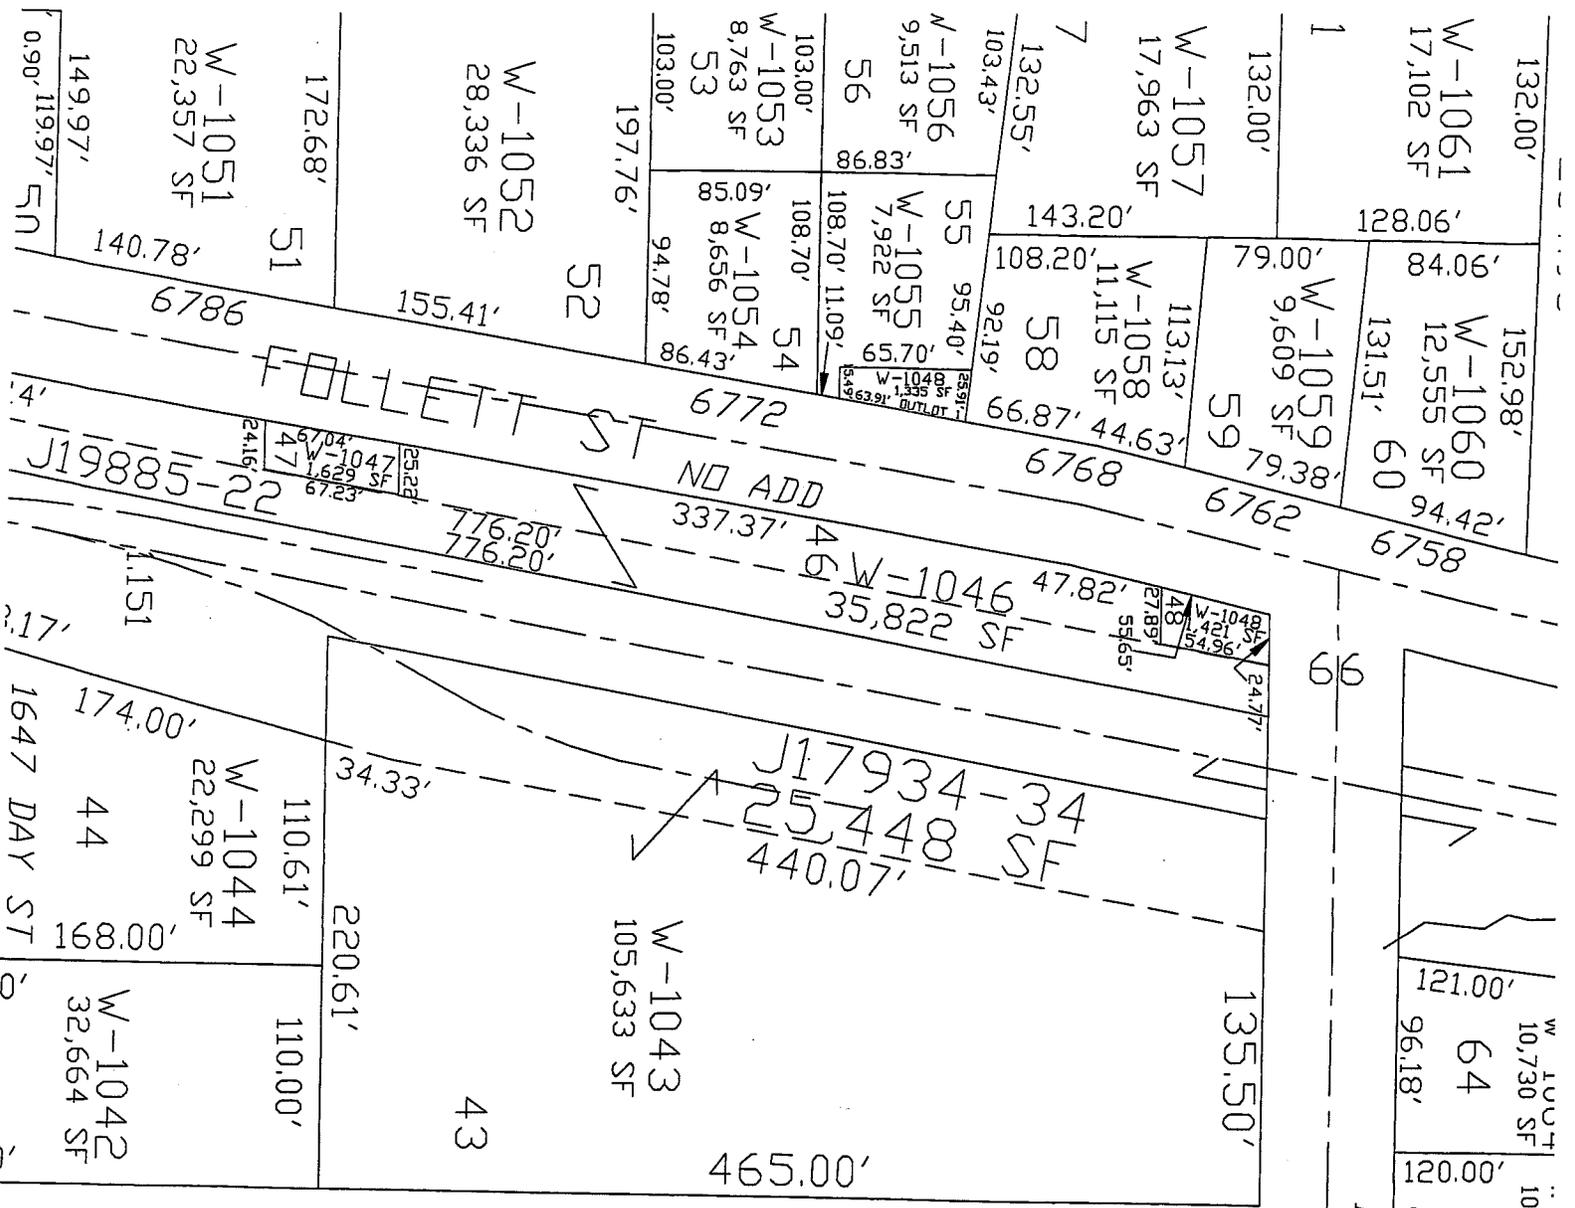

Parcel contains 1.89 acres more or less.

Impacted Off-Source Property Information

Form 4400-246 (R 3/08)

This fillable form is intended to provide a list of information that must be submitted for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request (Section H). The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

Mr. Mike Cornette
Cornette Farm Supply
6775 Follet Street
Greenleaf, Wisconsin 54126

RE: GIS Registry Closure Requirements; Progressive Farmers Cooperative, 6772 Benzenberg Street,
Greenleaf, Wisconsin

Dear Mr. Cornette:

Nitrogen-contaminated groundwater originating from the former Progressive Farmers Cooperative property located at 6772 Benzenberg Street, Greenleaf, Wisconsin may have migrated onto your property at 6775 Follet Street, Greenleaf, Wisconsin. The levels of nitrogen contamination in the groundwater on the Progressive Farmers Cooperative property are above the state groundwater enforcement standards (ES) found in Chapter NR 140, Wisconsin Administrative Code (NR 140, Wis. Adm. Code). However, the released nitrogen have been investigated and remediated, and the residual groundwater contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in NR 726, Wis. Adm. Code, and I will be requesting that the Wisconsin Department of Agriculture, Trade and Consumer Protection (WDATCP) accept natural attenuation as the final remedy and grant case closure. Closure means that the WDATCP will not require any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of potential nitrogen-related groundwater contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes (s.292.13, Wis. Stats), including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of s. 292.13, Wis. Stats., you may call (800) 367-6076 for calls originating in Wisconsin or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the WDNR's publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination."

The WDATCP will not review my closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the WDATCP to provide any technical information that you may have that indicates that closure should not be granted to this site. If you would like to submit information to the WDATCP that is relevant to this closure request, you should mail that information to:

Mr. Jason Lowery
Wisconsin Department of Agriculture, Trade and Consumer Protection
2811 Agriculture Drive
Madison, Wisconsin 53708-8911

OFF-SOURCE
A
PROPERTY

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds the NR 140, Wis. Adm. Code groundwater ES and soil contamination exceeds the RCLs will be listed on the Wisconsin Department of Natural Resources' (WDNR's) geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where groundwater contamination above NR 140, Wis. Adm. Code ES and soil exceeding the RCLs was found at the time that the case was closed. This GIS Registry will be available to the general public on the WDNR's Internet web site.

Should you or any subsequent property owner wish to construct or reconstruct a water supply well on your property, special well construction standards may be necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a water supply well on your property in the future will first need to call the Diggers Hotline ([800] 242-8511) if your property is located outside of the service area of a municipally-owned water system, or contact the Drinking Water program within the WDNR if your property is located within the designated service area of a municipally-owned water system, to determine if there is a need for special well construction standards.

Once the WDATCP makes a decision on my closure request, it will be documented in a letter. If the WDATCP grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the WDNR GIS Registry of Closed Remediation Sites on the internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact Mr. Chris Hatfield (Bonestroo) at (262) 241-3133 or you may contact Mr. Jason Lowery (WDATCP) at (608) 224-4517.

Sincerely

Mr. John Schmidt
General Manager - Agri-Partners Cooperative

c: Chris Hatfield, Boestroo

RIGHT-OF-WAY

January 13, 2010

Mr. Gary Hansen
Wisconsin Department of Natural Resources
2984 Shawano Avenue
Green Bay, Wisconsin 54313

RE: GIS Registry Closure Requirements; Progressive Farmers Cooperative, 6772 Benzenberg Street,
Greenleaf, Wisconsin

Dear Mr. Hansen:

Nitrogen- and pesticide-contaminated groundwater originating from the former Progressive Farmers Cooperative property located at 6772 Benzenberg Street, Greenleaf (the Property), Wisconsin may have migrated onto the former railroad right-of-way (now used as a bike trail) currently owned by the Wisconsin Department of Natural Resources (WDNR), adjacent to the western boundary of the Property. The levels of nitrogen and pesticide contamination in the groundwater on the Progressive Farmers Cooperative property are above the state groundwater enforcement standards (ES) found in Chapter NR 140, Wisconsin Administrative Code (NR 140, Wis. Adm. Code). However, the released nitrogen and pesticides have been investigated and remediated, and the residual groundwater contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in NR 726, Wis. Adm. Code, and I will be requesting that the Wisconsin Department of Agriculture, Trade and Consumer Protection (WDATCP) accept natural attenuation as the final remedy and grant case closure. Closure means that the WDATCP will not require any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of potential nitrogen-related groundwater contamination is not the former railroad right-of-way, therefore the WDNR will not be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes (s.292.13, Wis. Stats), including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of s. 292.13, Wis. Stats., you may call (800) 367-6076 for calls originating in Wisconsin or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the WDNR's publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination."

The WDATCP will not review my closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the WDATCP to provide any technical information that you may have that indicates that closure should not be granted to this site. If you would like to submit information to the WDATCP that is relevant to this closure request, you should mail that information to:

Mr. Jason Lowery
Wisconsin Department of Agriculture, Trade and Consumer Protection
2811 Agriculture Drive
Madison, Wisconsin 53708-8911

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds the NR 140, Wis. Adm. Code groundwater ES and soil contamination exceeds the RCLs will be listed on the Wisconsin Department of Natural Resources' (WDNR's) geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where groundwater contamination above NR 140, Wis. Adm. Code ES and soil exceeding the RCLs was found at the time that the case was closed. This GIS Registry will be available to the general public on the WDNR's Internet web site.

Should you or any subsequent property owner wish to construct or reconstruct a water supply well on your property, special well construction standards may be necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a water supply well on your property in the future will first need to call the Diggers Hotline ([800] 242-8511) if your property is located outside of the service area of a municipally-owned water system, or contact the Drinking Water program within the WDNR if your property is located within the designated service area of a municipally-owned water system, to determine if there is a need for special well construction standards.

Once the WDATCP makes a decision on my closure request, it will be documented in a letter. If the WDATCP grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the WDNR GIS Registry of Closed Remediation Sites on the internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact Mr. Chris Hatfield (Bonestroo) at (262) 241-3133 or you may contact Mr. Jason Lowery (WDATCP) at (608) 224-4517.

Sincerely

Mr. John Schmidt
General Manager – Agri-Partners Cooperative

RIGHT-OF-WAY

January 12, 2010

Mr. Lyle Dequaine
Public Works Director
Town of Wrightstown

RE: GIS Registry Closure Requirements; Progressive Farmers Cooperative, 6772 Benzenberg Street,
Greenleaf, Wisconsin

Dear Mr. Dequaine:

Nitrogen-contaminated groundwater originating from the former Progressive Farmers Cooperative property located at 6772 Benzenberg Street, Greenleaf (the Property), Wisconsin may have migrated onto the Klaus Street right-of-way in Greenleaf, Wisconsin adjacent to the northern boundary of the Property. The levels of nitrogen contamination in the groundwater on the Progressive Farmers Cooperative property are above the state groundwater enforcement standards (ES) found in Chapter NR 140, Wisconsin Administrative Code (NR 140, Wis. Adm. Code). However, the released nitrogen have been investigated and remediated, and the residual groundwater contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in NR 726, Wis. Adm. Code, and I will be requesting that the Wisconsin Department of Agriculture, Trade and Consumer Protection (WDATCP) accept natural attenuation as the final remedy and grant case closure. Closure means that the WDATCP will not require any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of potential nitrogen-related groundwater contamination is not the right-of-way, the town of Wrightstown will not be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes (s.292.13, Wis. Stats), including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of s. 292.13, Wis. Stats., you may call (800) 367-6076 for calls originating in Wisconsin or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the WDNR's publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination."

The WDATCP will not review my closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the WDATCP to provide any technical information that you may have that indicates that closure should not be granted to this site.
