SUBJECT: Leicht Transfer & Storage
WDNR BRRTS # 03-05-000278

Dear Ms. Schroeder:

On January 10, 1990, the Wisconsin Department of Natural Resources provided a notice to you that the degree and extent of petroleum contamination at the above named site was required to be investigated and remediated. We have since been informed that the required investigation and remediation has been accomplished.

On November 19, 1999, the above named site was reviewed by the Remediation and Redevelopment's Northeast Region Closure Committee for a determination as to whether or not the case qualified for closeout under ch. NR 726, Wis. Adm. Code.

The Department has received a copy of the completed groundwater use restriction for the above referenced site and proof of filing this record with the Brown County Register of Deeds. Based on the investigative and remedial documentation provided to the Department, it appears that the petroleum contamination at the above named site has been remediated to the extent practicable under current site conditions. Therefore, conditional closure of this site has been granted and no further action is necessary at this time. In the future, this groundwater use restriction may be amended with approval from the Department if conditions change at the site and the residual contamination has been remediated.

If you have any additional relevant information concerning this matter which was not formerly provided to the Department, you should submit this information to the Department for reevaluation.

The Department's records will reflect final "closure." If you have any questions regarding this determination, please contact me in Green Bay at (920) 492-5943.

Sincerely,

Kristin DuFresne

WARRANTY DEED

WATERWAYS ENGINEERING CORPORATION, a corporation duly organized and existing under the laws of Wisconsin, and having its principal office in the City of Green Bay, County of Brown, State of Wisconsin, grantor, hereby Conveys and Warrants, to LEICHT TRANSFER & STORAGE CO., a corporation duly organized and existing under the laws of Wisconsin, and having its principal office in the City of Green Bay, County of Brown, grantee, for the sum of One Dollar and other valuable consideration, the following tract of land in Brown County, Wisconsin:

All that part of Private Claims Nine (9) and Ten (10) on the West side of the Fox River in the City of Green Bay, Brown County, Wisconsin, described as follows:

Commencing at a point where the Southerly line of Ninth Street intersects the Easterly line of State Street and running thence South $63^{\circ} 54' 19''$ East 417.98 feet to the point of beginning; thence North $63^{\circ} 54' 19''$ West 417.98 feet to the point where the Southerly line of Ninth Street intersects the Easterly line of State Street; thence South $26^{\circ} 04' 41''$ West 456.57 feet; thence South $64^{\circ} 09' 22''$ East 800 feet; thence North $14^{\circ} 03' 06''$ West along the center line of a roadway presently being used by the Grantor and the Huron Portland Cement Company, which line is also the Westerly property line of the property conveyed to the Huron Portland Cement Company by a deed dated December 11, 1946 and recorded at 267 Deeds 159, to the point of beginning; excepting the Easterly 20 feet of the above described property, measured perpendicular to and westerly from the aforesaid line bearing North $14^{\circ} 03' 06''$ West, which 20 feet is the grantor's portion of the 40 feet wide roadway used jointly by the grantor and the Huron Portland Cement Company; Subject, however, to all rights of way of any railroads.

This conveyance is subject to the rights and privileges conveyed by the Grantor to the Huron Portland Cement Company, (hereinafter referred to as Huron) by deed dated December 11, 1946, and recorded in the office of the Register of Deeds for Brown County, Wisconsin, on December 11, 1946 at Volume 267 Deed 159, as Document No. 336268.

The Grantor grants to the Grantee a perpetual easement for the use of all or part of the jointly owned road presently constructed adjacent to the easterly boundary of the above described property.

The Grantor's interest in and to all of the railroad tracks lying on the above described property is included in this conveyance; subject, however, to the Grantor's reservation of an easement in perpetuity to use (1) the Milwaukee Road railroad track leading into the northwest corner of the above described property which track connects to a spur track hereinafter mentioned at a point approximately 187 feet south of

Ninth Street; (2) the lead track connected to the aforesaid track from the point of connection at a point approximately 187 feet South of Ninth Street to the point of its termination which is approximately 8 feet North of the Southerly boundary of the above described property and 612 feet East of State Street; (3) the spur track, presently constructed on the above described property and connected to the easterly end of the aforesaid lead track, which spur track leads to the Grantor's water front property, for the sole purpose of moving railroad cars to and from the Grantor's adjacent water front property.

The Grantee agrees, however, to give to the Grantor the temporary right and privilege to load and unload railroad cars, with the consent of Huron, on the tracks described above with reference to the Grantor's reservation of the easement to move railroad cars. Said temporary right and privilege shall terminate when the Grantor extends the spur track leading to the Grantor's water front property into the Grantor's water front property.

The Grantor agrees to pay its share of the cost of maintaining the lead track and the Grantor's spur track in proportion to the number of railroad cars moved to and from the party's property prior to the maintenance repair job and subsequent to the last receding repair job. The parties agree and understand that with respect to the part of the lead track between the turn-out on the northwest corner of the above described property and the turn-out into the Huron spur track and the Grantor's spur track leading to the Grantor's water front property, the above covenants with respect to repairs, are to be read in conjunction with the provisions of the deed between the Grantor and Huron dated December 11, 1946.

The Grantee grants to the Grantor the right and privilege to connect onto the easterly end of the spur track presently leading to the Grantor's water front property.

TO HAVE AND TO HOLD, the said premises as above described with the hereditaments and appurtenances, unto the Grantee. AND THE SAID, Waterways Engineering Corporation, Grantor, for its successors and assigns, do hereby covenant, grant, bargain and agree to and with the said Grantee, and to and with the Grantee, its successors and assigns, that at the time of the ensailing and delivery of these presents it is well seized of the premises above described.

IN WITNESS WHEREOF, the said WATERWAYS ENGINEERING CORPORATION has caused these presents to be signed by R. A. HEFFERNEN, its President, and countersigned by P. F. Gigler, its Secretary, at Green Bay, Wisconsin, and its corporate seal to be hereunto affixed, this ~~third~~ day of June, A.D., 1960.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitation and restrictions:

Anyone who proposes to construct or reconstruct a well on this property is required to contact the Department of Natural Resources' Bureau of Drinking Water and Groundwater, or its successor agency, to determine what specific requirements are applicable, prior to constructing or reconstructing a well on this property. No well may be constructed on this property unless applicable requirements are met.

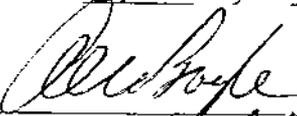

If construction is proposed on this property that will require dewatering, or if groundwater is to be otherwise extracted from this property, while this groundwater use restriction is in effect, the groundwater shall be sampled and analyzed for contaminants that were previously detected on the property and any extracted groundwater shall be managed in compliance with applicable statutes and rules.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction benefits and is enforceable by the Wisconsin Department of Natural Resources, its successors or assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that one or more of the restrictions set forth in this covenant is no longer required. Upon the receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the Department determines that the restrictions can be extinguished, an affidavit, attached to a copy of the Department's written determination, may be recorded to give notice that this deed restriction, or portions of this deed restriction, are no longer binding.

By signing this document, Allen Boyle asserts that he/she is duly authorized to sign this document on behalf of Leicht Transfer & Storage Co.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 31st day of March, 2000.
