NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. RE: **Final Closure**

**Commerce # 54301-9998-06-A**      DNR BRRTS # 03-05-001453  
Zochert Property, 906 E. Walnut Street, Green Bay

Dear Mr. Zochert:

The Wisconsin Department of Commerce (Commerce) has received the items required as the condition for closure of the site referenced above. This site is now listed as "closed" on the Commerce database and will be included on the Department of Natural Resources (DNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual soil contamination.

All current and future owners and occupants of the property need to be aware that excavation of contaminated soil may pose a hazard. If soil is excavated, the property owner at the time of excavation must sample and analyze the excavated soil to determine if residual contamination remains. If sampling confirms that contamination is present, the property owner at the time of excavation must ensure that any storage, treatment or disposal is in compliance with applicable State regulations and standards.

It is in your best interest to keep all documentation related to environmental activities at your site.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (920) 424-0046.

Sincerely,

RE: **CONDITIONAL CLOSURE**  
Zockart Property, 906 East Walnut Street, Green Bay  
Commerce # 54301-9998-06  
BRRTS # 03-05-001453

Dear Ms. Martins:

The closure request for the Zockart Property, 906 East Walnut Street, Green Bay has been reviewed by Wisconsin Department of Commerce (Commerce) Bureau of PECFA Site Review Section staff. Using the standards established in Wisconsin Administrative Code (WAC) chapters NR 700 and COMM 46, Commerce has determined the site has been investigated and remediated to a level protective of the environment and human health. Commerce considers this site to meet environmental standards and **no further action** is necessary. In making this determination, the following documents prepared by Environmental Compliance Consultants, Inc. and MMA, Inc., as well as correspondence in the case file, were reviewed:

- *Site Investigation and Remedial Update, April 1996*
- *Remedial Site Investigation Report, February 2001*

**The following documentation is necessary to satisfy conditions for closure:**

1. A notification must be placed on the property deed addressing residual soil impacts. For case closure, a copy of the deed notification that contains the County Register of Deeds' recording information is needed. Enclosed is an example of a "Notice of Contamination to Property" for your use. If you wish to modify the language, submit a copy to this office for approval before filing.

**IMPORTANT:** Before this case can be officially listed as "closed" on the Wisconsin Department of Commerce/Natural Resources computer database, you or your consultant must submit the requested information.

If, in the future, site conditions indicate that the contamination that remains poses a threat the need for further remediation would be determined and required if necessary. If subsequent information indicates a need to reopen this case, any original claim under the PECFA fund would also reopen and you may apply for assistance to the extent of remaining eligibility.

Ms. Mavis Martins

---

Thank you for your efforts in the protection of the environment, if you have any questions you can reach me at (920) 424-0046.

Sincerely,
