**DOCUMENTS NEEDED:**

Closure Letter, and any conditional closure letter issued	X
Copy of most recent deed, including legal description, for all affected properties	X
Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties	X
County Parcel ID number, if used for county, for all affected properties	X
Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.	X
Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.	X
Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)	X
Tables of Latest Soil Analytical Results (no shading or cross-hatching)	X
Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.	X
GW: Table of water level elevations, with sampling dates, and free product noted if present	X
GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)	X
SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour	X
Geologic cross-sections, if required for SI. (8.5x14" if paper copy)	NA
RP certified statement that legal descriptions are complete and accurate	X
Copies of off-source notification letters (if applicable)	X
Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)	NA
Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure	X

RE: **No Further Action Notice** – DATCP Case #97407100901.  
Kewaunee Cooperative – Kewaunee (Section 18, Township 23 North, Range 25 East)

Dear Mr. Healy:

My receipt of the well abandonment forms and deed restriction satisfies all the conditions for closure of the Kewaunee cleanup case referenced above. The case is now listed as "closed" as of December 10, 2003, on the DATCP database.

The site will be listed on the DNR's registry of closed remediation sites. I will forward the information submitted with your closure request, and a copy of this letter, to DNR for posting on the registry. To review the sites on the registry and to see when your site is listed visit the registry web page at <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>

If residual contamination is encountered, it must be handled in accordance with all applicable regulations and in conformance with the requirements of the deed restriction. This case may be reopened (*pursuant to NR 726.09, Wis. Adm. Code*) if additional information indicates that contamination from the site poses a threat to public health, safety or welfare, or the environment.

If the case is re-opened and additional work is required, Agricultural Chemical Cleanup Program (ACCP) reimbursement may still be available for the work. It is in your best interest to keep all documentation related to the cleanup project and ACCP reimbursement claims.

Thank you for your efforts to bring this case to closure. If you have any questions, please call me at (608) 224-4516.

Sincerely,

Jeff Ackerman  
Hydrogeologist

SHERIFF'S DEED ON FORECLOSURE OF MORTGAGE		
Document Number <b>331390</b>		Recording Data VOL <b>264</b> RECORDS PAGE <b>427</b> RECEIVED FOR RECORD 1992 OCT -2 PH 2: 12 <i>Marilyn L. Mueller</i> REGISTER OF DEEDS KEWAUNEE COUNTY, WIS.

Parcel No. 31 241 GL18 2-19

WHEREAS, A JUDGMENT OF FORECLOSURE AND SALE was rendered in the Circuit of Kewaunee County, Wisconsin, on February 11, 1992, in a certain action wherein City of Kewaunee was plaintiff and Allen Dock Manufacturing, Inc. was defendant; and in pursuance thereof, after due advertising, the mortgaged premises hereinafter described were sold on April 16, 1992 to City of Kewaunee for the sum of \$200,000.00, City of Kewaunee being the highest bidder therefor;

AND WHEREAS, the said City of Kewaunee is now entitled to conveyance thereof according to law;

NOW, THEREFORE, I, Cole O. Kuehl, the Sheriff of Kewaunee County, Wisconsin, in consideration of the premises and of the sum of \$200,000.00, paid by the said City of Kewaunee, hereby convey to said City of Kewaunee the following tract of land in Kewaunee County, Wisconsin: WHZ EX CODE W- 11

TRANSFER FEE EXEMPT  
SEC. 77.25(14)

"Lots 11, 12, 13, 14, 15 and 16 in Block 40 in the City of Kewaunee excepting RR right of way described in deed recorded in the office of the Register of Deeds for Kewaunee County in Volume 4 of Deeds, page 73;

Commencing at the Northwest corner of Lot 11, Block 40 in the City of Kewaunee, Wisconsin, running thence East 377 feet to the Northwest corner of Lot 9, Block 39 in the said City of Kewaunee; running thence North to the South bank of the Kewaunee River; thence in a Westerly direction along the bank of said river to a point directly North of the NW corner of Lot 11, Block 40, in said City of Kewaunee; thence South to the place of beginning, all in Government Lot 6, 18-23-25;

Commencing at the Southwest corner of Lot 11, Block 40 running thence West 38 1/2 feet; thence North 210 feet; thence West 138 1/2 feet; thence North to the Kewaunee River; thence East along the bank of the river

### STATEMENT OF PROPERTY LEGAL DESCRIPTION

As required by s. NR 726.05(3)(f) of the Wisconsin Administrative Code, I am providing this signed statement that to the best of my knowledge the legal descriptions that are included in this submittal are complete and accurate for the property located at 203 Juneau Street (owned by Kewaunee Cooperative) and the downgradient property (owned by the City of Kewaunee) in the City of Kewaunee, Kewaunee County, Wisconsin.

Re: Notification of Groundwater Impacts, City of Kewaunee Property Located North of Kewaunee Cooperative Site, 203 Juneau Street, Kewaunee, Wisconsin -- DATCP Case No. 97407100901 -- STS Project No. 23857AC

Dear Mr. Balleine:

On behalf of Kewaunee Cooperative, STS Consultants, Ltd. (STS) is providing the City of Kewaunee (City) with this letter as required per s.NR726.05(2)(b)(4) of the Wisconsin Administrative Code concerning the City property located north of the Kewaunee Cooperative site in Kewaunee, Wisconsin. Groundwater contamination, which appears to have originated from the Kewaunee Cooperative site located at 203 Juneau Street (Figure 1) is present on the above-referenced City property. Specifically, the concentration of metolachlor and/or atrazine (constituent of pesticides or herbicides) observed in groundwater samples collected from wells on the City property (MW-5 and MW-6) currently exceed or have previously exceeded the Wisconsin Administrative Code Chapter NR 140 Enforcement Standards (ESs). A summary of laboratory analytical data for groundwater samples collected from the City property and Kewaunee Cooperative site is attached as Table 1.

STS has investigated the extent of the soil and groundwater contamination at the Kewaunee Cooperative site using soil borings and groundwater monitoring wells. As part of the remedial action, approximately 717 tons of impacted soil from the apparent source areas were excavated and hauled to a landfill for disposal. In addition, STS performed natural attenuation groundwater monitoring from April 2000 to January 2003. Based on the remedial excavation and groundwater monitoring results (which indicated that the residual groundwater contamination is stable or declining and is likely to naturally degrade with time), STS prepared a Case Closure Request and submitted it to the Department of Agriculture, Trade, and Consumer Protection (DATCP). In a letter dated May 14, 2003, the DATCP granted conditional approval of case closure, but indicated that final approval was contingent on listing the Kewaunee Cooperative site and affected City property on the Geographical Information System (GIS) Groundwater Registry maintained by the Wisconsin Department of Natural Resources (WDNR). The GIS Registry includes maps which illustrate the location of properties in Wisconsin where groundwater contamination above NR 140 ESs was present at the time of final case closure.

Per the DATCP's May 14, 2003 letter, if this case is granted final closure, the Kewaunee Cooperative site and the affected City property will be listed on the GIS Registry. Following listing on the GIS Registry, the groundwater monitoring wells on the City property will be abandoned in accordance with NR 141. In order to comply with the DATCP's request, STS is required to submit accurate legal descriptions and copies of the property deeds for all affected properties. STS is requesting that the City provide the legal description and a copy of the property deed for the City property located at 401 West Park Street.

Since the source of groundwater contamination is not on the City property, neither the City nor any subsequent owner of the property will be held responsible for investigation or cleanup of this pre-existing groundwater contamination condition as long as the City and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes (including allowing access to the City property for environmental investigation or cleanup if access is required), and as long as the City and any subsequent owners do not contribute any further to the contamination.

City of Kewaunee Department of Public Works  
STS Project No. 23857AC  
August 1, 2003

For your reference, we have attached a copy of WDNR Publication No. RR-589, Fact Sheet 10, "Guidance for Dealing with Properties Affected by Off-Site Contamination."

The WDNR will not review the GIS Registry request for at least 30 days after the date of this letter. As an affected property owner, the City has the right to contact the WDNR to provide any technical information which indicates that final case closure should not be granted for the Kewaunee Cooperative site. If the City would like to submit information to the WDNR that is relevant to the closure of the Kewaunee Cooperative site, the information should be mailed to:

Ms. Kathryn Erdmann, Hydrogeologist  
Wisconsin Department of Natural Resources  
Remediation and Redevelopment Program  
P.O. Box 10448  
Green Bay, Wisconsin 54307-0448

If you or any subsequent property owner would like to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Digger's Hotline (800-242-8511) (if your property is located outside of the service area of a municipally owned water system), or contact the WDNR Drinking Water Program (if your property is located within the designated service area of a municipally owned water system) to determine if there is a need for special well construction standards.

Once the WDNR makes a decision on the GIS Registry request, it will be documented in a letter. If the WDNR grants final approval, you may obtain a copy of the letter by requesting a copy from Kewaunee Cooperative, by writing to the WDNR at the address given above, or by accessing the WDNR GIS Registry on the Internet at [www.dnr.state.wi.us/org/at/et/geo/qwur](http://www.dnr.state.wi.us/org/at/et/geo/qwur). A copy of the case closure letter will be included as part of the Kewaunee Cooperative file on the GIS Registry of Closed Remediation Sites.

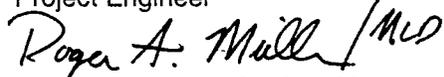

The DATCP requested that the GIS Registry information be submitted no later than August 14, 2003; therefore, please forward the legal description and a copy of the property deed for the City property to STS as soon as possible. If you have any questions or need additional information, please contact Mr. Mike DeBraske (STS) at (920) 468-1978, Mr. Ken Healy (Kewaunee Cooperative) at (920) 845-2331, or the WDNR at the address provided above. We appreciate your cooperation in this matter.

Sincerely,

STS CONSULTANTS, LTD.

Re: Approval for Case Closure - Kewaunee Cooperative - Kewaunee site.  
DATCP Case #97407100901.

Dear Mr. Healy:

I have some good news for you. Our case closure committee reviewed the information presented by your consultant, STS, and based on their review, the committee determined that you are eligible to close out your case using a deed restriction and by listing the case on the DNR's registry of contaminated sites. There are three issues remaining; 1) soil contamination, 2) groundwater contamination, and 3) monitoring well abandonment.

Soil contamination - You will need to place a restriction on the property deed to assure that any remaining soil contamination (under buildings, next to obstructions, or under the shallow water table) will be properly addressed in the future. If the buildings are removed, we expect an investigation to determine the appropriate means for dealing with the remaining contamination. Also, any soil removed from the site should be treated in accordance with the appropriate waste handling guidelines. The property must also be placed on the DNR's registry of sites with soil contamination after the deed restriction has been filed.

Groundwater contamination - Your property and the down-gradient property will need to be placed on the DNR's registry of sites with groundwater contamination.

Monitoring well abandonment - The wells at the site should be properly abandoned, but *not until after* the site has been placed on both the soil and groundwater registry. If for some reason there is a delay in completing the remaining administrative tasks I may require additional groundwater monitoring. I expect that the needed tasks could be done within three months.

Please let me know if you have any questions.

Thank you,

Jeff Ackerman

Parcel Identification Number  
(PIN)

WHEREAS, Kewaunee Cooperative is the owner of the above-described property.

WHEREAS, one or more discharges of pesticides and herbicides have occurred on this property. Nitrogen compound and pesticide compound-contaminated soil above regulatory levels suggested by the Department of Agriculture, Trade, and Consumer Protection may exist on this property at the following locations: nitrogen compounds in the unsaturated zone at former soil boring Location B-20; nitrogen and pesticide compounds in the saturated zone beneath the remedial excavations; and, nitrogen and pesticide compounds in the saturated and unsaturated zone beneath the adjacent structures (i.e., fertilizer storage building and storage silo) on the subject property. Locations of soil borings, remedial excavations, and site features are provided on Figure 1 (attached) and made part of this restriction.

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct further soil remediation activities on the property at the present time.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied, and improved subject to the following limitation and restrictions:

Anyone who proposes to complete subsurface work on the property in the saturated zone or, in the unsaturated zone which removes the structural

impediments identified above, shall contact the Department of Natural Resources' Remediation and Redevelopment Bureau, or its successor agency, to determine what specific requirements are applicable, prior to initiating the subsurface work on this property.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase, or otherwise. This restriction benefits and is enforceable by the Wisconsin Department of Natural Resources, its successors, or assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that one or more of the restrictions set forth in this covenant is no longer required. Upon the receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the Department determines that the restrictions can be extinguished, an affidavit, attached to a copy of the Department's written determination, may be recorded to give notice that this deed restriction, or portions of this deed restriction, are no longer binding.

By signing this document, Mr. Ken Healey asserts that he is duly authorized to sign this document on behalf of Kewaunee Cooperative.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 9th day of October, 2003.
