Groundwater Use Registry Buckslip

Site Name FORMER CIRCLE C FOODS

Address 1140 2ND AVENUE

CUMBERLAND, WI 54829

BRRTS # 03-03-000091

GPS Location: _____ latitude _____ longitude

Date of Closure Decision 11/23/99

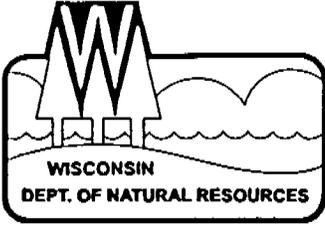

Required

- Closure Letter
- Deeds for all properties with ES exceedance in Groundwater (RECORDED GWUR)
- GPS location (latitude and longitude)
- Location map
- Detailed Site Map
- Groundwater Flow Direction Diagram including location of monitoring wells and all drinking water wells
- Latest Groundwater Plume Map with Groundwater Flow Direction N/A
- Latest Table of Analytical Results for Groundwater

If Available, include the following:

- Metes and Bounds Legal Description
- Tax Parcel Number or Deed #212-1199-11-000
- Geologic cross sections showing soil and groundwater contaminant source extent and location, isoconcentrations for all groundwater contaminants that exceed NR 140 enforcement standards, water table and piezometric elevations, and the extent, location and elevation of geologic units, bedrock, and confining unites

Edina, MN 55436

Subject: Former Circle C Foods, Cumberland, WI, BRRTS # 03-03-000091

Dear Mr. Greene:

The Department of Natural Resources provided a notice to you that the degree and extent of gasoline and diesel fuel contamination at the above-named site was required to be investigated and remediated. We have since been informed that the required investigation and remediation has been accomplished.

On February 8, 1999, the above-named site was reviewed by the Northern Region Closeout Committee for a determination as to whether or not the case qualified for close out under ch. NR 726, Wis. Adm. Code.

Based on the investigative and remedial documentation provided to the Department, it appears that the gasoline and diesel fuel contamination at the above-named site has been remediated in compliance with the requirements of chs. NR 700 to 724, Wis. Adm. Code. Therefore, the Department considers the case "closed," having determined that no further action is necessary at the site at this time. However, due to the presence of residual contamination remaining in the groundwater, a condition of the closeout of the case is that the owner sign and record a Groundwater Use Restriction for the property.

Enclosed is an example of a Groundwater Use Restriction. Please draft a specific Groundwater Use Restriction for this site and submit the draft to me. Department of Natural Resources attorneys will review the draft and return it to you with revisions. After you have made the revisions, you should sign and record the restriction with the County Register of Deeds. To document that this condition has been complied with, the property owner must submit to the Department a copy of the recorded Groundwater Use Restriction, with the recording information stamped on it, within 15 days after the Register of Deeds returns the Groundwater Use Restriction to the property owner. The Groundwater Use Restriction may be amended in the future with the approval of DNR if conditions change at the site and the residual contamination is remediated.

Please note that this case closure is contingent upon proper documentation of proper abandonment of the monitoring wells on site. If monitoring wells remain at this site, please provide the documentation that this action has been completed, or have your consultant do so. The documentation can be sent to my attention at the above address.

Quality Natural Resources Management
Through Excellent Customer Service

If you have any additional information which was not formerly provided to the Department, and which you feel would significantly impact this closure decision, you may submit that information for our re-evaluation of case closure.

If you have any questions, please call me at 715-365-8990.

Sincerely,
NORTHERN REGION

Janet Kazda
Case Closeout Committee

STATE OF WISCONSIN

COUNTY OF BARRON

WHEREAS, Jon F. Noah and Timothy L. Christensen are the owners of the above-described property.

WHEREAS, one or more petroleum discharges have occurred at this property. Benzene contaminated groundwater exists at this property at Monitoring Well-2 (MW-2) with a concentration of 62 micrograms per liter ($\mu\text{g/l}$), which is above Wisconsin Administrative Code ("WAC") NR 140 enforcement standards (ES) of $5\mu\text{g/l}$. Toluene contaminated groundwater exists at this property at MW-2 with a concentration of $1,200\mu\text{g/l}$ which is above Wisconsin Administrative Code ("WAC") NR 140 enforcement standards (ES) of $343\mu\text{g/l}$. Ethylbenzene contaminated groundwater exists at this property at MW-2 with a concentration of $2,000\mu\text{g/l}$ which is above Wisconsin Administrative Code ("WAC") NR 140 enforcement standards (ES) of $700\mu\text{g/l}$. Xylene (total xylenes) contaminated groundwater exists at this property at MW-2 with a concentration of $8,900\mu\text{g/l}$ which is above Wisconsin Administrative Code ("WAC") NR 140 enforcement standards (ES) of $620\mu\text{g/l}$. Exhibit A, attached and hereby made a part of this restriction, presents a site map showing the monitoring locations.

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct additional soil or groundwater remediation activities on the property at the present time.

WHEREAS, natural attenuation has been approved by the Department of Natural Resources to remediate groundwater exceeding ch. NR 140 groundwater standards within the boundaries of this property.

WHEREAS, construction of wells where the water quality exceeds the drinking water standards in ch. NR 809 is restricted by ch. NR 811 and ch. NR 812. Special well construction standards or water treatment requirements, or both, or well construction prohibitions may apply.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitation and restrictions:

Anyone who proposes to construct or reconstruct a well on this property is required to contact the Department of Natural Resources' Bureau of Drinking Water and Groundwater, or its successor agency, to determine what specific prohibitions or requirements are applicable, prior to constructing or reconstructing a well on this property. No well may be constructed or reconstructed on this property unless applicable requirements are met.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction benefits and is enforceable by, the Wisconsin Department of Natural Resources, its successors and assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that the restrictions set forth in this covenant are no longer required. Upon receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the Department determines that the restrictions can be extinguished, an affidavit, with a copy of the Department's written determination, may be recorded to give notice that this groundwater use restriction is no longer binding.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 11 day of October, 1999.
