DOCUMENTS NEEDED:

Closure Letter, and any conditional closure letter issued

Copy of most recent deed, including legal description, for all affected properties

Certified survey map or relevant portion of the recorded plat map *(if referenced in the legal description)* for all affected properties

County Parcel ID number, *if used for county*, for all affected properties 018010513100

Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.

Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.

Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)

N/A

Tables of Latest Soil Analytical Results (no shading or cross-hatching)

Isoconcentration map(s), *if required for site investigation (SI)* (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.

N/A

GW: Table of water level elevations, with sampling dates, and free product noted if present

N/A

GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)

N/A

SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour

N/A

Geologic cross-sections, *if required for SI*. (8.5x14" if paper copy)

RP certified statement that legal descriptions are complete and accurate

Copies of off-source notification letters (if applicable)

N/A

Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)

N/A

Copy of (soil or land use) deed restriction(s) or deed notice *if any required as a condition of closure*

Subject: Enbridge Energy Superior Tank Farm Pumphouse No. 6
2800 E 21st Ave, Superior, Wisconsin
BRRTS # 02-16-279246

Dear Mr. Meneghini:

On March 4, 2004, your site as described above was reviewed for closure by the Northern Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On March 17, 2004, you were notified that the Closure Committee had granted conditional closure to this case.

On August 16, 2005, the Department received correspondence indicating that you have complied with the conditions of closure, specifically, a recorded deed restriction for the site. Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>

If your property is listed on the GIS Registry due to groundwater contamination exceeding ch. NR 140 standards at the time of closure, and you intend to construct or reconstruct a well, you will need Department approval. Department approval is required before construction or reconstruction of a well on a property listed on the GIS Registry, in accordance with s. NR 812.09(4)(w). To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line at the web address listed above.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

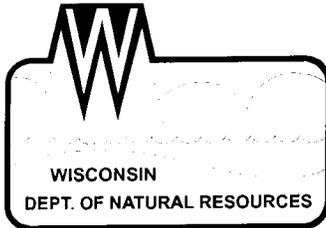

Sincerely,
NORTHERN REGION

Subject: Conditional Case Closure With NR 140 Exemption
Enbridge Energy Superior Tank Farm Pumphouse No. 6,
2800 E 21st Ave, Superior, Wisconsin
WDNR BRRTS # 02-16-279246

Dear Mr. Meneghini:

On March 4, 2004, your request for closure of the case described above was reviewed by the Regional Closure Committee. The Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the Closure Committee has determined that the crude oil contamination on the site from the site appears to have been investigated and remediated to the extent practicable under site conditions. Your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code and will be closed if the following conditions are satisfied:

To close this site, the Department requires a deed restriction be signed and recorded to address the issue of the remaining soil contamination associated with the site. The purpose of the restriction is to maintain the current industrial use zoning classification.

You will need to submit a draft deed restriction to me before the document is signed and recorded. You may find a model deed restriction enclosed for your use or visit our web site at www.dnr.state.wi.us/org/rr. To assist us in our review of the deed restriction, you should submit a copy of the property deed to me along with the draft document. After the Department of Natural Resources has reviewed the draft document for completeness, you should sign it if you own the property, or have the appropriate property owner sign it, and have it recorded by the Douglas County Register of Deeds. Then submit a copy of the recorded document, with the recording information stamped on it, to me. Please be aware that if a deed restriction is recorded for the wrong property because of an inaccurate legal description that you have provided, you will be responsible for recording corrected documents at the Register of Deeds Office to correct the problem.

A complete Soil GIS Registry package should be forwarded to me at the above address. Although some of the materials were included in the closure package, GIS materials should be submitted as separate stand-alone packages. Because there are numerous parcels with many

*Quality Natural Resources Management
Through Excellent Customer Service*

difference legal descriptions on the deed for this property, the RP-certified statement should identify which of the parcels on this deed relates to the contaminated parcel in question. The RP-certified statement should not refer to an attachment or other submitted document.

When the above conditions have been satisfied, please submit a letter to let me know that applicable conditions have been met, and your case will be closed. Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>.

Recent groundwater monitoring data at this site indicates exceedances of the NR 140 preventive action limit (PAL) for benzene at Well # TW-1, but compliance with the NR 140 enforcement standard. The Department may grant an exemption to a PAL for a substance of public health concern, other than nitrate, pursuant to s. NR 140.28(2)(b), Wis. Adm. Code, if all of the following criteria are met:

1. The measured or anticipated increase in the concentration of the substance will be minimized to the extent technically and economically feasible.
2. Compliance with the PAL is either not technically or economically feasible.
3. The enforcement standard for the substance will not be attained or exceeded at the point of standards application.
4. Any existing or projected increase in the concentration of the substance above the background concentration does not present a threat to public health or welfare.

Based on the information you provided, the Department believes that the above criteria have been or will be met. Therefore, pursuant to s. NR 140.28(2)(b), Wis. Adm. Code, an exemption to the PAL is granted for benzene at Well # TW-1. This letter serves as your exemption.

If this is a PECFA site, section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, or welfare or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

Sincerely,
Northern Region

County, Wisconsin.

The following described real estate situated in Douglas
County, Wisconsin:

South Half (S $\frac{1}{2}$) Section Thirty-six (36) Township Forty-nine
(49) North of Range Fourteen (14) West, except the following
described tracts of land:

(a) Government Lot One (1)

(b) A strip of land Four Hundred Feet (400') wide
through the Northwest Quarter Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$)
lying Southeasterly of and adjacent to the present
Northern Pacific Railway Company's right of way

(c) A triangular piece lying Northwesterly of Northern
Pacific Railway Company's right of way, S5D96 and
109D52 $\frac{1}{2}$

(d) A strip of land Three Hundred Feet (300') in width
North and South from the South line of said Section and
further extending from the West line to the East line
of said Southwest Quarter (SW $\frac{1}{4}$)

(e) A tract of land described as follows:

Beginning at the Southwest corner of the Southeast
Quarter (SE $\frac{1}{4}$) of Section Thirty-six (36) Township
Forty-nine (49) North of Range Fourteen (14) West,
and proceeding North along the Quarter Section line
a distance of One Thousand Four Hundred Eighty-two
and 04/100 (1482.04) feet, thence at an angle of

-4-

Ninety Degrees Three and one-half minutes (90°3 $\frac{1}{2}$ ')
to the right and proceeding for a distance of One
Thousand Six Hundred Sixty (1660.) feet, thence
turning at an angle of Forty-Six Degrees Ten Minutes
Forty Seconds (46°10' 40") to the right, thence pro-
ceeding to the northerly bank of the Nemadji River
as now situated, thence proceeding in a westerly
direction along the bank of the Nemadji River and
following said bank to the South section line of
said Southeast Quarter (SE $\frac{1}{4}$), thence proceeding
westerly along the South section line to the point
of beginning, said tract of land containing approx-
imately Fifty-six and 7/10 (56.7) acres more or less

WHEREAS, ENBRIDGE ENERGY, LIMITED PARTNERSHIP is the owner of the above-described property.

WHEREAS, one or more crude oil discharges have occurred on this property, and as of 8/10/04 when a soil sample was collected on this property, benzene(a)pyrene was detected in exceedance of its respective non-industrial direct contact RCL of 8.8 µg/Kg (refer to Exhibit A).

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct further soil remediation activities on the property at the present time.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitation and restrictions:

The property described above may not be used or developed for a residential, commercial, agricultural or other non-industrial use, unless (at the time that the non-industrial use is proposed) an investigation is conducted, to determine the degree and extent of contamination that remains on the property, and remedial action is taken as necessary to meet all applicable non-industrial soil cleanup standards. If soil that remains on the property in the location or locations described above is excavated in the future, it will have to be sampled and analyzed, may be considered solid or hazardous waste if residual contamination remains, and must be stored, treated and disposed in compliance with applicable statutes and rules.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction inures to the benefit of and is enforceable by the Wisconsin Department of Natural Resources, its successors or assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

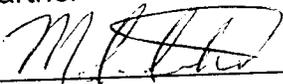

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that one or more of the restrictions set forth in this covenant is no longer required. Upon the receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the Department determines

that the restrictions can be extinguished, an affidavit, attached to a copy of the Department's written determination, may be recorded by the property owner or other interested party to give notice that this deed restriction, or portions of this deed restriction, are no longer binding.

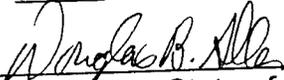

By signing this document, Mark Sitek asserts that he is duly authorized to sign this document on behalf of Enbridge Energy, Limited Partnership.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 28th day of MARCH, 2005.
