*\*\*Site Specific Residual Contaminant Level*

This Adobe Fillable form is intended to provide a list of information that is required for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request. The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

**NOTICE: Completion of this form is mandatory** for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

BRRTS #:  PARCEL ID #:

ACTIVITY NAME:  WTM COORDINATES: X:  Y:

**CLOSURE DOCUMENTS** (the Department adds these items to the final GIS packet for posting on the Registry)

- Closure Letter**
- Maintenance Plan** (if activity is closed with a land use limitation or condition (land use control) under s. 292.12, Wis. Stats.)
- Conditional Closure Letter**
- Certificate of Completion (COC)** for VPLE sites

**SOURCE LEGAL DOCUMENTS**

- Deed:** The most recent deed as well as legal descriptions, for the **Source Property** (where the contamination originated). Deeds for other, off-source (off-site) properties are located in the **Notification** section.  
*Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.*
- Certified Survey Map:** A copy of the certified survey map or the relevant section of the recorded plat map for those properties where the legal description in the most recent deed refers to a certified survey map or a recorded plat map. (lots on subdivided or platted property (e.g. lot 2 of xyz subdivision)).  
**Figure #:**                      **Title:**
- Signed Statement:** A statement signed by the Responsible Party (RP), which states that he or she believes that the attached legal description accurately describes the correct contaminated property.

**MAPS** (meeting the visual aid requirements of s. NR 716.15(2)(h))

- Maps must be no larger than 8.5 x 14 inches unless the map is submitted electronically.
- Location Map:** A map outlining all properties within the contaminated site boundaries on a U.S.G.S. topographic map or plat map in sufficient detail to permit easy location of all parcels. If groundwater standards are exceeded, include the location of all potable wells within 1200 feet of the site.  
*Note: Due to security reasons municipal wells are not identified on GIS Packet maps. However, the locations of these municipal wells must be identified on Case Closure Request maps.*  
**Figure #: 1**                      **Title: Site Location**
  - Detailed Site Map:** A map that shows all relevant features (buildings, roads, individual property boundaries, contaminant sources, utility lines, monitoring wells and potable wells) within the contaminated area. This map is to show the location of all contaminated public streets, and highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding a ch. NR 140 Enforcement Standard (ES), and/or in relation to the boundaries of soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Levels (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.  
**Figure #: 2**                      **Title: Site Layout**
  - Soil Contamination Contour Map:** For sites closing with residual soil contamination, this map is to show the location of all contaminated soil and a single contour showing the horizontal extent of each area of contiguous residual soil contamination that exceeds a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.  
**Figure #: 2**                      **Title: Site Layout**

BRRTS #: 03-44-251704

ACTIVITY NAME: CRESCENT CORNERS BAR (FORMER)

**MAPS (continued)**

- Geologic Cross-Section Map:** A map showing the source location and vertical extent of residual soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL). If groundwater contamination exceeds a ch. NR 140 Enforcement Standard (ES) when closure is requested, show the source location and vertical extent, water table and piezometric elevations, and locations and elevations of geologic units, bedrock and confining units, if any.

**Figure #:**                      **Title:**

**Figure #:**                      **Title:**

- Groundwater Isoconcentration Map:** For sites closing with residual groundwater contamination, this map shows the horizontal extent of all groundwater contamination exceeding a ch. NR140 Preventive Action Limit (PAL) and an Enforcement Standard (ES). Indicate the direction and date of groundwater flow, based on the most recent sampling data.

**Note:** *This is intended to show the total area of contaminated groundwater.*

**Figure #:**                      **Title:**

- Groundwater Flow Direction Map:** A map that represents groundwater movement at the site. If the flow direction varies by more than 20° over the history of the site, submit 2 groundwater flow maps showing the maximum variation in flow direction.

**Figure #:**                      **Title:**

**Figure #:**                      **Title:**

**TABLES (meeting the requirements of s. NR 716.15(2)(h)(3))**

Tables must be no larger than 8.5 x 14 inches unless the table is submitted electronically. Tables must not contain shading and/or cross-hatching. The use of **BOLD** or *ITALICS* is acceptable.

- Soil Analytical Table:** A table showing remaining soil contamination with analytical results and collection dates.  
**Note:** This is one table of results for the contaminants of concern. Contaminants of concern are those that were found during the site investigation, that remain after remediation. It may be necessary to create a new table to meet this requirement.

**Table #: 1                      Title: Soil Laboratory Results**

- Groundwater Analytical Table:** Table(s) that show the most recent analytical results and collection dates, for all monitoring wells and any potable wells for which samples have been collected.

**Table #:                      Title:**

- Water Level Elevations:** Table(s) that show the previous four (at minimum) water level elevation measurements/dates from all monitoring wells. If present, free product is to be noted on the table.

**Table #:                      Title:**

**IMPROPERLY ABANDONED MONITORING WELLS**

For each monitoring well not properly abandoned according to requirements of s. NR 141.25 include the following documents.

**Note:** *If the site is being listed on the GIS Registry for only an improperly abandoned monitoring well you will only need to submit the documents in this section for the GIS Registry Packet.*

- Not Applicable**

- Site Location Map:** A map showing all surveyed monitoring wells with specific identification of the monitoring wells which have not been properly abandoned.

**Note:** *If the applicable monitoring wells are distinctly identified on the Detailed Site Map this Site Location Map is not needed.*

**Figure #:**                      **Title:**

- Well Construction Report:** Form 4440-113A for the applicable monitoring wells.

- Deed:** The most recent deed as well as legal descriptions for each property where a monitoring well was not properly abandoned.

- Notification Letter:** Copy of the notification letter to the affected property owner(s).

BRRTS #: 03-44-251704

ACTIVITY NAME: CRESCENT CORNERS BAR (FORMER)

## NOTIFICATIONS

### Source Property

- Letter To Current Source Property Owner:** If the source property is owned by someone other than the person who is applying for case closure, include a copy of the letter notifying the current owner of the source property that case closure has been requested.
- Return Receipt/Signature Confirmation:** Written proof of date on which confirmation was received for notifying current source property owner.

### Off-Source Property

Group the following information per individual property and label each group according to alphabetic listing on the "Impacted Off-Source Property" attachment.

- Letter To "Off-Source" Property Owners:** Copies of all letters sent by the Responsible Party (RP) to owners of properties with groundwater exceeding an Enforcement Standard (ES), and to owners of properties that will be affected by a land use control under s. 292.12, Wis. Stats.  
**Note:** Letters sent to off-source properties regarding residual contamination must contain standard provisions in Appendix A of ch. NR 726.  
**Number of "Off-Source" Letters:**
- Return Receipt/Signature Confirmation:** Written proof of date on which confirmation was received for notifying any off-source property owner.
- Deed of "Off-Source" Property:** The most recent deed(s) as well as legal descriptions, for all affected deeded **off-source property(ies)**. This does not apply to right-of-ways.  
**Note:** If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.
- Letter To "Governmental Unit/Right-Of-Way" Owners:** Copies of all letters sent by the Responsible Party (RP) to a city, village, municipality, state agency or any other entity responsible for maintenance of a public street, highway, or railroad right-of-way, within or partially within the contaminated area, for contamination exceeding a groundwater Enforcement Standard (ES) and/or soil exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL).  
**Number of "Governmental Unit/Right-Of-Way Owner" Letters: 1**

RE: **Final Closure**

**Commerce # 54501-9413-21-A DNR BRRTS # 03-44-251704**  
Crescent Corners, 5821 Hat Rapids Rd, Rhinelander

Dear Mr. Houle:

The Wisconsin Department of Commerce (Commerce) has reviewed the request for case closure prepared by your consultant, Sand Creek Consultants Inc, for the site referenced above. Commerce has determined that this site does not pose a significant threat to human health or the environment. No further investigation or remedial action is necessary.

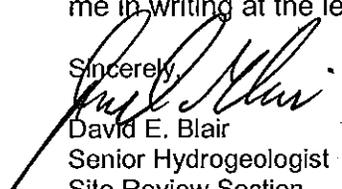

This case is now listed as "closed" on the Commerce database and will be included on the Department of Natural Resources (DNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual contamination. To review sites on the GIS Registry web page, visit <http://dnr.wi.gov/org/aw/rr/gis/index.htm>. If you intend to construct or reconstruct a potable well on this property, you must get prior DNR approval.

All current and future owners and occupants of the property need to be aware that excavation of contaminated soil may pose a hazard. Special precautions may be needed to prevent inhalation, ingestion or dermal contact with the residual contamination when it is removed. If soil is excavated, the property owner at the time of excavation must have the soil sampled and analyzed to determine if residual contamination remains. If sampling confirms that contamination is present, the property owner at the time of excavation must determine whether the material would be considered solid or hazardous waste and ensure that any storage, treatment or disposal is in compliance with applicable State regulations and standards.

Costs for sampling and excavation activities conducted after case closure are not eligible for PECFA reimbursement. However, if it is determined that any undisturbed remaining petroleum contamination poses a threat, the case may be reopened and further investigation or remediation may be required. If this case is reopened, any original claim under the PECFA fund would also reopen and you may apply for assistance to the extent of remaining eligibility.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 261-2515.

Sincerely,

David E. Blair  
Senior Hydrogeologist

**PARCEL 1:**

That part of the NE 1/4 of the NE 1/4 of Section 35, Township 36 North, Range 8 East, described as follows:

Commencing at the northeast corner of the NE 1/4 of the NE 1/4, Section 35, Township 36 North, Range 8 East; thence west on the north line of said description a distance of 317 feet to a point marking the middle of the right of way of State Highway No. 17; thence in a southerly direction along the center line of said highway a distance of 200 feet; thence at right angles and parallel to the north line of said description easterly a distance of approximately 346 feet to the east line of said NE 1/4 of the NE 1/4; thence northerly on the east line of said NE 1/4 of the NE 1/4 to the place of beginning.

EXCEPT that part used for highway purposes.

EXCEPT that part described in Volume 223 Deeds, page 353.

**PARCEL 2:**

That part of the NE 1/4 of the NE 1/4 of Section 35, Township 36 North, Range 8 East, lying west of State Trunk Highway 17, described as follows:

Commencing at the northeast corner of Section 35, Township 36 North, Range 8 East; thence west along the north line of the NE 1/4 of the NE 1/4 of Section 35, Township 36 North, Range 8 East, being also the center line of a town road, a distance of 316 feet to a point where the center line of said road intersects the center line of State Trunk Highway 17 and being the point of beginning of the parcel herein described; thence continuing west along the north line of said NE 1/4 of the NE 1/4, being also the center line of said town road, a distance of 692 feet; thence south at right angles to the north line of said NE 1/4 of the NE 1/4, 163 feet; thence east parallel with the north line of the said NE 1/4 of the NE 1/4, a distance of 592 feet; thence south a distance of 44 feet; thence east parallel with the north boundary line of said NE 1/4 of the NE 1/4 a distance of 85 feet, more or less, to a point in the center of said State Trunk Highway 17; thence north along the center line of said State Highway 17, a distance of 207 feet, more or less, to the point of beginning.

EXCEPT the West 330 feet thereof.

**PARCEL 3:**

A parcel of land being a part of the NE 1/4 of the NE 1/4, Section 35, Township 36 North, Range 8 East and being more particularly described as follows:

Commencing at the northeast corner of Section 35; thence westerly along the north line of Section 35 a distance of 316.0 feet to a point; thence S. 4°00' W., a distance of 207.0 feet to a point and the place of beginning of the parcel to be described; thence continue S. 4°00' W., a distance of 436.69 feet to a stake; thence S. 86°39' W., a distance of 949.62 feet to a stake on the east 1/16th line of Section 35; thence northerly along the east 1/16th line to its intersection with the north line of Section 35; thence easterly along the north line of Section 35, a distance of 297.66 feet to a point; thence southerly parallel to the east line of Section 35 a distance of 163.0 feet to a point; thence easterly parallel to the north line of Section 35 a distance of 592.0 feet to a point; thence southerly parallel to the east line of Section 35 a distance of 44.0 feet to a point; thence easterly parallel to the north line of Section 35 a distance of 85.0 feet, more or less, to the point of beginning.

EXCEPTING premises taken in an award of damages recorded in Volume 223 of Deeds, page 539; and EXCEPT the West 630 feet thereof.

**Statement Regarding Legal Description of  
Crescent Corners Bar  
5821 Hat Rapids Road  
WDNR BRRTS # 03-44-251704

WDNR BRRTS # 03-44-251704 Commerce # 54501-9413-21

**Subject: Notification of Petroleum Impacted Soil within Right-of-Way**

Dear Ms. Hartman:

Petroleum-impacted soil is present within the Town of Crescent right of way of Hat Rapids Road. The impacted soil was the result of a former leaking underground storage tank system associated with the property located at 5821 Hat Rapids Rd, Rhineland, Wisconsin (see Figure 1). This notification is being sent on behalf of the responsible party, Dennis Houle and in accordance with case closure requirements set forth in Chapter NR 726, Wisconsin Administrative Code.

The concentrations of petroleum-impacted soil in the right-of-way are above the NR 720 residual contaminant levels for gasoline range organics and several petroleum volatile organic compounds. The depth of impacted soil is approximately 0 to 12 feet. The approximate extent of impacted soil is shown in Figure 2.

Investigation at this site indicates that the impacted soil will naturally degrade over time. Allowing natural attenuation to run its course should complete the cleanup at this site and meet the NR 726 case closure requirements. It is anticipated that the Wisconsin Department of Commerce (COMM) will approve natural attenuation as the final remedy for this site and case closure will be pending GIS Registry. Closure means that COMM will not be requiring any further investigation or cleanup action to be taken, other than the reliance on natural attenuation. When the case is closed, all properties within the boundaries of soil impacts, including right-of-way, will be listed on the Wisconsin Department of Natural Resources (WDNR's) geographic information system (GIS) Registry of Closed Remediation Sites. The GIS Registry is available on the WDNR's web site at [www.dnr.wi.gov/org/aw/rr/gis/index.htm](http://www.dnr.wi.gov/org/aw/rr/gis/index.htm).

If you need more information, you may contact me at Sand Creek Consultants, PO Box 218, Amherst, Wisconsin 54406, 715-824-5169, or you may contact Mr. Dennis Houle at N10751 State Hwy 17, Gleason, WI 54435-9006.

Sincerely,

**SAND CREEK CONSULTANTS, INC.**
