**DOCUMENTS NEEDED:**

- Closure Letter, and any conditional closure letter issued
- Copy of most recent deed, including legal description, for all affected properties
- Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties N/A
- County Parcel ID number, if used for county, for all affected properties on deed and RP statement
- Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.
- Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.
- Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)
- Tables of Latest Soil Analytical Results (no shading or cross-hatching)
- Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.
- GW: Table of water level elevations, with sampling dates, and free product noted if present
- GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)
- SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour
- Geologic cross-sections, if required for SI. (8.5x14" if paper copy)
- RP certified statement that legal descriptions are complete and accurate
- Copies of off-source notification letters (if applicable)
- Letter Informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)
- Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure

SUBJECT: Final Case Closure By Closure Committee  
Phil Kaiser Property, 314 W Railroad Ave, Bruce, WI  
WDNR BRRTS #:02-55-000158

Dear Mr. Kaiser:

On December 4, 2003, your site as described above was reviewed for closure by the Northern Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On January 14, 2004, you were notified that the Closure Committee had granted conditional closure to this case.

On April 27, 2004, the Department received correspondence indicating that you have complied with the conditions of closure, specifically, documentation of the abandonment of the monitoring wells. Based on the correspondence and data provided, it appears your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm> If your property is listed on the GIS Registry due to groundwater contamination exceeding ch. NR 140 standards at the time of closure, and you intend to construct or reconstruct a well, you will need Department approval. Department approval is required before construction or reconstruction of a well on a property listed on the GIS Registry, in accordance with s. NR 812.09(4)(w). To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line at the web address listed above.

If there is equipment purchased with PECFA funds remaining at the site, contact the Commerce PECFA Program to determine the method for salvaging the equipment.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

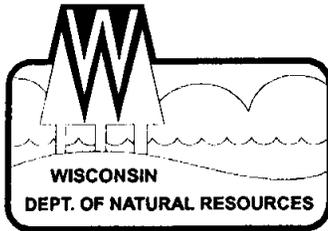

Sincerely,  
NORTHERN REGION

Bruce, WI 54819

Subject: Conditional Case Closure  
Phil Kaiser Property, 314 W Railroad Ave, Bruce, Wisconsin  
WDNR BRRTS # 02-55-000158

Dear Mr. Kaiser:

On December 4, 2003, your request for closure of the case described above was reviewed by the Northern Region Closure Committee. The Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the Closure Committee has determined that the tetrachloroethene and trichloroethene contamination on the site appears to have been investigated and remediated to the extent practicable under site conditions. Your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code and will be closed if the following conditions are satisfied:

The monitoring wells at the site must be properly abandoned in compliance with ch. NR 141, Wis. Adm. Code. Documentation of well abandonment must be submitted to me on Form 3300-5B found at [www.dnr.state.wi.us/org/water/dgw/gw/](http://www.dnr.state.wi.us/org/water/dgw/gw/) or provided by the Department of Natural Resources.

When the above conditions have been satisfied, please submit a letter to let me know that applicable conditions have been met, and your case will be closed. Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>.

If this is a PECFA site, section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, or welfare or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions

regarding this letter, please contact me at 715-365-8990.

Sincerely,  
NORTHERN REGION

This Indenture, Made this 8th day of January 19 90.

by and between the County of Rusk in the State of Wisconsin, party of the first part, and John P. Kaiser and Philip M. Kaiser, as joint tenants N6450 Hackett Road, Hawkins, WI 54530 of Rusk County, in the State of Wisconsin, part i.e.s. of the second part.

Witnesseth, that the County Board of Supervisors of said Rusk County, at a legal meeting held on the 16th day of April, 19 98, authorized the sale and conveyance of the lands hereinafter described.

Therefore, said Rusk County, for and in consideration of the sum of One thousand fifty and no/100 Dollars, to it in hand paid by the said part i.e.s. of the second part, the receipt whereof is hereby confessed and acknowledged, has given, granted, bargained, sold, remised, released and quit-claimed, and by these presents does give, grant, bargain, sell, remise, release and quit-claim unto the said part i.e.s. of the second part, and to their heirs and assigns forever, the following described real estate, situated in the County of Rusk, State of Wisconsin, to-wit:

VILLAGE OF BRUCE - BRUCE PARCELS

Part of SE NE 6-34-7

FEE

\$ 7.44 (3) EXEMPT

As described in Volume 172, Page 77, Ex 186/392, more particularly described as:

Commencing at a point in the center of County Trunk Highway H two hundred eighty-three (283') feet Northwesterly from the Southwest corner of Block Six (6), Original Plat of the Village of Bruce, the same being on the Northeast side of County Trunk Highway H as now laid out and constructed; thence on a line Northwesterly parallel with the center of said highway a distance of two hundred sixty-four (264') feet; thence North one hundred forty (140') feet; thence East two hundred thirty-one (231') feet; thence South two hundred twenty-two (222') feet to the place of beginning, all of said land being in the Village of Bruce.

To Have and to Hold the same, together with all and singular the appurtenances and privileges thereunto belonging or in anywise thereunto appertaining, and all the estate, right, title, interest and claim whatsoever of the said party of the first part, either in law or in equity, either in possession or expectancy of, to the only proper use, benefit and behoof of the said part i.e.s. of the second part, their heirs and assigns forever.

In Witness Whereof, said Rusk County has caused this deed to be executed in its behalf by Melanie Meyer, its County Clerk, and its official County Seal to be hereto affixed, this 8th day of January, 19 90.

IN PRESENCE OF

By Melanie Meyer, County Clerk, Rusk County

(COUNTY SEAL)

State of Wisconsin,

Rusk County, ss.

Personally came before me this 8th day of January, 19 90, the above named Melanie Meyer, County Clerk of Rusk County, Wisconsin, to me known to be such officer and to be the person who executed the foregoing instrument and acknowledged that she executed the same as the act and deed of said Rusk County and by its authority.

This instrument drafted by: Melanie Meyer, County Clerk, Rusk County, Wisconsin.

Gentlemen;

I, Philip M. Kaiser (a/k/a Phil Kaiser) hereby certify that the Legal Description attached is an accurate description of the property owned by me, which is the subject of a site contamination investigation. This property is located at 314 West Railroad Avenue in the Village of Bruce, Wisconsin, and is referenced in the caption above. The Legal Description attached is also included in the Personal Representatives Deed (also attached) which is dated December 20, 1994 and was recorded on December 27, 1994 in Volume 309 of Records on Pages 599-600 in the Register's Office for Rusk County, Wisconsin.

Please call me if there is any additional information that you require.

Sincerely,

Philip M. Kaiser a/k/a Phil Kaiser

(PKP04-2200-0423)

Mr. James Locke  
Village of Bruce Fire Chief  
705 North 2<sup>nd</sup> Street  
Bruce, Wisconsin 54819

Re: Notification of Residual Contamination, Bruce Fire Department Property, West Railroad Avenue,  
Bruce, Wisconsin

Dear Mr. Locke:

Ground-water contamination that appears to have originated on the Phil Kaiser Property located at 314 West Railroad Avenue, Bruce, Wisconsin has migrated onto the Village of Bruce Fire Department Property located at 809 Blackburn Street, Bruce, Wisconsin. The levels of Tetrachloroethene and Trichloroethene contamination in the ground water on your property are above the state ground-water enforcement standards found in chapter NR 140, Wisconsin Administrative Code (WAC). However, the ground-water contaminant plume is stable or receding and will naturally degrade over time. We believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 726, WAC, and we will be requesting that the Wisconsin Department of Natural Resources (WDNR) accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the WDNR will not be requiring any further investigation or cleanup action be taken, other than the reliance on natural attenuation. Please see the enclosed map for the location of the residual ground-water contamination.

Since the source of the ground-water contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this ground-water contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of section 292.13, Wisconsin Statutes, you may call 1-800-367-6076 for calls originating in Wisconsin, or 608-264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the WDNR's publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination.

The WDNR will not review the closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the WDNR to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the WDNR that is relevant to this closure request, you should mail that information to: Mr. William P. Schultz, P.E., Remediation Engineer, Northern Region, Wisconsin Department of Natural Resources, 107 Sutliff Avenue, Rhinelander, Wisconsin 54501.

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds chapter NR 140 ground-water enforcement standards will be listed on the WDNR's geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where ground-water contamination above chapter NR 140 enforcement standards was found at the time that the case was closed. This GIS Registry

will be available to the general public on the WDNR's Internet web site. Please review the enclosed legal description of your property, and notify us within the next 30 days if the legal description is incorrect.

Legal description: A parcel in the Southeast quarter of the Northeast Quarter (SE ¼-NE ¼) of Section Six (6), Township Thirty-four (34) North, Range Seven (7) West described as follows: Commencing at a point thirty-three (33) feet West of the Southwest corner of Block Six (6) of the Original Plat of the Village of Bruce, running thence North three hundred fifty (350) feet; thence West one hundred seventy-seven (177) feet; thence south and parallel with the East line, to the north line of highway running from Bruce, Wisconsin, to Atlanta, Wisconsin (Now State Highway #40) as now laid out and constructed; thence in a south-easterly direction along the north line of said highway to the place of beginning.

Should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from the residual ground-water contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Digger's Hotline (1-800-242-8511) if your property is located outside of the service area of a municipally owned water system, or contact the Drinking Water program within the WDNR if your property is located within the designated service area of a municipally owned water system, to determine if there is a need for special well construction standards.

Once the WDNR makes a decision on the closure request, it will be documented in a letter. If the WDNR grants closure, you may obtain a copy of this letter by accessing the WDNR's GIS Registry of Closed Remediation Sites on the Internet at [www.dnr.state.wi.us/org/et/geo/gwar](http://www.dnr.state.wi.us/org/et/geo/gwar). A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you can contact us at Northern Environmental Technologies, Inc., 330 South 4<sup>th</sup> Avenue, Park Falls, Wisconsin 54552, or by phone at 800-498-3913 or you may contact Mr. William P. Schultz, P.E., Remediation Engineer, Northern Region, Wisconsin Department of Natural Resources, 107 Sutliff Avenue, Rhinelander, Wisconsin 54501 or by phone at 715-365-8965.

**Certified Mail Provides:**

- A mailing receipt
- A unique identifier for your mailpiece
- A record of delivery kept by the Postal Service for two years

**Important Reminders:**

- Certified Mail may ONLY be combined with First-Class Mail® or Priority Mail®
- Certified Mail is *not* available for any class of International mail.
- NO INSURANCE COVERAGE IS PROVIDED with Certified Mail. For valuables, please consider Insured or Registered Mail.
- For an additional fee, a *Return Receipt* may be requested to provide proof of delivery. To obtain Return Receipt service, please complete and attach a Return Receipt (PS Form 3811) to the article and add applicable postage to cover the fee. Endorse mailpiece "Return Receipt Requested". To receive a fee waiver for a duplicate return receipt, a USPS® postmark on your Certified Mail receipt is required.
- For an additional fee, delivery may be restricted to the addressee or addressee's authorized agent. Advise the clerk or mark the mailpiece with the endorsement "Restricted Delivery".
- If a postmark on the Certified Mail receipt is desired, please present the article at the post office for postmarking. If a postmark on the Certified Mail receipt is not needed, detach and affix label with postage and mail.

**IMPORTANT: Save this receipt and present it when making an inquiry.** Internet access to delivery information is not available on mail addressed to APOs and FPOs.
