This Adobe Fillable form is intended to provide a list of information that is required for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request. The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

BRRTS #: 03-23-000126 (No Dashes) PARCEL ID #: 230120650000
ACTIVITY NAME: SWISS VILLAGE WTM COORDINATES: X: 571846 Y: 239863

CLOSURE DOCUMENTS (the Department adds these items to the final GIS packet for posting on the Registry)

- Closure Letter**
- Maintenance Plan** (if activity is closed with a land use limitation or condition (land use control) under s. 292.12, Wis. Stats.)
- Continuing Obligation Cover Letter** (for property owners affected by residual contamination and/or continuing obligations)
- Conditional Closure Letter**
- Certificate of Completion (COC)** (for VPLE sites)

SOURCE LEGAL DOCUMENTS

- Deed:** The most recent deed as well as legal descriptions, for the **Source Property** (where the contamination originated). Deeds for other, off-source (off-site) properties are located in the **Notification** section.
Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.
- Certified Survey Map:** A copy of the certified survey map or the relevant section of the recorded plat map for those properties where the legal description in the most recent deed refers to a certified survey map or a recorded plat map. (lots on subdivided or platted property (e.g. lot 2 of xyz subdivision)).
Figure #: 739 Title:
- Signed Statement:** A statement signed by the Responsible Party (RP), which states that he or she believes that the attached legal description accurately describes the correct contaminated property.

MAPS (meeting the visual aid requirements of s. NR 716.15(2)(h))

Maps must be no larger than 11 x 17 inches unless the map is submitted electronically.

- Location Map:** A map outlining all properties within the contaminated site boundaries on a U.S.G.S. topographic map or plat map in sufficient detail to permit easy location of all parcels. If groundwater standards are exceeded, include the location of all potable wells within 1200 feet of the site.
Note: Due to security reasons municipal wells are not identified on GIS Packet maps. However, the locations of these municipal wells must be identified on Case Closure Request maps.
Figure #: 1 Title: Site Location Map
- Detailed Site Map:** A map that shows all relevant features (buildings, roads, individual property boundaries, contaminant sources, utility lines, monitoring wells and potable wells) within the contaminated area. This map is to show the location of all contaminated public streets, and highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding a ch. NR 140 Enforcement Standard (ES), and/or in relation to the boundaries of soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Levels (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.
Figure #: 2 Title: Temporary Well Location Map
- Soil Contamination Contour Map:** For sites closing with residual soil contamination, this map is to show the location of all contaminated soil and a single contour showing the horizontal extent of each area of contiguous residual soil contamination that exceeds a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.
Figure #: Title:

BRRTS #: 03-23-000126

ACTIVITY NAME: SWISS VILLAGE

MAPS (continued)

Geologic Cross-Section Map: A map showing the source location and vertical extent of residual soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL). If groundwater contamination exceeds a ch. NR 140 Enforcement Standard (ES) when closure is requested, show the source location and vertical extent, water table and piezometric elevations, and locations and elevations of geologic units, bedrock and confining units, if any.

Figure #: **Title:**

Figure #: **Title:**

Groundwater Isoconcentration Map: For sites closing with residual groundwater contamination, this map shows the horizontal extent of all groundwater contamination exceeding a ch. NR140 Preventive Action Limit (PAL) and an Enforcement Standard (ES). Indicate the direction and date of groundwater flow, based on the most recent sampling data.

Note: This is intended to show the total area of contaminated groundwater.

Figure #: 2 **Title: Estimated Extent of Impacted Groundwater**

Groundwater Flow Direction Map: A map that represents groundwater movement at the site. If the flow direction varies by more than 20° over the history of the site, submit 2 groundwater flow maps showing the maximum variation in flow direction.

Figure #: 3 **Title: Ground Water Elevation Contour Map**

Figure #: **Title:**

TABLES (meeting the requirements of s. NR 716.15(2)(h)(3))

Tables must be no larger than 11 x 17 inches unless the table is submitted electronically. Tables must not contain shading and/or cross-hatching. The use of **BOLD** or *ITALICS* is acceptable.

Soil Analytical Table: A table showing remaining soil contamination with analytical results and collection dates.

Note: This is one table of results for the contaminants of concern. Contaminants of concern are those that were found during the site investigation, that remain after remediation. It may be necessary to create a new table to meet this requirement.

Table #: **Title:**

Groundwater Analytical Table: Table(s) that show the most recent analytical results and collection dates, for all monitoring wells and any potable wells for which samples have been collected.

Table #: 3 **Title: Ground Water Chemistry and In-Field Biodegradation Data Summary**

Water Level Elevations: Table(s) that show the previous four (at minimum) water level elevation measurements/dates from all monitoring wells. If present, free product is to be noted on the table.

Table #: **Title:**

IMPROPERLY ABANDONED MONITORING WELLS

For each monitoring well not properly abandoned according to requirements of s. NR 141.25 include the following documents.

Note: If the site is being listed on the GIS Registry for only an improperly abandoned monitoring well you will only need to submit the documents in this section for the GIS Registry Packet.

Not Applicable

Site Location Map: A map showing all surveyed monitoring wells with specific identification of the monitoring wells which have not been properly abandoned.

Note: If the applicable monitoring wells are distinctly identified on the Detailed Site Map this Site Location Map is not needed.

Figure #: **Title:**

Well Construction Report: Form 4440-113A for the applicable monitoring wells.

Deed: The most recent deed as well as legal descriptions for each property where a monitoring well was not properly abandoned.

Notification Letter: Copy of the notification letter to the affected property owner(s).

BRRTS #: 03-23-000126

ACTIVITY NAME: SWISS VILLAGE

NOTIFICATIONS

Source Property

Not Applicable

Letter To Current Source Property Owner: If the source property is owned by someone other than the person who is applying for case closure, include a copy of the letter notifying the current owner of the source property that case closure has been requested.

Return Receipt/Signature Confirmation: Written proof of date on which confirmation was received for notifying current source property owner.

Off-Source Property

Group the following information per individual property and label each group according to alphabetic listing on the "Impacted Off-Source Property" attachment.

Not Applicable

Letter To "Off-Source" Property Owners: Copies of all letters sent by the Responsible Party (RP) to owners of properties with groundwater exceeding an Enforcement Standard (ES), and to owners of properties that will be affected by a land use control under s. 292.12, Wis. Stats.

Note: Letters sent to off-source properties regarding residual contamination must contain standard provisions in Appendix A of ch. NR 726.

Number of "Off-Source" Letters: 1

Return Receipt/Signature Confirmation: Written proof of date on which confirmation was received for notifying any off-source property owner.

Deed of "Off-Source" Property: The most recent deed(s) as well as legal descriptions, for all affected deeded **off-source** property(ies). This does not apply to right-of-ways.

Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.

Certified Survey Map: A copy of the certified survey map or the relevant section of the recorded plat map for those properties where the legal description in the most recent deed refers to a certified survey map or a recorded plat map. (lots on subdivided or platted property (e.g. lot 2 of xyz subdivision)).

Figure #: **Title:**

Letter To "Governmental Unit/Right-Of-Way" Owners: Copies of all letters sent by the Responsible Party (RP) to a city, village, municipality, state agency or any other entity responsible for maintenance of a public street, highway, or railroad right-of-way, within or partially within the contaminated area, for contamination exceeding a groundwater Enforcement Standard (ES) and/or soil exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL).

Number of "Governmental Unit/Right-Of-Way Owner" Letters: 1

Impacted Off-Source Property Information

Form 4400-246 (R 3/08)

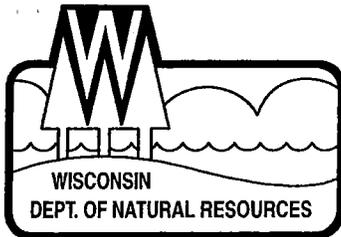

This fillable form is intended to provide a list of information that must be submitted for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request (Section H). The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

Mr. Richard Schmelzer
405 South Madison Street
Evansville, WI 53536

Subject: Closure, Former Swiss Village Store, 3399 Highway 104, Brodhead, WI

Dear Mr. Schmelzer:

On March 26, 2003, the Swiss Village site was reviewed for closure by the South Central Regional Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases.

On March 11, 2003, the Department received correspondence indicating that you have complied with the conditions of closure. The closure documentation received included information that the groundwater contaminant plume has been remediated to acceptable standards. Monitoring wells at the site have been properly abandoned. Residual groundwater contamination remains on this site and on an off-site property located to the south, both parcels will be listed on the Department's GIS registry of closed remediation sites. In addition, the Wisconsin Department of Transportation has been notified of residual contamination that remains beneath State Highway 104. Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>

If this is a PECFA site, section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment. If you have any questions regarding this letter, please contact me at the telephone number shown below.

The Department appreciates your efforts to restore the environment. If you have any questions regarding this letter, please contact me at the telephone number shown below.

Sincerely,

A handwritten signature in black ink, appearing to read "Dino Tsoris", written in a cursive style.

SURVEYOR'S AFFIDAVIT TO CORRECT DESCRIPTION

In Re: Lot 1, Certified Survey Map No. 739
Recorded at the Green County Registry
on the 26th. day of March, 1984, in
Volume 2 of Certified Survey Maps of
Green County, on page 301.

STATE OF WISCONSIN)
) SS.
COUNTY OF GREEN)

Richard D. Talarczyk, being first duly sworn, on oath deposes and says that he is
an adult resident of Green County, State of Wisconsin, and is by occupation a
Registered Land Surveyor, licensed to practice in the State of Wisconsin.

That at the direction of Real Estate Associates, Affiant did prepare the Certified
Survey Map referred to above:

That said Certified Survey Map is subject to a discrepancy and said discrepancy
and correction thereof is described as follows:

The second line of the legal description locates the property in the
"City of Brodhead".

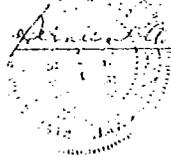

The second line of the legal description should locate the property in the
"Township of Decatur".

That the purpose of this Affidavit is to correct the discrepancy in the Certified
Survey Map as shown above.

Dated this 1st. day of June, 1984

Richard D. Talarczyk

Impacted Off-Source Property Information

Form 4400-246 (R 3/08)

This fillable form is intended to provide a list of information that must be submitted for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request (Section H). The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

Subject: Groundwater Geographic Information System (GIS) Listing Notification
Former Swiss Village Property
N3399 State Road 104
Brodhead, Wisconsin
BRRTS No. 03-23-000126
Delta No. I095-502

Dear Mr. Thomas and Margaret Steele:

Delta Environmental Consultants, Inc. (Delta) is issuing this letter to you on behalf of Richard Schmelzer, former owner of the Swiss Village. The purpose of this letter is to notify you of our intent to list the above mentioned property on the Wisconsin Department of Natural Resource's (WDNR's) GIS Database.

Groundwater contamination is present at your property indicated above is related to the Swiss Village formerly located on this property. The levels of naphthalene contamination in the groundwater on your property are above the state groundwater enforcement standards found in chapter NR 140, Wisconsin Administrative Code. However, Delta's investigation of this contamination indicates that this groundwater contaminant plume is stable or receding and will naturally degrade over time.

Delta believes that allowing natural attenuation to complete the cleanup at this site will meet the requirement for case closure that are found in chapter NR 726 and NR 746 Wisconsin Administrative Code, the Wisconsin Department of Natural Resources has accepted natural attenuation as the final remedy for this site and has granted case closure. Closure means that the Department will not require any further investigation or cleanup action to be taken, other than the reliance on natural attenuation. A fact sheet is enclosed that explains natural attenuation.

Since you are not responsible for groundwater contamination that was present at the time of your purchase of the property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of section 292.13, Wisconsin Statutes, you may call 1-800-367-6076 for calls originating in Wisconsin, or 608-264-6020 if you are calling from out of state or within the Madison area.

As an affected property owner, you have a right to contact the Department within 30 days to provide any technical information that you may have that indicates that your property should not be listed on the GIS registry. If you would like to submit any information to the Department of Natural Resources that is relevant to our request, you should mail that information to:

GIS Listing Notification
Former Swiss Village
February 14, 2003
Page 2

Mr. Dino Tisoris
Department of Natural Resources
3911 Fish Hatchery Road
Fitchburg, Wisconsin 53711-5397

All properties within the site boundaries where groundwater contamination exceeds chapter NR 140 groundwater enforcement standards will be listed on the Department of Natural Resources' GIS Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where groundwater contamination above chapter NR 140 enforcement standards was found at the time that the case was closed. This GIS Registry will be available to the general public on the Department of Natural Resources' internet web site. Enclosed is the property deed that describes the property. Please review the legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

Should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Diggers Hotline (1-800-242-8511) if your property is located outside of the service area of a municipally owned water system, or contact the Drinking Water program within the Department of Natural Resources if your property is located within the designated service area of a municipally owned water system, to determine if there is a need for special well construction standards.

Once the Department of Natural Resources fulfills my request to list your site on the GIS Registry, it will issue a final closure letter. You may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the DNR GIS Registry of Closed Remediation Sites on the internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact me at (262) 827-4800 or you may contact Dino Tisoris of the Department of Natural Resources at (262).

Sincerely,

DELTA ENVIRONMENTAL CONSULTANTS, INC.

Brodhead, Wisconsin
BRRTS No. 03-23-000126
Delta No. I095-502

Dear Mr. James Haddinger:

Delta Environmental Consultants, Inc. (Delta) is issuing this letter to you on behalf of Richard Schmelzer, former owner of the Swiss Village. The purpose of this letter is to notify you of our intent to list the above mentioned property on the Wisconsin Department of Natural Resource's (WDNR's) GIS Database.

Groundwater contamination that appears to have originated on the former Swiss Village property referenced above has migrated onto your property at the southwest corner of the intersection of State Trunk Hwy 104 and State Trunk Highway 11. The levels of toluene, ethylbenzene, total xylenes, trimethylbenzene, and naphthalene are above the state groundwater enforcement standards found in chapter NR 140, Wisconsin Administrative Code. However, Delta's investigation of this contamination indicates that this groundwater contaminant plume is stable or receding and will naturally degrade over time.

Delta believes that allowing natural attenuation to complete the cleanup at this site will meet the requirement for case closure that are found in chapter NR 726 and NR 746 Wisconsin Administrative Code, the Wisconsin Department of Natural Resources has accepted natural attenuation as the final remedy for this site and has granted case closure. Closure means that the Department will not require any further investigation or cleanup action to be taken, other than the reliance on natural attenuation. A fact sheet is enclosed that explains natural attenuation.

Since the source of groundwater contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of section 292.13, Wisconsin Statutes, you may call 1-800-367-6076 for calls originating in Wisconsin, or 608-264-6020 if you are calling from out of state or within the Madison area.

As an affected property owner, you have a right to contact the Department within 30 days to provide any technical information that you may have that indicates that your property should not be listed on the GIS

RETURN TO

THIS INDENTURE, Made this 30th day of October
A. D., 1965, between Harold Williamson and Opal
Williamson, his wife

parties of the first part and
Dairy Producers Trucking Cooperative, A Wisconsin
Cooperative Corporation of Orfordville, Wisconsin

parties of the second part,
Witnesseth, That the said parties of the first part, for and in consideration
of the sum of Five Thousand Dollars (\$5,000.00)

to them in hand paid by the said parties of the second part, the receipt whereof is hereby
confessed and acknowledged, have given, granted, bargained, sold, remise, released, aliened, conveyed and confirmed, and by these presents
do give, grant, bargain, sell, remise, release, alien, convey and confirm unto the said parties of the second part, their heirs and assigns
forever, the following described real estate situated in the County of Green and State of Wisconsin, to-wit:

That part of Block 5 lying South of State Trunk Highway 11, being the
South 36.8 feet of Lot One (1) and that part platted for Railroad, but
never used; also vacated Laird Street lying South of Block 5, also the
North 66 feet of Block 6 being Lot One (1) and the North 66 feet of
that portion of Block 6 platted for Railroad, but never used. All in
Dickson's Addition, City of Brodhead, The above described parcel of
land is Two Hundred Sixty-four feet (264') East and West and 168.8 feet
North and South.

(IF NECESSARY, CONTINUE DESCRIPTION ON REVERSE SIDE)

Together with all and singular the hereditaments and appurtenances thereunto belonging or in any wise appertaining; and all the estate
right, title, interest, claim or demand whatsoever, of the said parties of the first part, either in law or equity, either in possession or expectancy
of, in and to the above bargained premises, and their hereditaments and appurtenances.

To Have and To Hold the said premises as above described with the hereditaments and appurtenances, unto the said parties of the
second part, and to their heirs and assigns FOREVER.

And the said Harold Williamson and Opal Williamson, his wife

for themselves, their heirs, executors and administrators, do covenant, grant, bargain, and agree to and
with the said parties of the second part, their heirs and assigns, that at the time of the ensailing and delivery of these presents
they are well seized of the premises above described, as of a good, sure, perfect, absolute and indefeasible estate of inheritance
in the law, in fee simple, and that the same are free and clear from all incumbrances whatever.

and that the above bargained premises in the quiet and peaceable possession of the said parties of the second part, their heirs and assigns,
against all and every person or persons lawfully claiming the whole or any part thereof, they will forever WARRANT AND DEFEND.

In Witness Whereof, the said parties of the first part have hereunto set their hand and seal this 30th
day of October, A. D., 1965.

State Trunk Highway 11
Brodhead, Wisconsin
WDNR No. 03-23-000126
Delta No. I095-502

Dear Ms. Grimes:

On behalf of Mr. Richard Schmelzer owner of the former Swiss Village Store, Delta Environmental Consultants, Inc. is pursuing site closure of the above referenced petroleum remediation site with the Wisconsin Department of Natural Resources (WDNR). Prior to requesting site closure the WDNR requires notification to right-of-way (ROW) owners of potential residual petroleum impacts, beneath the ROW associated with the subject site. The following information is intended to meet the notification requirement requested by the WDNR.

Residual petroleum contamination likely exists beneath State Trunk Highway 11 near its intersection with State Highway 104. Groundwater monitoring well locations are shown on the attached Figure 2. The most recent groundwater analytical results for groundwater sample locations near, or on, the ROW property are presented on Table 3. Depth to groundwater at the site typically ranges from 6 to 9 feet below ground surface. Residual groundwater contamination above the Wisconsin Administrative Code Chapter NR 140 Enforcement Standard (ES) was detected in monitoring locations GP-2, GP-3, GP-11, and MW-9 located on Wisconsin DOT property adjacent to State Trunk Highway 11.

Should you have any questions or require additional information regarding this site, please contact me at (262) 827-4800.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Radmaker", is written over a light blue horizontal line.
