GPS COORDINATES (meters in WTM91 projection): X= 536403 Y= 346301

OFF-SOURCE SOIL CONTAMINATION >Generic or Site-Specific RCL (SSRCL): Yes No

IF YES, STREET ADDRESS 1: 134 Munroe Avenue
GPS COORDINATES (meters in WTM91 projection): X= 536395 Y= 346239

CONTAMINATION IN RIGHT OF WAY: Yes No

DOCUMENTS NEEDED:

- Closure Letter, and any conditional closure letter or denial letter issued X
- Copy of most recent deed, including legal description, for all affected properties X
- Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties X
- County Parcel ID number, if used for county, for all affected properties X
- Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site. X
- Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs. X
- Tables of Latest Groundwater Analytical Results (no shading or cross-hatching) X
- Tables of Latest Soil Analytical Results (no shading or cross-hatching) X
- Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.
- GW: Table of water level elevations, with sampling dates, and free product noted if present X
- GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees) X
- SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour X
- Geologic cross-sections, if required for SI. (8.5x14" if paper copy) X

RP certified statement that legal descriptions are complete and accurate

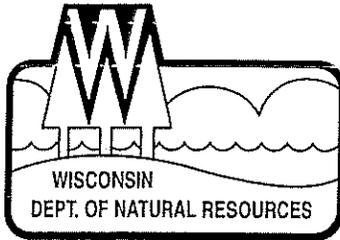

Copies of off-source notification letters (if applicable)

Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)

Copy of (soil or land use) deed restriction(s) or deed notice *if any required as a condition of closure*

Copy of any maintenance plan referenced in the deed restriction.

April 1, 2008

Mr. Terry Michael
E10035 CTH P
Wisconsin Dells, WI 53965

Subject: Final Case Closure, By Closure Committee, of the Terri's Shortstop Case, 152 Munroe St., Lake Delton, WI; Sauk County; WDNR BRRTS Activity No. 03-57-190226

Dear Mr. Michael:

On January 18, 2008, the South Central Region Closure Committee reviewed the above-referenced case for closure. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On January 24, 2008, you were notified that the Closure Committee had granted conditional closure to this case.

On March 19, 2008, the Department received correspondence that included information complying with the one requirement for closure of the site: the abandonment of the monitoring and remediation system wells associated with your site. Based on this correspondence and the information provided, your case appears to meet the requirements of ch. NR 726, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation, or other action is required at this time. Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites as a condition of case closure. The reasons for this listing are: 1) residual soil contamination remains at the site that must be properly managed should it be excavated or removed; and 2) groundwater contamination is present above Chapter NR 140 enforcement standards. Information that was submitted with your closure request application will be included on the GIS Registry. To review the sites on the GIS Registry web page, visit <http://dnr.wi.gov/org/aw/rr/gis/index.htm>

Residual soil contamination remains at the area adjacent to and northeast of the site building as indicated in the information submitted to the Department of Natural Resources. If soil in the specific locations described above is excavated in the future, then pursuant to ch. NR 718 or, if applicable, ch. 289, Stats., and chs. 500 to 536, the property owner at the time of excavation must sample and analyze the excavated soil to determine if residual contamination remains. If sampling confirms that contamination is present the property owner at the time of excavation will need to determine whether the material would be considered solid or hazardous waste and ensure that any storage, treatment or disposal is in compliance with applicable standards and rules. In addition, all current and future owners and occupants of the property need to be aware that excavation of the contaminated soil may pose an inhalation or other direct contact hazard and as a result special precautions may need to be taken to prevent a direct contact health threat to humans.

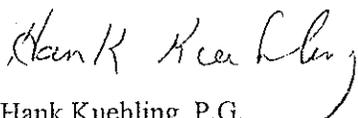

Groundwater impacted by petroleum-related contamination greater than enforcement standards set forth in ch.

NR140, Wis. Adm. Code, is present both on and off the contaminated property. Off-property owners have been notified of the presence of groundwater contamination. For more detailed information regarding the locations where groundwater samples have been collected (i.e., monitoring well locations) and the associated contaminant concentrations, refer to the Remediation and Redevelopment Program's GIS Registry at <http://dnr.wi.gov/org/aw/rr/gis/index.htm>

If your property is listed on the GIS Registry because of remaining contamination and you intend to construct or reconstruct a well, you will need prior Department approval in accordance with s. NR 812.09(4)(w), Wis. Adm. Code. To obtain approval, Form 3300-254 must be completed and submitted to the DNR Drinking and Groundwater Program's regional water supply specialist. This form can be obtained on-line at <http://www.dnr.state.wi.us/org/water/dwg/3300254.pdf> or at the web address listed above for the GIS Registry.

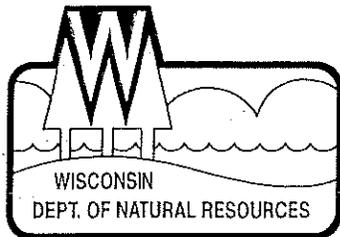

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at the address listed above or an indicated below.

Sincerely,

Hank Kuehling, P.G.

Subject: Conditional Closure Decision With Requirements to Achieve Final Closure of Terri's Shortstop Case, 152 Munroe St., Lake Delton, Wisconsin; Sauk Co.; WDNR BRRTS Activity Number 03-57-190226

Dear Mr. Michael:

On January 18, 2008, the South Central Region closure committee reviewed your request for closure of the case described above. This committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the committee has determined that the petroleum contamination on the site from the fuel storage and dispenser system appears to have been investigated and remediated to the extent practicable under site conditions. Your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code and will be closed if the following condition is satisfied.

The monitoring wells at the site must be properly abandoned in compliance with ch. NR 141, Wis. Adm. Code. Documentation of well abandonment must be submitted to the Department on Form 3300-005, which can be found at <http://dnr.wi.gov/org/water/dwg/gw/> or can be provided by the Department upon request. When this condition has been satisfied, including submittal of the well abandonment forms, this case will be closed.

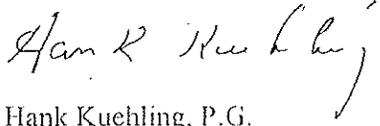

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the GIS Registry. To review the site on the GIS Registry web page, visit the RR Sites Map page at: <http://dnr.wi.gov/org/aw/rr/gis/index.htm>.

Note that Section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs for sites with petroleum contamination submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement. If there is equipment purchased with PECFA funds remaining at the site, contact the Commerce PECFA Program to determine the method for salvaging the equipment.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, or welfare, or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at the address included above or as indicated below.

Sincerely,

A handwritten signature in cursive script that reads "Hank Kuehling".

October 24, 2007

Mr. Terry Michael
E10035 CTH P
Wisconsin Dells, WI 53965

Subject: Case Closure Denial for Terri's Shortstop, 152 Munroe St., Lake Delton; Sauk Co.; BRRTS
Number 03-57-190226

Dear Mr. Michael:

On October 23, 2007, the South Central Region closure committee reviewed your request for closure of the case described above. This committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of your closure request, the closure committee has denied closure because additional impacted property owner notification requirements must be met.

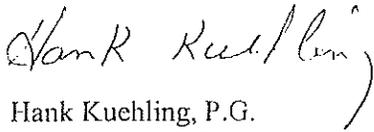

Your site was denied closure because the property owners in the vicinity of monitoring well P-8 must be notified in compliance with s. NR 726.05(2)4. and s. NR 726.05(3)(a)4.h., Wis. Administrative Code. The data for well P-8 included an enforcement standard (ES) exceedance for benzene in the most recent round of sampling in July 2007, implying that groundwater of the privately-owned properties, apparently a residential and commercial property, adjacent to and very near P-8 to the north also included benzene above the ES. The noted administrative codes require you to provide written notice of the presence of residual groundwater contamination to the owner of any properties that you do not own within this site's contamination boundaries if the properties are affected by groundwater contamination. This same section of the code requires proof that these letters were received at least 30 days prior to the date on which the agency completes its review of the closure report, and that they be included in the GIS Registry attachment to the closure report. Note that all letters sent to landowners whose property has groundwater contamination exceeding ch. NR 140 enforcement standards at the time case closure is requested must use the template letter found in Appendix A in ch. NR 726.

When the letters have been sent and the notification requirements have been met, a copy of the letters and verification of mail receipt must be sent to the Department. Also include verification of locations and ownership of the privately owned properties north of and adjacent to P-8. This information will be added to the file for review and your request for closure will be reconsidered, as will any response from the affected landowners.

Note that case closure will be approved only if all the above requirements have been satisfied, including submitting the required documentation to the Department. Please satisfy these requirements within 30 days of the date of this letter. If these requirements have not been met, your site will remain "open" and additional remedial actions may be necessary by you to eliminate the need for these requirements.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at the address listed above or as indicated below.

Sincerely,

A handwritten signature in cursive script that reads "Hank Kuehling". The signature is written in dark ink and is positioned above the typed name.

Wisconsin Dells, WI 53965

Subject: Case Closure Denial for Terri's Shortstop, 152 Munroe Street, Lake Delton, WI; Sauk County; WDNR BRRTS Activity # 03-57-190226

Dear Mr. Michael:

On January 8, 2007, the South Central Region closure committee reviewed your request for closure of the case described above. This committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of your closure request, the closure committee has denied closure because additional groundwater monitoring requirements must be met.

Additional site work is necessary at the above described site in order to eventually meet the requirements for site closure. Your site was denied closure because of remaining high and fluctuating levels of petroleum contamination in the groundwater from several monitoring wells and uncertainty about the recurrence of free product in several monitoring wells. The committee is requiring that the current scope of work from Bid Round 35 be continued by your consultant until it is completed. This work includes groundwater monitoring, plus monitoring for free product in monitoring wells and removal, if necessary.

When the additional work outlined above has been completed, a report similar to the two previously submitted annual reports must be submitted to the Department, as required by the scope of work. This information will be added to the file for review and your request for closure will be reconsidered.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at the address listed above or as indicated below.

Sincerely,

Hank Kuehling, P.G.

Wisconsin Dells, WI 53965

To Whom It May Concern,

Groundwater contamination that appears to have originated on the Terri's Shortstop property located at 152 Munroe Avenue, Lake Delton, Wisconsin has migrated onto your property at 134 Munroe Avenue, Lake Delton, Wisconsin. The levels of Benzene contamination in the groundwater on your property are above the state groundwater enforcement standards ("ES") found in chapter NR 140, Wis. Adm. Code. However, the environmental consultants who have investigated this contamination have informed me that this groundwater contaminant plume is stable and in the process receding and will naturally degrade over time. The environmental consultants believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapters NR 726 and NR 746 Wis. Adm. Code. Therefore, I will be requesting that the Wisconsin Department of Natural Resources (WDNR) accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the WDNR will not be requiring any further investigation or active cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of the groundwater contamination is not on *your* property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wis. Stat., including allowing access to your property for environmental investigation or cleanup, if access is required. A copy of the WDNR's Fact Sheet 10: *Guidance for Dealing with Properties Affected by Off-Site Contamination* (publication #RR-589) is attached for your review.

The WDNR will not review my closure request for at least 30 days after the date of this letter. As a potentially affected property owner, you have the right to contact the WDNR to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the WDNR that is relevant to this closure request, you should mail that information to Hank Kuehling, WDNR – South Central Region Headquarters, 3911 Fish Hatchery Road, Madison, WI 53711.

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds the ES will be listed on the WDNR's geographic information system ("GIS") Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where

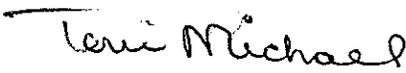

groundwater contamination above the ES was found at the time that the case was closed. This GIS Registry is available to the general public on the WDNR's internet web site. Please review the enclosed legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

The Village of Lake Delton has a community owned and operated water system which supplies potable water to your property. However, should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards maybe necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Diggers Hotline (1-800-242-8511) and also contact the Drinking Water program within the WDNR to determine if there is a need for special well construction standards.

Once the WDNR makes a decision on my closure request, it will be documented in a letter. If the WDNR grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at www.gomapout.dnr.state.wi.us/org/at/et/geo/gwur/. A copy of the closure letter is included as part of the site file on the "GIS Registry of Closed Remediation Sites."

If you need more information, please contact me at either P.O. Box 100, Lake Delton, WI 53940 or (608) 253-2132 or Mr. Kuehling at either the WDNR address noted above or at (608) 275-3267.

Sincerely,

Terri Michael

Enclosures: legal description, WDNR Publication # RR-589, map, table of analytical results

LEGAL DESCRIPTION (property at 134 Munroe Avenue, Lake Delton, Wisconsin)

The West 35 feet of Lots 5, 6, 7 and 8 of Block 45 in the Village of Lake Delton, together with the vacated alley lying adjacent to and directly West of Lots, Village of Lake Delton, Sauk County, Wisconsin.

December 18, 2006

A-Cubed, Inc.
P.O. Box 409
Lake Delton, WI 53940

To Whom It May Concern,

Groundwater contamination that appears to have originated on the Terri's Shortstop property located at 152 Munroe Avenue, Lake Delton, Wisconsin has migrated onto your property at 126 Munroe Avenue, Lake Delton, Wisconsin. The levels of Benzene contamination in the groundwater on your property are above the state groundwater enforcement standards ("ES") found in chapter NR 140, Wis. Adm. Code. However, the environmental consultants who have investigated this contamination have informed me that this groundwater contaminant plume is stable and in the process receding and will naturally degrade over time. The environmental consultants believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapters NR 726 and NR 746 Wis. Adm. Code. Therefore, I will be requesting that the Wisconsin Department of Natural Resources (WDNR) accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the WDNR will not be requiring any further investigation or active cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of the groundwater contamination is not on *your* property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wis. Stat., including allowing access to your property for environmental investigation or cleanup, if access is required. A copy of the WDNR's Fact Sheet 10: *Guidance for Dealing with Properties Affected by Off-Site Contamination* (publication #RR-589) is attached for your review.

The WDNR will not review my closure request for at least 30 days after the date of this letter. As a potentially affected property owner, you have the right to contact the WDNR to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the WDNR that is relevant to this closure request, you should mail that information to Hank Kuehling, WDNR – South Central Region Headquarters, 3911 Fish Hatchery Road, Madison, WI 53711.

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds the ES will be listed on the WDNR's geographic information system ("GIS") Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where

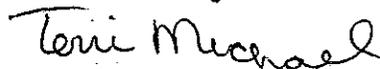

groundwater contamination above the ES was found at the time that the case was closed. This GIS Registry is available to the general public on the WDNR's internet web site. Please review the enclosed legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

The Village of Lake Delton has a community owned and operated water system which supplies potable water to your property. However, should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards maybe necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Diggers Hotline (1-800-242-8511) and also contact the Drinking Water program within the WDNR to determine if there is a need for special well construction standards.

Once the WDNR makes a decision on my closure request, it will be documented in a letter. If the WDNR grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at www.gomapout.dnr.state.wi.us/org/at/et/geo/gwur/. A copy of the closure letter is included as part of the site file on the "GIS Registry of Closed Remediation Sites."

If you need more information, please contact me at either P.O. Box 100, Lake Delton, WI 53940 or (608) 253-2132 or Mr. Kuehling at either the WDNR address noted above or at (608) 275-3267.

Sincerely,

Terri Michael

Enclosures: legal description, WDNR Publication # RR-589, map, table of analytical results

LEGAL DESCRIPTION (property at 126 Munroe Avenue, Lake Delton, Wisconsin)

Lots 5, 6, 7 and 8, Block 45, EXCEPT the West 35 feet thereof conveyed to William Cole, Village of Lake Delton, Sauk County, Wisconsin. Also including ½ of the vacated North and South alley lying east of said lots, all in the Village of Lake Delton, Sauk County, Wisconsin.

November 14, 2007

Big Elm LLC
P.O. Box 235
Lake Delton, WI 53940

To Whom It May Concern,

Groundwater contamination that appears to have originated on the Terri's Shortstop property located at 152 Munroe Avenue, Lake Delton, Wisconsin has migrated onto your property at 103 Munroe Avenue, Lake Delton, Wisconsin. The levels of Benzene contamination in the groundwater on your property are above the state groundwater enforcement standards ("ES") found in chapter NR 140, Wis. Adm. Code. However, the environmental consultants who have investigated this contamination have informed me that this groundwater contaminant plume is stable and in the process receding and will naturally degrade over time. The environmental consultants believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapters NR 726 and NR 746 Wis. Adm. Code. Therefore, I will be requesting that the Wisconsin Department of Natural Resources (WDNR) accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the WDNR will not be requiring any further investigation or active cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of the groundwater contamination is not on *your* property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wis. Stat., including allowing access to your property for environmental investigation or cleanup, if access is required. A copy of the WDNR's Fact Sheet 10: *Guidance for Dealing with Properties Affected by Off-Site Contamination* (publication #RR-589) is attached for your review.

The WDNR will not review my closure request for at least 30 days after the date of this letter. As a potentially affected property owner, you have the right to contact the WDNR to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the WDNR that is relevant to this closure request, you should mail that information to Hank Kuehling, WDNR – South Central Region Headquarters, 3911 Fish Hatchery Road, Madison, WI 53711.

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds the ES will be listed on the WDNR's geographic information system ("GIS") Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where

groundwater contamination above the ES was found at the time that the case was closed. This GIS Registry is available to the general public on the WDNR's internet web site. Please review the enclosed legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

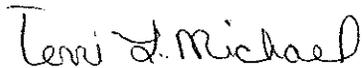

The Village of Lake Delton has a community owned and operated water system which supplies potable water to your property. However, should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards maybe necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Diggers Hotline (1-800-242-8511) and also contact the Drinking Water program within the WDNR to determine if there is a need for special well construction standards. A WDNR well construction application form may be obtained by contacting the WDNR at the address above or by accessing the WDNR website at <http://www.dnr.state.wi.us/org/water/dwg/3300254.pdf>.

Once the WDNR makes a decision on my closure request, it will be documented in a letter. If the WDNR grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at <http://www.dnr.wi.gov/org/aw/rr/gis/index.htm>. A copy of the closure letter is included as part of the site file on the "GIS Registry of Closed Remediation Sites."

If you need more information, please contact me at either P.O. Box 100, Lake Delton, WI 53940 or (608) 253-2132 or Mr. Kuehling at either the WDNR address noted above or at (608) 275-3267.

Sincerely,

Terri Michael

LEGAL DESCRIPTION (property at 103 Munroe Avenue, Lake Delton, Wisconsin)

Parcel 1: Lots 14, 15, 16 and 17, Block 36, Village of Lake Delton, Sauk County, Wisconsin

Parcel 2: Lots 1, 2 and the East 16 ½ feet of Lot 3, Block 36, Village of Lake Delton, Sauk County, Wisconsin

November 14, 2007

Catherine A Gavinski
924 Capitol Street
Wisconsin Dells, WI 53965

Dear Ms. Gavinski,

Groundwater contamination that appears to have originated on the Terri's Shortstop property located at 152 Munroe Avenue, Lake Delton, Wisconsin has migrated onto your property at 131 Munroe Avenue, Lake Delton, Wisconsin. The levels of Benzene contamination in the groundwater on your property are above the state groundwater enforcement standards ("ES") found in chapter NR 140, Wis. Adm. Code. However, the environmental consultants who have investigated this contamination have informed me that this groundwater contaminant plume is stable and in the process receding and will naturally degrade over time. The environmental consultants believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapters NR 726 and NR 746 Wis. Adm. Code. Therefore, I will be requesting that the Wisconsin Department of Natural Resources (WDNR) accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the WDNR will not be requiring any further investigation or active cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of the groundwater contamination is not on *your* property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wis. Stat., including allowing access to your property for environmental investigation or cleanup, if access is required. A copy of the WDNR's Fact Sheet 10: *Guidance for Dealing with Properties Affected by Off-Site Contamination* (publication #RR-589) is attached for your review.

The WDNR will not review my closure request for at least 30 days after the date of this letter. As a potentially affected property owner, you have the right to contact the WDNR to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the WDNR that is relevant to this closure request, you should mail that information to Hank Kuehling, WDNR – South Central Region Headquarters, 3911 Fish Hatchery Road, Madison, WI 53711.

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds the ES will be listed on the WDNR's geographic information system ("GIS") Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where

groundwater contamination above the ES was found at the time that the case was closed. This GIS Registry is available to the general public on the WDNR's internet web site. Please review the enclosed legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

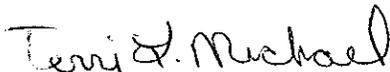

The Village of Lake Delton has a community owned and operated water system which supplies potable water to your property. However, should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards maybe necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Diggers Hotline (1-800-242-8511) and also contact the Drinking Water program within the WDNR to determine if there is a need for special well construction standards. A WDNR well construction application form may be obtained by contacting the WDNR at the address above or by accessing the WDNR website at <http://www.dnr.state.wi.us/org/water/dwg/3300254.pdf>.

Once the WDNR makes a decision on my closure request, it will be documented in a letter. If the WDNR grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at <http://www.dnr.wi.gov/org/aw/rr/gis/index.htm>. A copy of the closure letter is included as part of the site file on the "GIS Registry of Closed Remediation Sites."

If you need more information, please contact me at either P.O. Box 100, Lake Delton, WI 53940 or (608) 253-2132 or Mr. Kuehling at either the WDNR address noted above or at (608) 275-3267.

Sincerely,

Terri Michael

Village of Lake Delton
P.O. Box 87
Lake Delton, Wisconsin 53940

Notification: Terri's Shortstop LUST Site (BRRTS # 03-57-190226), Conditional Case Closure Notification

To Whom It May Concern:

I am writing to inform you that soil and groundwater contamination from the Terri's Shortstop site, located at 152 Munroe Avenue, Lake Delton, Wisconsin, exists within the right of way of Munroe Avenue (STH 23).

As part of the required documentation, you are hereby notified that residual petroleum contamination exists in soil and groundwater within the right-of-way of Munroe Avenue (STH 23) to the north of the Terri's Shortstop site. Soil and groundwater contamination was found to exist in the area of the underground petroleum storage tanks and dispensers. Groundwater contamination has migrated to the northeast across Munroe Avenue (STH 23). Depth to groundwater in this area is approximately 23 to 28 feet below ground surface.

If the contaminated soil or groundwater is encountered during future construction, it may pose inhalation or other direct contact hazards. Any contaminated soil or groundwater encountered will require sampling and analysis, as well as proper storage, treatment, and disposal of any excavated materials. We are enclosing site maps displaying inferred soil and groundwater contamination plumes.

If you have any questions, or require more detailed information, please contact me at METCO's La Crosse office (608-781-8879).

Sincerely,

A handwritten signature in black ink that reads "Jason T. Powell".

See Addendum "A" attached hereto and incorporated herein as though fully set forth for additional terms and conditions.

This is not homestead property.
(is) (is not)

Purchaser agrees to purchase the Property and to pay to Vendor at 560 Wisconsin Dells Parkway, Wisconsin Dells, WI 53965, the sum of \$572,000.00 in the following manner: (a) \$40,000.00 at the execution of this Contract; and (b) the balance of \$532,000.00, together with interest from date hereof on the balance outstanding from time to time at the rate of 7% percent per annum until paid in full, as follows:

Provided, however, the entire outstanding balance shall be paid in full on or before the ____ day of ____, ____ (the maturity date).

Following any default in payment, interest shall accrue at the rate of 12% per annum on the entire amount in default (which shall include, without limitation, delinquent interest and, upon acceleration or maturity, the entire principal balance).

Purchaser, unless excused by Vendor, agrees to pay monthly to Vendor amounts sufficient to pay reasonably anticipated annual taxes, special assessments, fire and required insurance premiums when due. To the extent received by Vendor, Vendor agrees to apply payments to these obligations when due. Such amounts received by the Vendor for payment of taxes, assessments and insurance will be deposited into an escrow fund or trustee account, but shall not bear interest unless otherwise required by law.

Payments shall be applied first to interest on the unpaid balance at the rate specified and then to principal. Any amount may be prepaid without premium or fee upon principal at any time after ____, ____ (OR) there may be no prepayment of principal without permission of Vendor.*

In the event of any prepayment, this contract shall not be treated as in default with respect to payment so long as the unpaid balance of principal, and interest (and in such case accruing interest from month to month shall be treated as unpaid principal) is less than the amount that said indebtedness would have been had the monthly payments been made as first specified above; provided that monthly payments shall be continued in the event of credit of any proceeds of insurance or condemnation, the condemned premises being thereafter excluded herefrom.

Purchaser states that Purchaser is satisfied with the title as shown by the title evidence submitted to Purchaser for examination except:

Purchaser agrees to pay the cost of future title evidence. If title evidence is in the form of an abstract, it shall be retained by Vendor until the full purchase price is paid.

Purchaser shall be entitled to take possession of the Property on May 1, 2005.

* Cross out one.

000685

Purchaser promises to pay when due all taxes and assessments levied on the Property or upon Vendor's interest in it and to deliver to Vendor on demand receipts showing such payment.

Purchaser shall keep the improvements on the Property insured against loss or damage occasioned by fire, extended coverage perils and such other hazards as Vendor may require, without co-insurance, through insurers approved by Vendor, in the sum of \$550,000.00, but Vendor shall not require coverage in an amount more than the balance owed under this Contract. Purchaser shall pay the insurance premiums when due. The policies shall contain the standard clause in favor of the Vendor's interest and, unless Vendor otherwise agrees in writing, the original of all policies covering the Property shall be deposited with Vendor. Purchaser shall promptly give notice of loss to insurance companies and Vendor. Unless Purchaser and Vendor otherwise agree in writing, insurance proceeds shall be applied to restoration or repair of the Property damaged, provided the Vendor deems the restoration or repair to be economically feasible.

Purchaser covenants not to commit waste nor allow waste to be committed on the Property, to keep the Property in good tenable condition and repair, to keep the Property free from liens superior to the lien of this Contract, and to comply with all laws, ordinances and regulations affecting the Property.

Vendor agrees that in case the purchase price with interest and other moneys shall be fully paid and all conditions shall be fully performed at the times and in the manner above specified, Vendor will on demand, execute and deliver to the Purchaser, a Warranty Deed, in fee simple, of the Property, free and clear of all liens and encumbrances, except any liens or encumbrances created by the act or default of Purchaser, and except:

Purchaser agrees that time is of the essence and (a) in the event of a default in the payment of any principal or interest which continues for a period of 30 days following the specified due date or (b) in the event of a default in performance of any other obligation of Purchaser which continues for a period of 30 days following written notice thereof by Vendor (delivered personally or mailed by certified mail), then the entire outstanding balance under this contract shall become immediately due and payable in full, at Vendor's option and without notice (which Purchaser hereby waives), and Vendor shall also have the following rights and remedies (subject to any limitations provided by law) in addition to those provided by law or in equity: (i) Vendor may, at his option, terminate this contract and Purchaser's rights, title and interest in the Property and recover the Property back through strict foreclosure with any equity of redemption to be conditioned upon Purchaser's full payment of the entire outstanding balance, with interest thereon from the date of default at the rate in effect on such date and other amounts due hereunder (in which event all amounts previously paid by Purchaser shall be forfeited as liquidated damages for failure to fulfill this Contract and as rental for the Property if purchaser fails to redeem); or (ii) Vendor may sue for specific performance of this Contract to compel immediate and full payment of the entire outstanding balance, with interest thereon at the rate in effect on the date of default and other amounts due hereunder, in which event the Property shall be auctioned at judicial sale and Purchaser shall be liable for any deficiency; or (iii) Vendor may sue at law for the entire unpaid purchase price or any portion thereof; or (iv) Vendor may declare this Contract at an end and remove this Contract as a cloud on title in a quiet-title action if the equitable interest of Purchaser is insignificant; and (v) Vendor may have Purchaser ejected from possession of the Property and have a receiver appointed to collect any rents, issues or profits during the pendency of any action under (i), (ii) or (iv) above. Notwithstanding any oral or written statements or actions of Vendor, an election of any of the foregoing remedies shall only be binding upon Vendor if and when pursued in litigation and all costs and expenses including reasonable attorneys fees of Vendor incurred to enforce any remedy hereunder (whether abated or not) to the extent not prohibited by law and expenses of title evidence shall be added to principal and paid by Purchaser, as incurred, and shall be included in any judgment.

Upon the commencement or during the pendency of any action of foreclosure of this Contract, Purchaser consents to the appointment of a receiver of the Property, including homestead interest, to collect the rents, issues, and profits of the Property during the pendency of such action, and such rents, issues and profits when so collected shall be held and applied as the court shall direct.

Purchaser shall not transfer, sell or convey any legal or equitable interest in the Property (by assignment of any of Purchaser's rights under this Contract or by option, long-term lease or in any other way) without the prior written consent of Vendor unless either the outstanding balance payable under this Contract is first paid in full or the interest conveyed is a pledge or assignment of Purchaser's interest under this Contract solely as security for an indebtedness of Purchaser. In the event of any such transfer, sale or conveyance without Vendor's written consent, the entire outstanding balance payable under this Contract shall become immediately due and payable in full, at Vendor's option without notice.

Vendor shall make all payments when due under any mortgage outstanding against the Property on the date of this Contract (except for any mortgage granted by Purchaser) or under any note secured thereby, provided Purchaser makes timely payment of the amounts then due under this Contract. Purchaser may make any such payments directly to the Mortgagee if Vendor fails to do so and all payments so made by Purchaser shall be considered payments made on this Contract.

Vendor may waive any default without waiving any other subsequent or prior default of Purchaser.

All terms of this Contract shall be binding upon and inure to the benefits of the heirs, legal representatives, successors and assigns of Vendor and Purchaser. (If not an owner of the Property the spouse of Vendor for a valuable consideration joins herein to release homestead rights in the subject Property and agrees to join in the execution of the deed to be made in fulfillment hereof.)

ADDENDUM A
TO LAND CONTRACT

000686

VENDOR: Mary Jill Zapuchlak
PURCHASER: Big Elm, LLC

The following are incorporated as terms in the land contract between Vendor and Purchaser:

Purchaser agrees to purchase the Property and pay the sum of Five Hundred Seventy-two Thousand Dollars (\$572,000.00) manner:

1. Forty Thousand Dollars (\$40,000) to Vendor at the execution of this contract, the balance of \$532,000 together with interest from the date hereof on the balance outstanding at the rate of 7% per annum until paid in full as follows:

Monthly payments of \$5,000 shall be paid as follows:

a. Three Thousand Dollars (\$3,000.00) shall be paid directly to the Bank of Wisconsin Dells, unless otherwise directed by the bank.

b. Two Thousand Dollars (\$2,000.00) shall be paid directly to Vendor

c. If and when the principal balance of the land contract reaches \$200,000.00, the whole \$5,000.00 will be paid to the Bank of Wisconsin Dells, unless otherwise directed by the bank.

d. prepayment limited to 10% of monthly payments.

ADDENDUM "A"

Addendum "A" to Land Contract between Arthur T. Donaldson, as Vendor, and Robert Zapuchlak, as Purchaser, dated April 1, 1994.

1. The Vendor shall furnish to Purchaser thirty (30) days prior to the date of ultimate closing, and the Purchaser shall accept as a sufficient showing of title, Vendor's choice of either:

- A. A title insurance commitment for an owner's policy of title insurance in the sum of the purchase price, the Purchaser to be named as the assured, to be written by a title insurance company licensed by the State of Wisconsin and guaranteeing the Vendor's title to be in the condition called for by this agreement; or
- B. A merchantable abstract showing the Vendor's title in the condition called for by this agreement. If an abstract is furnished, the Purchaser shall notify the Vendor, in writing, of any objections to title within ten (10) days after receipt of such abstract, and the Vendor shall then have a reasonable time within which to rectify the title or furnish a title policy as above described.

2. VENDOR HEREBY RESERVES AN EASEMENT OVER PARCEL 1 FOR THE PERIOD OF TWENTY-FIVE (25) YEARS FROM THE DATE HEREOF TO MAINTAIN THE DOUBLE-FACE OUTDOOR ADVERTISING SIGN STRUCTURE AT ITS PRESENT LOCATION IN THE SOUTHWEST CORNER OF THE PROPERTY AND TO MAINTAIN THE TWO (2) SINGLE-FACE OUTDOOR ADVERTISING SIGN STRUCTURES AT THEIR PRESENT LOCATIONS ON THE ROOF OF THE BUILDING LOCATED ON THE PROPERTY TOGETHER WITH AN UNOBSTRUCTED EASEMENT FOR THE SAME PERIOD OF TIME FOR PURPOSES OF INGRESS AND EGRESS ON, OVER AND ACROSS PARCEL 1 FOR ACCESS TO THE SIGN STRUCTURES FROM MUNROE AVENUE AND BIRNEY STREET FOR REPAIRS, MAINTENANCE AND CHANGE OF COPY. IT IS UNDERSTOOD AND AGREED BY PURCHASER THAT THE SIGNS SHALL BE UNOBSTRUCTED AT ALL TIMES SO THAT THEY MAY BE READ FROM MUNROE AVENUE FOR A DISTANCE OF AT LEAST 1500 FEET IN EACH DIRECTION. TITLE TO THE SIGN STRUCTURES SHALL REMAIN IN VENDOR OR HIS SUCCESSORS AND ASSIGNS.

3. VENDOR HEREBY RESERVES AN EASEMENT OVER PARCEL 2 TO ERECT AND MAINTAIN A TWELVE (12) FOOT BY TWENTY-FIVE (25) DOUBLE-FACE OUTDOOR ADVERTISING SIGN STRUCTURE ALONG THE BIRNEY STREET (EASTERLY) SIDE OF THE PROPERTY, TOGETHER WITH AN UNOBSTRUCTED EASEMENT FOR PURPOSES OF INGRESS AND EGRESS ON, OVER AND ACROSS PARCEL 2 FOR ACCESS TO THE SIGN STRUCTURE FROM BIRNEY STREET AND/OR WEST ADAMS STREET TO ERECT SUCH STRUCTURE AND FOR REPAIRS, MAINTENANCE AND CHANGE OF COPY THEREON. THE EASEMENTS SHALL RUN FOR A PERIOD OF TWENTY-FIVE (25) YEARS FROM THE DATE ON WHICH THE

000688

REEL 647 IMAGE 817

ZONING OF PARCEL 2 IS CHANGED TO A CLASSIFICATION WHICH PERMITS THE ERECTION OF THE OUTDOOR ADVERTISING SIGN STRUCTURE THEREON. IT IS UNDERSTOOD AND AGREED BY PURCHASER THAT THE OUTDOOR ADVERTISING SIGN STRUCTURE SHALL BE UNOBSTRUCTED AT ALL TIMES SO THAT IT MAY BE READ FROM BIRNEY STREET FOR A DISTANCE OF AT LEAST 1500 FEET IN EACH DIRECTION. TITLE TO THE SIGN STRUCTURE SHALL REMAIN IN VENDOR OR HIS SUCCESSOR AND ASSIGNS.

Contract, by and between **Terry D. Michael and Terri L. Michael, a/k/a Terri Lynn Michael, husband and wife** ("Vendor", whether one or more) and **Dalbir Singh and Sarbjit Kaur**

("Purchaser", whether one or more). Vendor sells and agrees to convey to Purchaser, upon the prompt and full performance of this contract by Purchaser, the following property, together with the rents, profits, fixtures and other appurtenant interests (all called the "Property"), in SAUK County, State of Wisconsin:

NAME AND RETURN ADDRESS

WRT

Exempt 77.25 (03)

146-0546-00000

(Parcel Identification Number)

Part of the Northwest 1/4 of the Southwest 1/4 of Section 21, Township 13 North, Range 6 East, Village of Lake Delton, Sauk County, Wisconsin, described as follows:

Commencing 20 feet West of the Northwest corner of Lot 5, Block 45, Village of Lake Delton; thence West 115 1/2 feet; thence South 115 1/2 feet; thence East 115 1/2 feet; thence North 115 1/2 feet to the point of beginning.

This land contract is being executed to replace the one recorded as #771035, which erroneously included the west half of the adjacent vacated alley.

This IS NOT homestead property.
(is)(is not)

Purchaser agrees to purchase the Property and to pay to Vendor, the sum of \$375,000.00, in the following manner: (a) \$95,000.00 at the execution of this Contract; and (b) the balance of \$280,000.00, together with interest from date hereof on the balance outstanding from time to time at the rate of 7.50 percent per annum until paid in full, as follows:

Purchaser shall make monthly payments of at least \$2,545.63 beginning April 15, 2002

Provided, however, the entire outstanding balance shall be paid in full on or before the 15th day of March, 2007 (the maturity date).

Following any default in payment, interest shall accrue at the rate of 11.0% per annum on the entire amount in default (which shall include, without limitation, delinquent interest and, upon acceleration or maturity, the entire principal balance).

Purchaser, unless excused by Vendor, agrees to pay monthly to Vendor amounts sufficient to pay reasonably anticipated annual taxes, special assessments, fire and required insurance premiums when due. To the extent received by Vendor, Vendor agrees to apply payments to these obligations when due. Such amounts received by the Vendor for payment of taxes, assessments and insurance will be deposited into an escrow fund or trustee account, but shall not bear interest unless otherwise required by law.

Payments shall be applied first to interest on the unpaid balance at the rate specified and then to principal. Any amount may be prepaid without premium or fee upon principal at any time.

In the event of any prepayment, this contract shall not be treated as in default with respect to payment so long as the unpaid balance of principal, and interest (and in such case accruing interest from month to month shall be treated as unpaid principal) is less than the amount that said indebtedness would have been had the monthly payments been made as first specified above; provided that monthly payments shall be continued in the event of credit of any proceeds of insurance or condemnation, the condemned premises being thereafter excluded herefrom.

Purchaser states that Purchaser is satisfied with the title as shown by the title evidence submitted to Purchaser for examination except:

NONE

Purchaser agrees to pay the costs of future title evidence. If title evidence is in the form of an abstract, it shall be retained by Vendor until the full purchase price is paid.

Purchaser shall be entitled to take possession of the Property today.

Terri's Shortstop Property

000004

Purchaser promises to pay when due all taxes and assessments levied on the Property or upon Vendor's interest in it and to deliver to Vendor on demand receipts showing such payment.

Purchaser shall keep the improvements on the Property insured against loss or damage occasioned by fire, extended coverage perils and such other hazards as Vendor may require, without co-insurance, through insurers approved by Vendor, in the sum of \$280,000.00 but Vendor shall not require coverage in an amount more than the balance owed under this Contract. Purchaser shall pay the insurance premiums when due. The policies shall contain the standard clause in favor of the Vendor's interest and, unless Vendor otherwise agrees in writing, the original of all policies covering the Property shall be deposited with Vendor. Purchaser shall promptly give notice of loss to insurance companies and Vendor. Unless Purchaser and Vendor otherwise agree in writing, insurance proceeds shall be applied to restoration or repair of the Property damaged, provided the Vendor deems the restoration or repair to be economically feasible.

Purchaser covenants not to commit waste nor allow waste to be committed on the Property, to keep the Property in good tenantable condition and repair, to keep the Property free from liens superior to the lien of this Contract, and to comply with all laws, ordinances and regulations affecting the Property.

Vendor agrees that in case the purchase price with interest and other moneys shall be fully paid and all conditions shall be fully performed at the times and in the manner above specified, Vendor will on demand, execute and deliver to the Purchaser, a Warranty Deed, in fee simple, of the Property, free and clear of all liens and encumbrances, except any liens or encumbrances created by the act or default of Purchaser, and except: municipal and zoning ordinances and agreements entered under them, recorded easements for the distribution of utility and municipal services, recorded building and use restrictions and covenants and general taxes for 2002.

Purchaser agrees that time is of the essence and (a) in the event of a default in the payment of any principal or interest which continues for a period of 30 days following the specified due date or (b) in the event of a default in performance of any other obligation of Purchaser which continues for a period of 30 days following written notice thereof by Vendor (delivered personally or mailed by certified mail); then the entire outstanding balance under this contract shall become immediately due and payable in full, at Vendor's option and without notice (which Purchaser hereby waives), and Vendor shall also have the following rights and remedies (subject to any limitations provided by law) in addition to those provided by law or in equity: (i) Vendor may, at his option, terminate this Contract and Purchaser's rights, title and interest in the Property and recover the Property back through strict foreclosure with any equity of redemption to be conditioned upon Purchaser's full payment of the entire outstanding balance, with interest thereon from the date of default at the rate in effect on such date and other amounts due hereunder (in which event all amounts previously paid by Purchaser shall be forfeited as liquidated damages for failure to fulfill this Contract and as rental for the Property if Purchaser fails to redeem); or (ii) Vendor may sue for specific performance of this Contract to compel immediate and full payment of the entire outstanding balance, with interest thereon at the rate in effect on the date of default and other amounts due hereunder, in which event the Property shall be auctioned at judicial sale and Purchaser shall be liable for any deficiency; or (iii) Vendor may sue at law for the entire unpaid purchase price or any portion thereof; or (iv) Vendor may declare this Contract at an end and remove this Contract as a cloud on title in a quiet-title action if the equitable interest of Purchaser is insignificant; and (v) Vendor may have Purchaser ejected from possession of the Property and have a receiver appointed to collect any rents, issues or profits during the pendency of any action under (i), (ii) or (iv) above. Notwithstanding any oral or written statements or actions of Vendor, an election of any of the foregoing remedies shall only be binding upon Vendor if and when pursued in litigation and all costs and expenses including reasonable attorneys fees of Vendor incurred to enforce any remedy hereunder (whether abated or not) to the extent not prohibited by law and expenses of title evidence shall be added to principal and paid by Purchaser, as incurred, and shall be included in any judgment.

Upon the commencement or during the pendency of any action of foreclosure of this Contract, Purchaser consents to the appointment of a receiver of the Property, including homestead interest, to collect the rents, issues, and profits of the Property during the pendency of such action, and such rents, issues, and profits when so collected shall be held and applied as the court shall direct.

Purchaser shall not transfer, sell or convey any legal or equitable interest in the Property (by assignment of any of Purchaser's rights under this Contract or by option, long-term lease or in any other way) without the prior written consent of Vendor unless either the outstanding balance payable under this Contract is first paid in full or the interest conveyed is a pledge or assignment of Purchaser's interest under this Contract solely as security for an indebtedness of Purchaser. In the event of any such transfer, sale or conveyance without Vendor's written consent, the entire outstanding balance payable under this Contract shall become immediately due and payable in full, at Vendor's option without notice.

Vendor shall make all payments when due under any mortgage outstanding against the Property on the date of this Contract (except for any mortgage granted by Purchaser) or under any note secured thereby, provided Purchaser makes timely payment of the amounts then due under this Contract. Purchaser may make any such payments directly to the Mortgagee if Vendor fails to do so and all payments so made by Purchaser shall be considered payments made on this Contract.

Vendor may waive any default without waiving any other subsequent or prior default of Purchaser.

All terms of this Contract shall be binding upon and inure to the benefits of the heirs, legal representatives, successors and assigns of Vendor and Purchaser. (If not an owner of the Property the spouse of Vendor for a valuable consideration joins herein to release homestead rights in the subject Property and agrees to join in the execution of the deed to be made in fulfillment hereof.)

Dated this 20th day of August, 2002. The terms of the Purchase Contract of the parties are made part of this Land Contract.
