DOCUMENTS NEEDED

Closure Letter, and any conditional closure letter issued	X
Copy of most recent deed, including legal description, for all affected properties	X
Certified survey map or relevant portion of the recorded plat map (*if referenced in the legal description*) for all affected properties	X
County Parcel ID number, *if used for county*, for all affected properties	X
Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.	X
Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.	X
Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)	X
Tables of Latest Soil Analytical Results (no shading or cross-hatching)	X
Isoconcentration map(s), *if required for site investigation (SI)* (8.5x14" if paper copy**).** The isoconcentration map should have flow direction and extent of groundwater contamination defined. **If not available, include the latest extent of contaminant plume map.**	X
GW: Table of water level elevations, with sampling dates, and free product noted if present	X
GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)	X
SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour	X
Geologic cross-sections, *if required for SI.* (8.5x14' if paper copy)	X
RP certified statement that legal descriptions are complete and accurate	X
Copies of off-source notification letters (if applicable)	
Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)	X
Copy of (soil or land use) deed restriction(s) or deed notice *if any required as a condition of closure*

RE: **Final Closure**

Commerce # 53216-3709-81 WDNR BRRTS # 03-41-000373
Darshan Dhaliwal Children's Trust #205, 3381 N. 35th St., Milwaukee

Dear Mr. Gerth:

The Wisconsin Department of Commerce (Commerce) has received all items required as conditions for closure of the site referenced above. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual soil and groundwater contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required. If applicable, the PECFA claim for this site would also be reopened and you may apply for assistance to the extent of remaining eligibility.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (414) 220-5403.

Sincerely,

Lee R. Delcore

RECEIVED

Project # 3031

Subject: Soil and Groundwater GIS Registry Package for Dhillon Gas & Food Mart, 3381 N. 35th Street, Milwaukee, WI (COMMERCE # 53216-3709-81, BRRTS # 03-41-000373)

Dear Mr. Delcore:

In a Conditional Closure letter dated February 2, 2001 and further in a letter dated March 7, 2003, the Department of Commerce requested for recording a groundwater use restriction and soil deed affidavit and a copy of road right-of-way notification letter for final closure. GIS registration with WDNR is chosen in place of groundwater use restriction and soil deed affidavit. Enclosed please find GIS Registry Packet for the referenced site. The documents are provided in the order listed in the Checklist of Documents for GIS Registry Packet.

1) GIS Registration fee was sent to the WDNR on August 6, 2003 (refer to Attachment A).

2) Copy of the most recent deed of the source property, a copy of the certified surveyed map, tax key number for the source property and geographic position of the reference property are included in Attachment B. A site location map and a site layout map are included in Attachment B.

3) Tables including groundwater analytical results and sample collection dates are included in Attachment C. Benzene concentration in groundwater is shown in Figure included in Attachment C. A table including groundwater elevation data and map showing groundwater flow direction is also included in Attachment C.

4) Tables including pre-remedial and post-remedial soil analytical results and sample collection dates are included in Attachment D. Soil samples location maps and contour showing horizontal extent of residual soil contamination are included in Attachment D. Geologic cross sections are also included in Attachment D.

5) A statement certifying legal description of the property by RP is included in Attachment E. A notification letter regarding potential residual contamination within right-of-way of N. 35th street and Townsend Street was sent to the City of Milwaukee on August 7, 2003. A copy of the letter is included in Attachment F. No adjacent property appears to have ES exceedence for petroleum contamination in groundwater, therefore no RP letter was sent to the adjacent private property owner.

We hope the information provided will be sufficient for GIS Registry and final closure of the site. Please call us, if you have any questions regarding this submittal.

Sincerely,

K. SINGH & ASSOCIATES, INC.

Document Number

WARRANTY DEED

REGISTER'S OFFICE) SS
Milwaukee County, WI
RECORDED AT 9:40 AM
06-24-2002
IGNATIAS J. NIEMCZYK
REGISTER OF DEEDS
AMOUNT 11.00

This Deed, made between Dhillon's Self Service, Inc., a Wisconsin corporation,

Grantor, and Charanjeet's Wisconsin Properties One, LLC, a Wisconsin limited liability company,

Grantee.

Grantor, for a valuable consideration, conveys and warrants to Grantee the following described real estate in Milwaukee County, State of Wisconsin (if more space is needed, please attach addendum):

Parcel 1: Lands in the Southwest ¼ of Section 12, Township 7 North, Range 21 East, in the City of Milwaukee, County of Milwaukee and State of Wisconsin, more particularly described as follows: Commencing 74 feet South of the South line of West Townsend Street, and 143 feet West of the West line of North 35th Street; thence East 40 feet; thence North 74 feet; thence East 103 feet; thence south 74 feet; thence West 20 feet; thence South 60 feet; thence West 114 feet, more or less; thence Northerly to the point of beginning.

Parcel 2: The East 20 feet of the North 60 feet of the South 111 feet of lands between West Townsend Street; North 35th Street; Buckley, Buehner and Buckley's Subdivision #1; and Lawnhurst Subdivision, being in the Southwest ¼ of Section 12, Township 7 North, Range 21 East, in the City of Milwaukee, County of Milwaukee, and State of Wisconsin.

Certification of Legal Descriptions

Parcel Identification Number: 287-9998-110-8

(3381 N. 35th Street, Milwaukee, WI)

Parcel 1: lands in the Southwest ¼ of Section 12, Township 7 North, Range 21 East, in the City of Milwaukee, County of Milwaukee and State of Wisconsin, more particularly described as follows: Commencing 74 feet South of the South line of West Townsend Street, and 143 feet West of the West line of North 35th Street; thence East 40 feet; thence North 74 feet; thence East 103 feet; thence south 74 feet; thence West 20 feet; thence South 60 feet; thence West 114 feet, more or less; thence Northerly to the point of beginning.

Parcel 2: The East 20 feet of the North 60 feet of the South 111 feet of lands between West Townsend Street; North 35th Street; Buckley, Buehner and Buckley's Subdivision # 1; and Lawnhurst Subdivision, being in the Southwest ¼ of Section 12, Township 7 North, Range 21 East, in the City of Milwaukee, County of Milwaukee, and State of Wisconsin.

I John Gentle certify that the legal description provided above and on the attached Warranty Deed is complete and accurate to the best of my knowledge. The legal description correctly describes the parcel affected by petroleum releases from 3381 N. 35th Street, Milwaukee, Wisconsin.

Milwaukee, WI 53202

Project #3031

Subject: Notification of Residual Contamination within Right-of Way of North 35rd Street and Townsend Street along Dhillion Gas & Food Mart, 3381 N. 35th Street, Milwaukee, WI (BRRTS #03-41-000373, COMMERCE #53216-3709-81)

Dear Mr. Polenske:

The purpose of this letter is to notify City of Milwaukee regarding potential residual petroleum contamination in soil and groundwater within the right-of-way of N. 35rd Street and Townsend Street along Dhillion Gas & Food Mart, 3381 N. 35th Street, Milwaukee, WI.

Elevated benzene concentration was noted in soil samples C-2W and C-3W collected at a depth of 6 to 9 feet below ground surface from east wall of the area excavated during soil remediation (refer to Figure 1). Soil quality test results are included in Table 1. Due to elevated level of contamination in soil samples C-2W and C-3W, there is a potential for residual contamination within right-of-way of N. 35th Street along west side walk. A plume of residual soil contamination is shown in Figure 2. Due to elevated petroleum contamination in monitoring well MW-5, there is a potential for migration of petroleum contaminants in groundwater in the right of way of N. 35th Street and Townsend Street (refer to Figure 3). Groundwater quality test results are summarized in Table 2.

We notify the above details for your information and records. It is our understanding that the residual contamination will be remediated by natural attenuation. Please call us if you have any questions regarding this submittal.

Sincerely,

K. SINGH & ASSOCIATES, INC.
