SUBJECT: Final Case Closure By Project Manager With Conditions Met
Wisconsin Centrifugal, 905 E. St. Paul Ave., Waukesha, WI
WDNR BRRTS #: 02-68-000064 FID# 268006970

Dear Ms. Hildebran:

On August 5, 2002 your site as described above was reviewed for closure by the Department of Natural Resources. The Department reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On October 3, 2001, you were notified that conditional closure was granted to this case.

On August 1, 2002, the Department received correspondence indicating that you have complied with the conditions of closure. As requested, the Department has received well abandonment forms, and copies of the deed reflecting a groundwater use restriction and a soil restriction for contaminated soil. Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/qwur/index.htm>

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at (414)263-8564.

Sincerely,

Michelle Williams, Hydrogeologist

Declaration of Restriction

In Re: See Legal Description on Deed

STATE OF WISCONSIN)
) ss
COUNTY OF WAUKESHA)

WHEREAS, MetalTek International, Inc. is the owner of the Above-described property.

WHEREAS, one or more volatile organic discharges have occurred on this property. Volatile organic-contaminated groundwater above the ch. NR 140, Wis. Adm. Code, enforcement standards existed on this property at the following location on the following dates:

(Exhibit A)

See the attached groundwater analytical table for the types of contaminants, sampling dates, and concentrations. The groundwater contamination is located in an area starting at the northeast corner of the property going 300 feet southwest, then 200 feet northwest, then 300 feet northeast, then 200 feet southeast to the starting point. A map of the area is attached as exhibit C and is hereby made a part of this restriction.

Parcel Identification Number

pd 27/9

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct further groundwater or soil remediation activities on the property at the present time.

WHEREAS, natural attenuation has been approved by the Department of Natural Resources to remediate groundwater contamination exceeding ch. NR 140 groundwater standards within the boundaries of this property.

WHEREAS, construction of wells where the water quality does not comply with drinking water standards in ch. NR 809 is restricted by chs. NR 811 and NR 812, Wis. Adm. Code. Special well construction standards or water treatment requirements, or both, or well construction prohibitions may apply.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitations and restrictions:

Anyone who proposes to construct or reconstruct a well on this property is required to contact the Department of Natural Resources' Bureau of Drinking Water and Groundwater, or its successor agency, to determine what specific requirements are

applicable, prior to constructing or reconstructing a well on this property. No well may be constructed on this property unless applicable requirements are met.

If construction is proposed on this property that will require dewatering, or if groundwater is to be otherwise extracted from this property, while this groundwater use restriction is in effect, the groundwater shall be sampled and analyzed for contaminants that were previously detected on the property and any extracted groundwater shall be managed in compliance with applicable statutes and rules.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction inures to the benefit of and is enforceable by the Department of Natural Resources, its successors or assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that one or more of the restrictions set forth in this covenant is no longer required. Upon the receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the Department determines that the restrictions can be extinguished, an affidavit, attached to a copy of the Department's written determination, may be recorded by the property owner or other interested party to give notice that this deed restriction, or portions of this deed restriction, are no longer binding.

By signing this document, Mr. Larry Koltz asserts that he is duly authorized to sign this document on behalf of MetalTek International, Inc.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 15 day of July, 2002.

In Re: See ^ALegal Description ~~on Deed~~

STATE OF WISCONSIN)
) SS
COUNTY OF WAUKESHA)

WHEREAS, MetalTek International, Inc. is the owner of the above-described property.

WHEREAS, one or more volatile organic discharges have occurred on this property. Volatile organic-contaminated soil remains on this property at the following location:

An area starting at the northeast corner of the property going 300 feet southwest, then 200 feet northwest, then 300 feet northeast, then 200 feet southeast to the starting point, as shown on Exhibit B, which is attached hereto and made a part of this restriction.

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct further soil remediation activities on the property at the present time.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitations and restrictions:

Structural impediments existing at the time of clean-up, including a concrete and asphalt drive, made complete remediation of the soil contamination on this property impracticable. If the structural impediments on this property that are described above are removed, the property owner shall conduct an investigation of the degree and extent of volatile organic contamination. To the extent that contamination is found at that time, the Wisconsin Department of Natural Resources shall be immediately notified and the contamination shall be properly remediated in accordance with applicable statutes and rules. If the currently-inaccessible contaminated soil that remains on the property is excavated in the future, it will have to be sampled and analyzed and the treatment or disposal of the soil as a solid or hazardous waste may be necessary.

An engineered cap or cover is present over the residual soil contamination on the property. Therefore, the following activities are prohibited on that portion of the property described above where a cap or cover exists, unless prior written approval has been obtained from the Wisconsin Department of Natural Resources or its successor or assign:

- (1) Excavating or grading of the land surface;
- (2) Filling on the capped area;
- (3) Plowing for agricultural cultivation; and
- (4) Construction or installation of a building or other

structure with a foundation that would sit on or be placed within the cap or cover. In addition, the cap or cover shall be maintained in compliance with a plan prepared and submitted to the Wisconsin Department of Natural Resources by a responsible party, as required by section NR 724.13(2), Wis. Adm. Code (1997).

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction inures to the benefit of and is enforceable by the Department of Natural Resources, its successors or assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that one or more of the restrictions set forth in this covenant is no longer required. Upon the receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the Department determines that the restrictions can be extinguished, an affidavit, attached to a copy of the Department's written determination, may be recorded by the property owner or other interested party to give notice that this deed restriction, or portions of this deed restriction, are no longer binding.

By signing this document, Mr. Larry Koltz asserts that he is duly authorized to sign this document on behalf of MetalTek International, Inc.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 15 day of July, 2002.
