RE: **Final Closure**

Commerce # 53005-1826-45 **WDNR BRRTS # 03-68-521684**
Gas Tank Renu, 12745 West Lisbon Road, Brookfield

Dear Ms. Gamble:

The Wisconsin Department of Commerce (Commerce) has received all items required as conditions for closure of the site referenced above. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual soil contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable state and federal regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (414) 220-5361.

Sincerely,

A handwritten signature in cursive script that reads "Monica L. Weis".

RE: **Conditional Case Closure**

Commerce # 53005-1826-45 WDNR BRRTS # 03-68-521684
Gas Tank Renu, 12745 West Lisbon Road, Brookfield

Dear Ms. Gamble:

The Wisconsin Department of Commerce (Commerce) has reviewed the request for case closure prepared by your consultant, Environmental Associates, Inc., for the site referenced above. It is understood that residual soil contamination remains on-site. Commerce has determined that this site does not pose a significant threat to the environment and human health. No further investigation or remedial action is necessary.

The following conditions must be satisfied to obtain final closure:

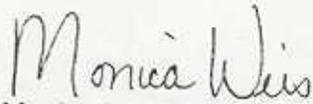

- A restriction must be placed on the property deed because residual lead concentrations remain above regulatory limits within four feet of the ground surface. Submit a copy of the restriction to Commerce that contains the County Register of Deeds recording information. A draft "Notice of Contamination" has been prepared for your use. If you wish to modify the language, submit a copy to Commerce for approval prior to filing with the Register of Deeds.
- Properly abandon monitoring well MW-1 and submit the appropriate documentation to me at the letterhead address.

This letter serves as your written notice of "no further action". Timely filing of your final PECFA claim (if applicable) is encouraged. If your claim is not received within 120 days of the date of this letter, interest costs incurred after 60 days of the date of this letter will not be eligible for PECFA reimbursement. Costs associated with recording deed notices or other restrictions are not eligible for PECFA reimbursement, and the recording of these notices should not delay the claim submittal process.

Ms. Sharon Gamble

restrictions contained herein can be extinguished. Conditions under which a restriction may be extinguished will be determined in accordance with the site specific standards, rules and laws for this property. If the Department determines that the restrictions can be extinguished, an affidavit, with a copy of the Department's written determination, may be recorded to give notice that this restriction, or portions of this restriction are no longer binding. Any restriction placed upon this property shall not be extinguished without the Department's written determination.

IN WITNESS WHEREOF, the owner of the property has executed this document, this 10th day of June, 2004.

[When appropriate use the following clause]:

By signing this document, [he/she] acknowledges that [he/she] is duly authorized to sign this document on behalf of Lucius Trust.
