This Adobe Fillable form is intended to provide a list of information that is required for evaluation for case closure. It is to be used in conjunction with Form 4400-202, Case Closure Request. The closure of a case means that the Department has determined that no further response is required at that time based on the information that has been submitted to the Department.

NOTICE: Completion of this form is mandatory for applications for case closure pursuant to ch. 292, Wis. Stats. and ch. NR 726, Wis. Adm. Code, including cases closed under ch. NR 746 and ch. NR 726. The Department will not consider, or act upon your application, unless all applicable sections are completed on this form and the closure fee and any other applicable fees, required under ch. NR 749, Wis. Adm. Code, Table 1 are included. It is not the Department's intention to use any personally identifiable information from this form for any purpose other than reviewing closure requests and determining the need for additional response action. The Department may provide this information to requesters as required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

BRRTS #: 03-29-000198 PARCEL ID #: 29251CMA882

ACTIVITY NAME: Vacuum Platers WTM COORDINATES: X: 514181 Y: 369164

CLOSURE DOCUMENTS (the Department adds these items to the final GIS packet for posting on the Registry)

- Closure Letter**
- Maintenance Plan** (if activity is closed with a land use limitation or condition (land use control) under s. 292.12, Wis. Stats.)
- Conditional Closure Letter**
- Certificate of Completion (COC)** for VPLE sites

SOURCE LEGAL DOCUMENTS

- Deed:** The most recent deed as well as legal descriptions, for the **Source Property** (where the contamination originated). Deeds for other, off-source (off-site) properties are located in the **Notification** section.
Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.
- Certified Survey Map:** A copy of the certified survey map or the relevant section of the recorded plat map for those properties where the legal description in the most recent deed refers to a certified survey map or a recorded plat map. (lots on subdivided or platted property (e.g. lot 2 of xyz subdivision)).
Figure #: **Title:**
- Signed Statement:** A statement signed by the Responsible Party (RP), which states that he or she believes that the attached legal description accurately describes the correct contaminated property.

MAPS (meeting the visual aid requirements of s. NR 716.15(2)(h))

Maps must be no larger than 8.5 x 14 inches unless the map is submitted electronically.

- Location Map:** A map outlining all properties within the contaminated site boundaries on a U.S.G.S. topographic map or plat map in sufficient detail to permit easy location of all parcels. If groundwater standards are exceeded, include the location of all potable wells within 1200 feet of the site.
Note: Due to security reasons municipal wells are not identified on GIS Packet maps. However, the locations of these municipal wells must be identified on Case Closure Request maps.
Figure #: 1 **Title: Site Location Map**
- Detailed Site Map:** A map that shows all relevant features (buildings, roads, individual property boundaries, contaminant sources, utility lines, monitoring wells and potable wells) within the contaminated area. This map is to show the location of all contaminated public streets, and highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding a ch. NR 140 Enforcement Standard (ES), and/or in relation to the boundaries of soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Levels (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.
Figure #: 3 **Title: Residual PAH, VOC, and Metals in Soil**
- Soil Contamination Contour Map:** For sites closing with residual soil contamination, this map is to show the location of all contaminated soil and a single contour showing the horizontal extent of each area of contiguous residual soil contamination that exceeds a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL) as determined under s. NR 720.09, 720.11 and 720.19.
Figure #: 3 **Title: Residual PAH, VOC, and Metals in Soil**

BRRTS #: 03-29-000198

ACTIVITY NAME: Vacuum Platers

MAPS (continued)

- Geologic Cross-Section Map:** A map showing the source location and vertical extent of residual soil contamination exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL). If groundwater contamination exceeds a ch. NR 140 Enforcement Standard (ES) when closure is requested, show the source location and vertical extent, water table and piezometric elevations, and locations and elevations of geologic units, bedrock and confining units, if any.

Figure #: **Title:**

Figure #: **Title:**

- Groundwater Isoconcentration Map:** For sites closing with residual groundwater contamination, this map shows the horizontal extent of all groundwater contamination exceeding a ch. NR140 Preventive Action Limit (PAL) and an Enforcement Standard (ES). Indicate the direction and date of groundwater flow, based on the most recent sampling data.

Note: This is intended to show the total area of contaminated groundwater.

Figure #: 7, 8, 9 Title: Estimated Areas of Groundwater Above Enforcement Standards

- Groundwater Flow Direction Map:** A map that represents groundwater movement at the site. If the flow direction varies by more than 20° over the history of the site, submit 2 groundwater flow maps showing the maximum variation in flow direction.

Figure #: **Title: Groundwater Contaminant Concentration Jan 30, 1998**

Figure #: **Title:**

TABLES (meeting the requirements of s. NR 716.15(2)(h)(3))

Tables must be no larger than 8.5 x 14 inches unless the table is submitted electronically. Tables must not contain shading and/or cross-hatching. The use of **BOLD** or *ITALICS* is acceptable.

- Soil Analytical Table:** A table showing remaining soil contamination with analytical results and collection dates.
Note: This is one table of results for the contaminants of concern. Contaminants of concern are those that were found during the site investigation, that remain after remediation. It may be necessary to create a new table to meet this requirement.

Table #: 1, 3, 4 Title: Soil Data Summary Table

- Groundwater Analytical Table:** Table(s) that show the most recent analytical results and collection dates, for all monitoring wells and any potable wells for which samples have been collected.

Table #: 2, 5, 6 Title: Groundwater Data Table

- Water Level Elevations:** Table(s) that show the previous four (at minimum) water level elevation measurements/dates from all monitoring wells. If present, free product is to be noted on the table.

Table #: 6 Title: Summary of Water Level Elevations

IMPROPERLY ABANDONED MONITORING WELLS

For each monitoring well not properly abandoned according to requirements of s. NR 141.25 include the following documents.

Note: If the site is being listed on the GIS Registry for only an improperly abandoned monitoring well you will only need to submit the documents in this section for the GIS Registry Packet.

- Not Applicable**

- Site Location Map:** A map showing all surveyed monitoring wells with specific identification of the monitoring wells which have not been properly abandoned.

Note: If the applicable monitoring wells are distinctly identified on the Detailed Site Map this Site Location Map is not needed.

Figure #: **Title:**

- Well Construction Report:** Form 4440-113A for the applicable monitoring wells.

- Deed:** The most recent deed as well as legal descriptions for each property where a monitoring well was not properly abandoned.

- Notification Letter:** Copy of the notification letter to the affected property owner(s).

BRRTS #: 03-29-000198

ACTIVITY NAME: Vacuum Platers

NOTIFICATIONS

Source Property

- Letter To Current Source Property Owner:** If the source property is owned by someone other than the person who is applying for case closure, include a copy of the letter notifying the current owner of the source property that case closure has been requested.
- Return Receipt/Signature Confirmation:** Written proof of date on which confirmation was received for notifying current source property owner.

Off-Source Property

Group the following information per individual property and label each group according to alphabetic listing on the "Impacted Off-Source Property" attachment.

- Letter To "Off-Source" Property Owners:** Copies of all letters sent by the Responsible Party (RP) to owners of properties with groundwater exceeding an Enforcement Standard (ES), and to owners of properties that will be affected by a land use control under s. 292.12, Wis. Stats.

Note: Letters sent to off-source properties regarding residual contamination must contain standard provisions in Appendix A of ch. NR 726.

Number of "Off-Source" Letters:

- Return Receipt/Signature Confirmation:** Written proof of date on which confirmation was received for notifying any off-source property owner.
- Deed of "Off-Source" Property:** The most recent deed(s) as well as legal descriptions, for all affected deeded **off-source property(ies)**. This does not apply to right-of-ways.
Note: If a property has been purchased with a land contract and the purchaser has not yet received a deed, a copy of the land contract which includes the legal description shall be submitted instead of the most recent deed. If the property has been inherited, written documentation of the property transfer should be submitted along with the most recent deed.

- Letter To "Governmental Unit/Right-Of-Way" Owners:** Copies of all letters sent by the Responsible Party (RP) to a city, village, municipality, state agency or any other entity responsible for maintenance of a public street, highway, or railroad right-of-way, within or partially within the contaminated area, for contamination exceeding a groundwater Enforcement Standard (ES) and/or soil exceeding a Residual Contaminant Level (RCL) or a Site Specific Residual Contaminant Level (SSRCL).

Number of "Governmental Unit/Right-Of-Way Owner" Letters: 2

April 14, 2009

Mr. Brian Yerges
City Administrator
303 South Mansion St.
Mauston, WI 53948

SUBJECT: Final Case Closure
Vacuum Platers Inc., 115 South Union St., Mauston, WI
WDNR BRRTS Activity #: 03-29-000198

Dear Mr. Yerges:

On February 26, 2009, the Department of Natural Resources reviewed your request for closure of the case described above. The West Central Region Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases.

Based on the correspondence and data provided, it appears that your case meets the requirements of ch. NR 726, Wisconsin Administrative Code. The Department considers this case closed and no further investigation or remediation is required at this time.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wisconsin Administrative Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

GIS Registry

The conditions of case closure set out below in this letter require that your site be listed on the Remediation and Redevelopment Program's GIS Registry. The specific reasons are summarized below:

- Residual soil contamination exists that must be properly managed should it be excavated or removed
- Groundwater contamination is present above Chapter NR 140 enforcement standards

Information that was submitted with your closure request application will be included on the GIS Registry. To review the sites on the GIS Registry web page, visit the RR Sites Map page at: <http://dnr.wi.gov/org/aw/rr/gis/index.htm>. If your property is listed on the GIS Registry because of remaining contamination and you intend to construct or reconstruct a well, you will need prior Department approval in accordance with s. NR 812.09(4)(w), Wis. Adm. Code. To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line

<http://dnr.wi.gov/org/water/dwg/3300254.pdf> or at the web address listed above for the GIS Registry.

Remaining Residual Soil Contamination

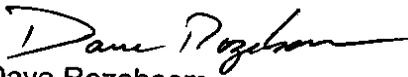

Residual soil contamination remains on site as indicated in the information submitted to the Department of Natural Resources. If contaminated soil is excavated in the future, then pursuant to ch. NR 718 or, if applicable, ch. 289, Stats., and chs. 500 to 536, the property owner at the time of excavation must sample and analyze the excavated soil to determine if residual contamination remains. If sampling confirms that contamination is present the property owner at the time of excavation will need to determine whether the material would be considered solid or hazardous waste and ensure that any storage, treatment or disposal is in compliance with applicable standards and rules. In addition, all current and future owners and occupants of the property need to be aware that excavation of the contaminated soil may pose an inhalation or other direct contact hazard and as a result special precautions may need to be taken to prevent a direct contact health threat to humans.

Remaining Residual Groundwater Contamination

Groundwater impacted by VOC contamination greater than enforcement standards set forth in ch. NR140, Wis. Adm. Code, is present both on the contaminated property and off the contaminated property. Off-property owners have been notified of the presence of groundwater contamination. For more detailed information regarding the locations where groundwater samples have been collected (i.e., monitoring well locations) and the associated contaminant concentrations, refer to the Remediation and Redevelopment Program's GIS Registry at <http://dnr.wi.gov/org/aw/rr/gis/index.htm>.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this closure decision or anything outlined in this letter, please contact me at (715) 421-7873.

Sincerely,

Dave Rozeboom
Hydrogeologist

COMPLETED

PLEASE TAKE NOTICE that, pursuant to the attached letter dated March 4, 2009 from the Wisconsin Department of Natural Resources, the following-referenced Deed Restriction and Groundwater Use Restriction:

1. Deed Restriction, dated August 26, 1999, recorded August 27, 1999, in Volume 531 of Records, at Page 604, as Document Number 359704, in the Office of the Juneau County Register of Deeds, regarding Parcel Number 29251CMA882; and
2. Groundwater Use Restriction, dated August 26, 1999, recorded August 27, 1999, in Volume 531 of Records, at Page 596, as Document Number 359703, in the Office of the Juneau County Register of Deeds, regarding Parcel Number 29251CMA882;

are hereby extinguished and removed from the real estate described in said Restrictions, in Juneau County, Wisconsin, more particularly described as:

Lots 2, 3, 4, 5 and 6; the South 37 feet of Lots 7, 8, 9 and 10; the South 37 feet of the East 15 feet of Lot 11 and the South 30 feet of the West 25 feet of Lot 11; all in Block 1 of Maugh's Addition to the City of Mauston, Juneau County, Wisconsin.

AND

The North 63 feet of Lots 7, 8, 9 and the North 63 feet of the East 6 feet of Lot 10; all in Block 1 of Maugh's Addition to the City of Mauston, Juneau County, Wisconsin, EXCEPTING THEREFROM lands at Volume 294 of Records, Page 232, described as follows: A parcel of land located in Lot 7, Block 1 of Maugh's Addition which is bounded by a line described as follows: Commencing at the northeasterly corner of said Block 1 of Maugh's Addition to the City of Mauston, said point being at the intersection of the southerly right-of-way of State Street and the westerly right-of-way of Union Street said point also being the point of beginning of this description; thence

southwesterly 15 feet along the easterly line of said Block 1; thence northwesterly to a point on the northerly line of said Block 1 that is 15 feet northwesterly of the northeasterly corner of said Block 1; thence southeasterly along the northerly line of said Block 1 to the northeasterly corner of said Block 1 and the point of beginning.

Dated this 11th day of March, 2009.

RE: Removal of Deed Restrictions
Former Vacuum Platers Property, 115 South Union St., Mauston, WI
WDNR BRRTS Activity #: 03-29-000198, 03-29-000222

Dear Mr. Yerges:

The purpose of this letter is to inform you that the Wisconsin Department of Natural Resources has determined that the restrictions set forth in the following-referenced Deed Restriction and Groundwater Use Restriction are no longer required and, therefore, are hereby extinguished:

1. Deed Restriction, dated August 26, 1999, recorded August 27, 1999, in Volume 531 of Records, at Page 604, as Document Number 359704, in the Office of the Juneau County Register of Deeds, regarding Parcel Number 29251CMA882.
2. Groundwater Use Restriction, dated August 26, 1999, recorded August 27, 1999, in Volume 531 of Records, at Page 596, as Document Number 359703, in the Office of the Juneau County Register of Deeds, regarding Parcel Number 29251CMA882.

The City of Mauston is hereby authorized to record this document to give notice that the above-described Restrictions are no longer binding.

Sincerely,

Dave Rozeboom, Hydrogeologist

204 of Records page 625

THIS INDENTURE, Made this 12th day of December
A. D., 1972, between Smith and Hanson True-Value
Hardware, Inc.

_____ a Corporation
duly organized and existing under and by virtue of the laws of the State of Wisconsin, located
at Mauston Wisconsin, party of the first part and
Vacuum Platers, Inc., a Wisconsin corporation

part Y of the second part.

Witnesseth, That the said party of the first part, for and in consideration
of the sum of one dollar and other good and valuable consideration

RETURN TO
Heick & Feldman
Box 300

_____ to it paid by the said part Y of the second part, the receipt whereof is hereby
confessed and acknowledged, has given, granted, bargained, sold, remised, released, aliened, conveyed and confirmed, and by these presents
does give, grant, bargain, sell, remise, release, alien, convey and confirm unto the said part Y of the second part, its heirs and assigns
forever, the following described real estate situated in the County of Juneau and State of Wisconsin, to-wit:

Commencing at a point on the South boundary line of Lot Two (2), Block One (1) Maughs
Addition to the City of Mauston, Juneau County, Wisconsin, 19 feet 6 inches from the
Southwest corner of said Lot Two (2) which is the POINT OF BEGINNING; thence North
along a line parallel to the West boundary line of said Lot Two (2) to the South boundary
line of Lot Eleven (11) of the aforesaid block and addition; thence East along the South
boundary line of said Lot Eleven (11) which is also the North boundary line of said Lot 2,
a distance of 6 inches; thence North along a line parallel to the West boundary line of
said Lot Eleven (11) a distance of 30 feet; thence East along a line parallel to the North
boundary line of said Lot Eleven (11) a distance of 5 feet; thence North along a line
parallel to the West boundary line of said Lot Eleven (11) a distance of 7 feet; thence
East along a line parallel to the North line of said Lot Eleven (11) and the North line of

(IF NECESSARY, CONTINUE DESCRIPTION ON REVERSE SIDE)

Together with all and singular the hereditaments and appurtenances thereunto belonging or in any wise appertaining; and all the estate
right, title, interest, claim or demand whatsoever, of the said party of the first part, either in law or equity, either in possession or expectancy
of, in and to the above bargained premises, and their hereditaments and appurtenances.

To Have and To Hold the said premises as above described with the hereditaments and appurtenances, unto the said part Y of the
second part, and to its heirs and assigns FOREVER.

And the said Smith and Hanson True-Value Hardware, Inc.

party of the first part, for itself and its successors, does covenant, grant, bargain and agree to and with the said part Y of the
second part, its heirs and assigns, that at the time of the encasing and delivery of these presents it is well seized of the
premises above described, as of a good, sure, perfect, absolute and indefeasible estate of inheritance in the law, in fee simple, and that the
same are free and clear from all incumbrances whatever.

and that the above bargained premises in the quiet and peaceable possession of the said part Y of the second part, its heirs and assigns,
against all and every person or persons lawfully claiming the whole or any part thereof, it will forever WARRANT AND DEFEND.

In Witness Whereof, the said Smith and Hanson True-Value Hardware, Inc.

party of the first part, has caused these presents to be signed by William J. Smith, its President, and
countersigned by Marion Bettin, its Secretary, at Mauston
Wisconsin, and its corporate seal to be hereunto affixed, this 12th day of December, A. D., 1972.

Vol. 256 Page 295

This indenture, Made this 8th day of October A. D., 1979
 between MOBIL OIL CORPORATION (Formerly named Socony Vacuum Oil Company) Corporation duly organized
 and existing under and by virtue of the laws of the State of New York, located at New York, New York
 party of the first part, and VACUUM PLATERS, INC.
 a Corporation duly organized and existing under and by virtue of the laws of the State of Wisconsin, located at Mauston
 Wisconsin, party of the second part.

Witnesseth, That the said party of the first part, for and in consideration of the sum of
TEN (\$10) DOLLARS and other good and valuable consideration
 to it paid by the said party of the second part, the receipt whereof is hereby confessed and acknowledged, has given, granted, bargained, sold,
 remised, released and quit-claimed, and by these presents does give, grant, bargain, sell, remise, release and quit-claim unto the said party of
 the second part, and to its successors and assigns forever, the following described real estate, situated in the County of JUNEAU

State of Wisconsin, to-wit:
 A part of Lots numbered Seven (7) and Eight (8) in Block Number One (1) in Maugh's
 Addition to the City of Mauston, described as follows: Commencing at the Northeast
 corner of said Lot number Seven (7) thence Southerly on the East line of said Lot
 number Seven (7) sixty three feet, thence Westerly parallel with the North line of
 Lots numbered Seven (7) and Eight (8) sixty feet, thence Northerly parallel with the
 East line of Lot number Seven (7) sixty three feet, to the North line of Lot Number
 Eight (8), thence Easterly along the North line of said Lots Eight (8) and Seven (7)
 to place of beginning.

AND ALSO, That part of Lots Eight (8) and Nine (9) in Block One (1) of Maugh's
 Addition to the Village (now City of Mauston), described as follows: Commencing at
 the Northwest corner of Lot Nine (9) aforesaid; thence Southwesterly on the Westerly
 line of said Lot Nine (9) sixty-three feet; thence Easterly at right angles parallel
 with the Northerly line of said Lots forty-seven (47) feet; thence Northeasterly at
 right angles sixty-three (63) feet to the Southwesterly line of State Street; thence
 Northwesterly along said line of said street forty-seven (47) feet to the place of
 beginning; Said lands being also described as the Northeasterly sixty-three (63) feet
 of Lot Nine (9) and the Northwesterly seven (7) feet of the Northeasterly sixty-three
 (63) feet of Lot Eight (8) in Block One (1) of Maugh's Addition to the Village (now
 City of Mauston), Juneau County, Wisconsin.

As a part of the consideration for this conveyance grantee, its successors and assigns,
 covenants and this conveyance is made and accepted upon the express covenant and agree-
 ment that neither the premises hereby conveyed, nor any part thereof shall, for a period
 of fifteen (15) years from the date hereof, be used for the sale, distribution or adver-
 tising of petroleum and petroleum products or either of them; that this covenant is to
 run with the land hereby conveyed and every part thereof, and that a similar restrictive
 covenant shall be inserted in any deed or lease or other instrument conveying or demising
 the premises hereby conveyed or any part thereof.

RESPONSIBLE PARTY AFFIRMATION OF PROPERTY DESCRIPTIONS

The following affirmation by the responsible party is required by Wisconsin Administrative Code, ch. NR 726.05 paragraph (3)(a)4.g. (for groundwater contamination) and/or NR 726.05 paragraph (3)(b)4.f. (for soil contamination).

I hereby affirm the following:

1. I believe that legal descriptions for all of the properties within or partially within the contaminated site's boundaries that had groundwater contamination exceeding ch NR 140 enforcement standards at the time that case closure was requested, other than public street or highway rights-of-way or railroad rights-of-way, have been submitted to the agency with administrative authority for the site, either as an attachment to the site investigation report or as part of the groundwater GIS registry attachment to the case close out report,

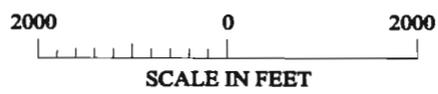

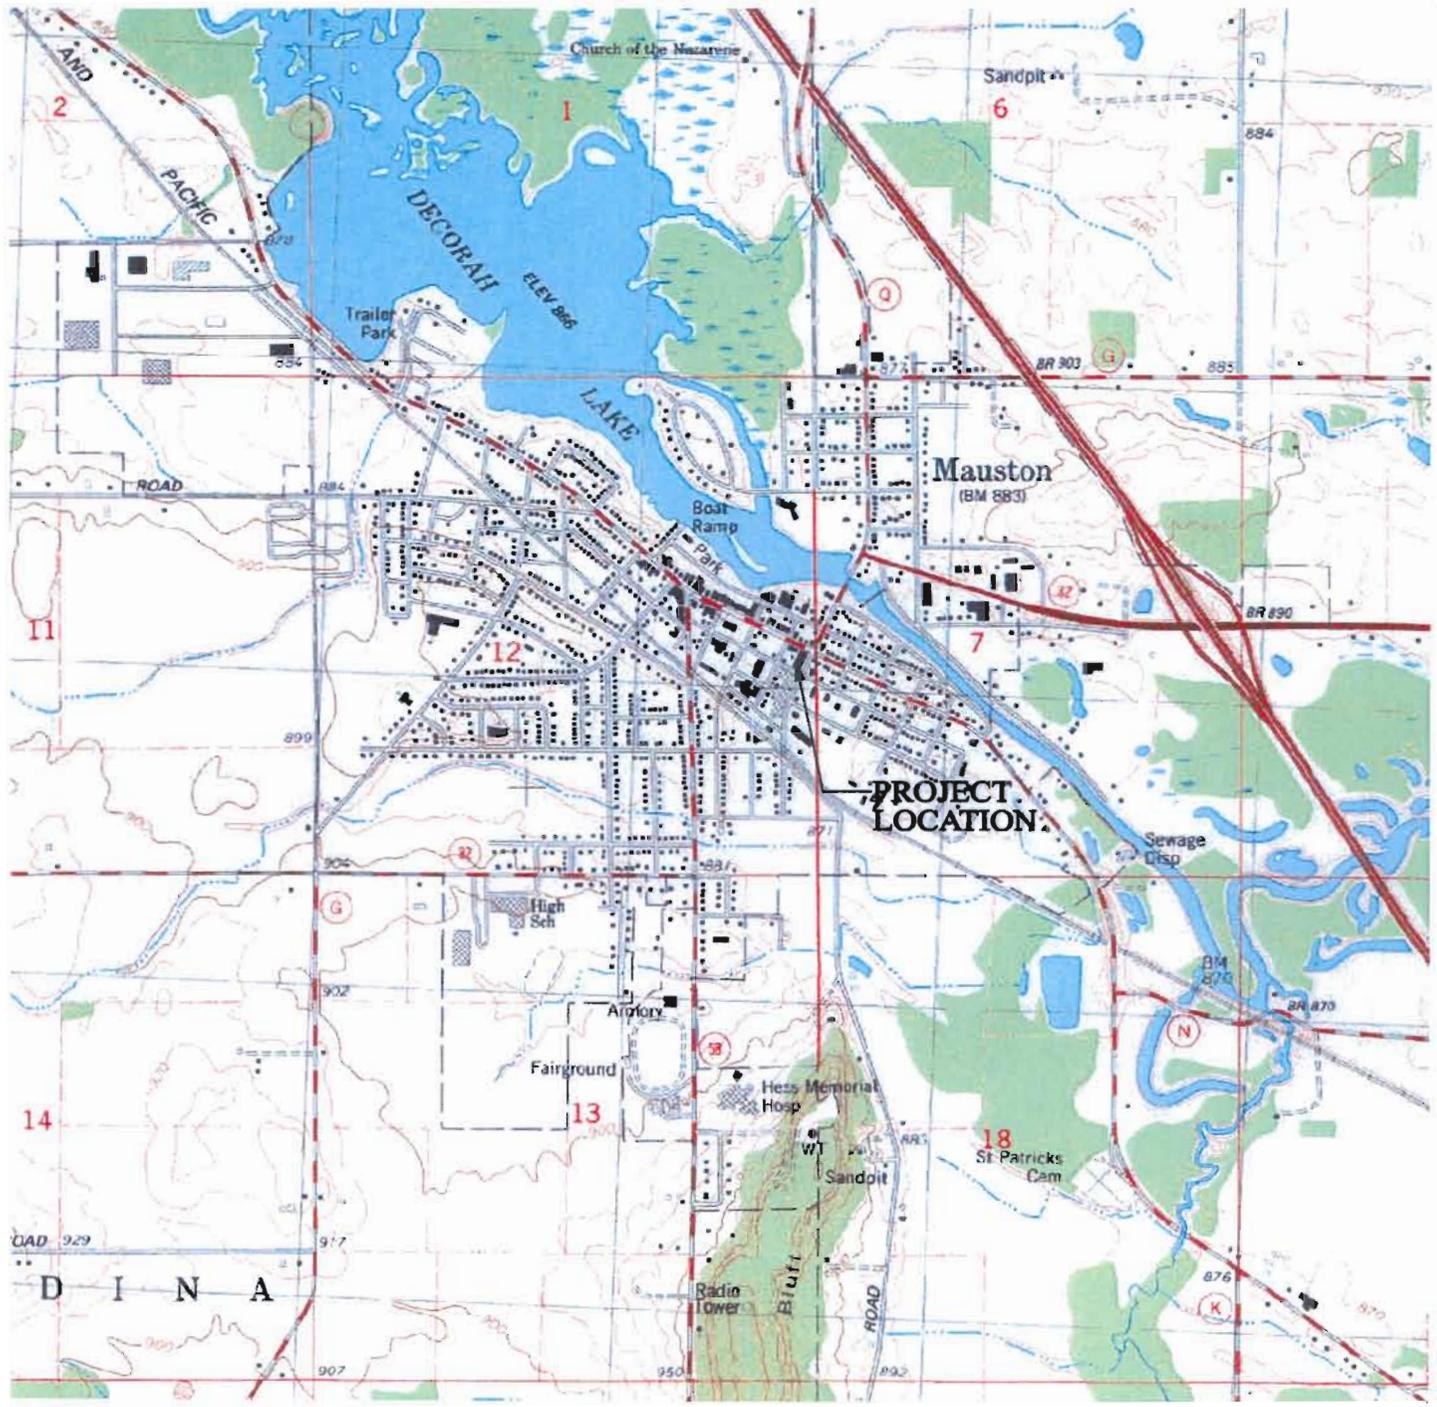

and
2. I believe that legal descriptions for all of the properties within or partially within the contaminated site's boundaries that had soil contamination exceeding generic or site-specific residual contaminant levels as determined under ch. NR 720.09, 720.11 and 720.19 at the time that case closure is requested, other than public street or highway rights-of-way or railroad rights-of-way, have been submitted to the agency with administrative authority for the site, either as an attachment to the site investigation report or as part of a soil GIS registry attachment to the case close out report.

All soil concentrations are in mg/Kg (parts per million).

Depths are in feet below ground surface at the time of soil sample collection.

PID readings are in ppm as isobutylene.

Blank cells indicate parameter was not analyzed.

* = concentration is for total xylenes.

Values in BOLD exceed a NR 746 Table 1 or Table 2 value.

NA = Not applicable

All soil concentrations are in mg/Kg (parts per million).

Italicized font is used when the sampled soil was subsequently removed by excavation, therefore sample is not representative of remaining residual contamination

Depths are in feet below ground surface at the time of soil sample collection.

PID readings are in ppm as isobutylene.

Blank cells indicate parameter was not analyzed.

* = concentration is for total xylenes.

Values in BOLD exceed a NR 746 Table 1 or Table 2 value.

NA = Not applicable

General Notes:

1. Top of Casing (T.O.C.) elevation surveyed on October 11, 1995 by Montgomery Watson.
 Site datum was referenced to the center of the manhole at the southwestern corner of South Union and State Streets and is assumed to be 100.00 ft.

Mauston, WI 53948-1329

Re: Notification of Soil and Groundwater Contamination
Former Vacuum Platers Property
BRRTS 03-29-000198

Dear Mr. Yerges:

This letter notifies you of soil and groundwater contamination in the right of way east of the former Vacuum Platers property at 115 South Union Street. MSA Professional Services, Inc. is in the process of preparing a request for site closure for this property, and the Department of Natural Resources requires notification to surrounding affected property owners as a condition of closure.

Soil and groundwater contamination from a former underground gasoline tank system was detected in 1989 when underground tanks were closed in place on the east corner of the Vacuum Platers property. Soil contamination exceeding Wisconsin Administrative Code NR 720 generic residual contaminant limits likely remains in the right of way adjacent to this property. A figure illustrating the estimated extent of the soil contamination is attached. Samples and observations during a remedial excavation on the former Vacuum Platers property in November 2008 indicate that the soil contamination begins at a depth of approximately six feet and extends to the water table at a depth of approximately ten feet. As part of the site investigation conducted in the late 1990s by Montgomery Watson, groundwater monitoring wells were installed on the property and downgradient in the rights of way of US Highway 12 (State Street) and South Union Street. Data from these wells indicates that groundwater contamination exceeding NR 140 enforcement standard concentrations was present in the rights of way east of the site. More recent groundwater data collected from soil borings on the site indicates that groundwater beneath the site continues to exceed NR 140 enforcement standards. A figure illustrating the estimated extent of groundwater contamination exceeding NR 140 enforcement standards is also attached.

MSA has reviewed and evaluated the site investigation data and the source area remedial activity and determined that the groundwater contaminant plume is stable or receding and will naturally degrade over time. MSA further believes that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 726, Wisconsin Administrative Code. Therefore, on behalf of our client, MSA will be requesting that the Department of Natural Resources accept natural attenuation as the final remedy for this site

and grant case closure. Closure means that the Department will not be requiring any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

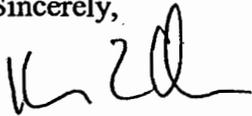

This information is being sent to you so that the City of Mauston can make informed decisions regarding utility and roadwork in the vicinity of this property. If future construction in this area involves below grade work resulting in excavation of contaminated soil or dewatering and generation of water, the material would have to be properly disposed of in accordance with Department of Natural Resources guidelines.

As an affected party, you have a right to contact the Department to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the Department of Natural Resources that is relevant to this closure request, the DNR project contact for this site is David Rozeboom (715-421-7873).

Upon closure of the site, additional information on the site including a copy of the closure letter will be available on the DNR's web-based Registry of Contaminated Sites at <http://dnrmaps.wisconsin.gov/imf/imf.jsp?site=brts2>.

If you need more information or have any questions regarding this closure request, you may contact me at 1-800-362-4505.

Sincerely,

Kevin L. Olson, P.G.

County: Juneau County
US Highway 12
State Highway 58
Site Name: Vacuum Platers
Site Address: 115 S Union Street, Mauston, WI
BRRTS: 03-29-000198
PECFA: 53948-1752-15
Owner: City of Mauston, Attn Brian Yerges, Admin
Owner Address: 303 Mansion St, Mauston
Consultant: MSA (see contact info, below)
Soil Contamination: Yes, six to ten feet below ground surface
Groundwater Contamination: Yes, 10 feet below ground surface

The source area at east corner of property (west of US 12 and State Road 58 interesection) has been remediated by excavation. Tanks and pump island are removed. No remedial action has been taken beneath street. Maps are attached.
