Kastner Bros., 319 Prairie St, Mauston

Dear Mr. Kastner:

The Wisconsin Department of Commerce (Commerce) has received all the items required as conditions for closure as indicated in the July 15, 2002 Conditional Case Closure document. The need for a deed affidavit for the residual soil contamination has been replaced by the recording of the site on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites. This case is now listed as "closed" on the Commerce database. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable state and federal regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 264-8766.

Sincerely,

6,000-gallon waste oil/fuel oil UST removed during September 23, 1998

Dear Mr. Kastner:

The Wisconsin Department of Commerce (Commerce) PECFA Site Review Section has reviewed the May 16, 2002 correspondence (Re: Request for Site Closure) submitted by your consultant, MSA Professional Services (MSA), on May 17, 2002. It is understood that residual soil contamination remains on-site. Using the standards established in the NR 700 series, Wisconsin Administrative Code (Wis. Adm. Code), Commerce has determined that this site does not pose a significant threat to the environment and human health. No further investigation or remedial action is necessary.

**The following conditions must be satisfied to obtain final closure:**

- A notification (affidavit) must be placed on the property deed to address the residual petroleum impacts to soil. For case closure Commerce will need a copy of the executed, recorded deed affidavit containing the County Register of Deeds' recording information. Commerce requires a site map and table of soil analytical results be attached to and recorded with the deed affidavit [Soil Boring Locations map (Figure 2) and the table of Laboratory Results – Soil provided in the May 16, 2002 correspondence]. Enclosed is an example of a "Notice of Contamination to Property" for your use. If you wish to modify the language, submit a copy to this office for approval prior to recording. If an electronic copy of the "Notice of Contamination to Property" is desired, you may contact Commerce and a copy will be forwarded to you.
- Provide copies of the notifications provided to the agencies responsible for the Pine Street right-of-way (ROW). The notifications shall indicate that the residual soil contamination may extent southeast from the former UST to beneath the ROW.
- Provide documentation that the drummed surplus product and tank sludge (395- and 55-gallons, respectively) has been properly disposed. The October 19, 1998 UST Site Assessment indicates drums were on-site awaiting disposal. Copies of contractor invoices would be sufficient.

As of August 31, 2001, State Statute 101.143 requires PECFA claimants seeking reimbursement of interest costs to submit a final reimbursement claim within 120 days after they receive written notification that no further action is required with respect to the discharge at their site. This letter serves as your written notice of "no further action". If your claim is not received within 120 days of the date of this letter, interest costs incurred after 60 days of the date of this letter will not be eligible for PECFA reimbursement. Costs associated with recording deed notices or restrictions are not eligible for PECFA reimbursement, and the recording of these notices should not delay the claim submittal process.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 264-8766.

Sincerely,

David Swimm

In the Matter of the Application of Milton E. Maugh's for an alteration of the Town Plat of Maugh's Addition to Mauston:--  
This cause have been this day brought in for hearing and it appearing to the Court, that Milton E. Maugh's the Proprietor of said Town Plat; that he has given notice of his intention to apply for the Alteration, asked for in this case, by posting up written notices in three of the most public places in the County of Juneau where the said Town Plat is situated and has caused said notices to be published in a weekly news paper published in said County of Juneau, more than 60 days prior to setting of this term of Court. Therefore on motion of F. Winsor of Counsel, it is ordered that said Town Plat be altered so that the lines of the Streets and lots shall run parallel and at right angles with the line of State Street, as asked for in the petition in this cause, and that the Plat hereto annexed shall hereafter be the standard in all cases arising in reference to said Plat, and the Original Plat is hereby altered so as to compare in all respects to the Plat hereto annexed.

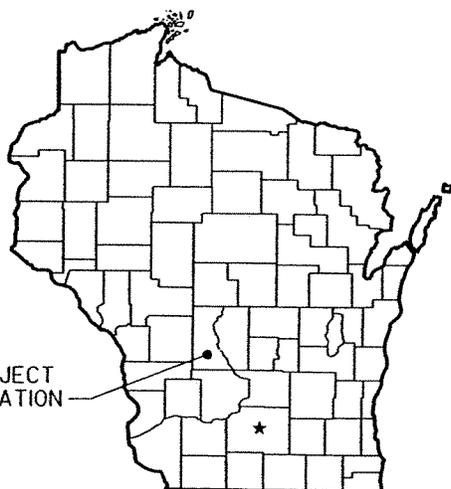

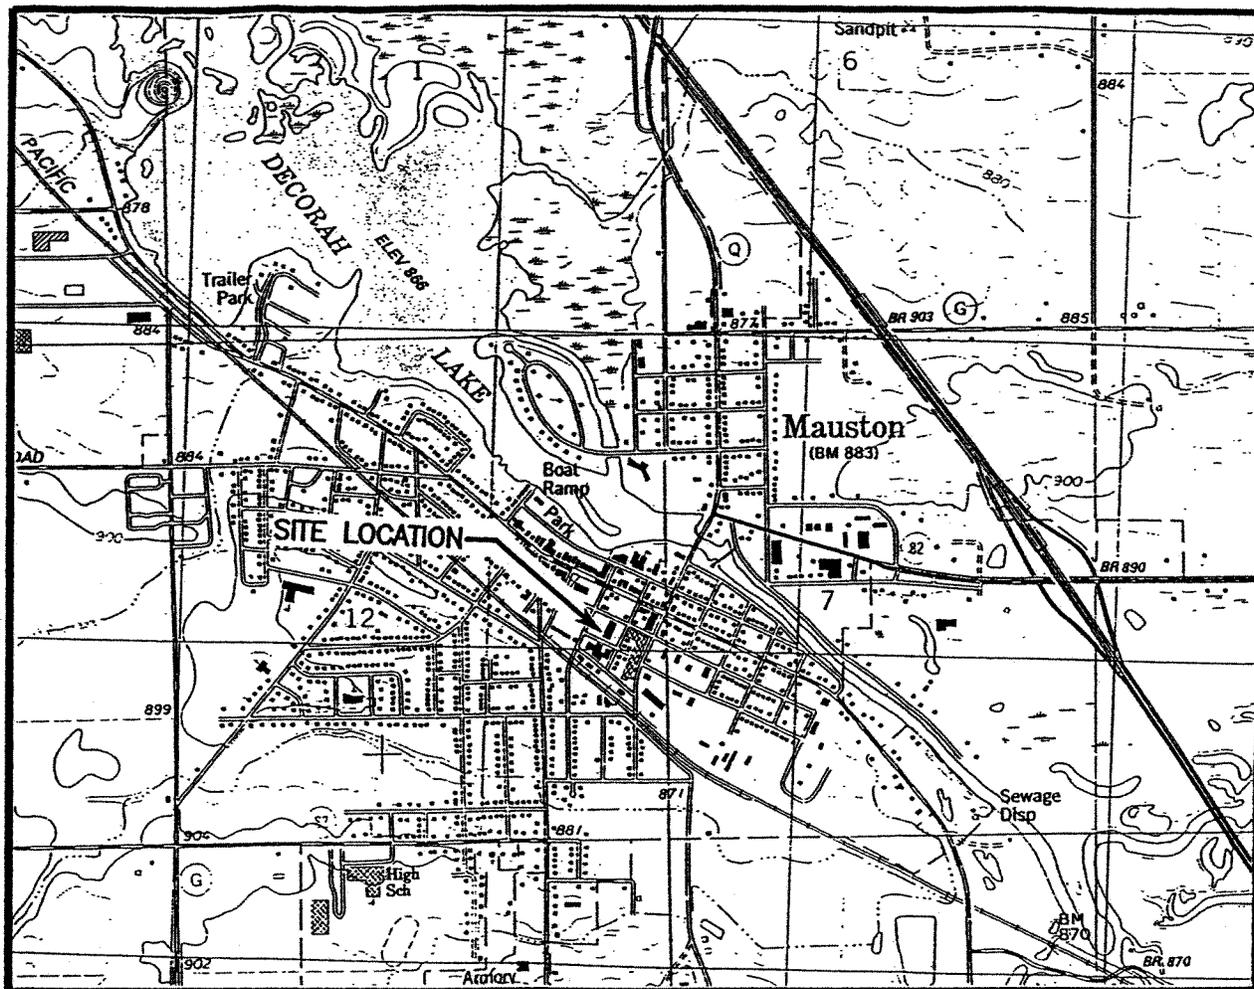

Done at New Lisbon, this 24<sup>th</sup> day of November, A.D. 1867. G.W. Date.

This Plat is situated part on the North East Quarter (NE) and part in the South East (SE) Quarter of Section twelve (12), of Township No. Fifteen (15) N. of Range No. three (3) East of 4<sup>th</sup> Principal Mer.; State, La Crosse & Prairie Street run N. 64<sup>th</sup> W. Fine, Hickory & Oak Street run S. 28<sup>th</sup> W., the stone from which future surveys may be made is placed at the SW Corner of Block No. 5.  
I, hereby certify this is a correct Plat of survey made by me June 29, 1867. Wallace H. Spear, Surveyor.

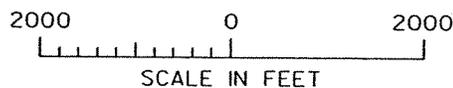

State of Wisconsin, County of Juneau: On this 24<sup>th</sup> day of November A.D. 1867, personally appeared before me, Milton E. Maugh's to be known to be the proprietor of the above plat and acknowledged that he laid out and plotted the foregoing for the purpose of a Town Plat; that the streets are dedicated to the public for highways and that the lots are of the size they purport to be upon the plat.

## RESPONSIBLE PARTY AFFIRMATION OF PROPERTY DESCRIPTIONS

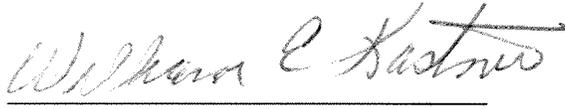

The following affirmation by the responsible party is required by Wisconsin Administrative Code, ch. NR 726.05 paragraph (3)(a)4.g. (for groundwater contamination) and/or NR 726.05 paragraph (3)(b)4.f. (for soil contamination).

I hereby affirm the following:

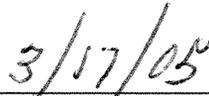

1. I believe that legal descriptions for all of the properties within or partially within the contaminated site's boundaries that had groundwater contamination exceeding ch NR 140 enforcement standards at the time that case closure was requested, other than public street or highway rights-of-way or railroad rights-of-way, have been submitted to the agency with administrative authority for the site, either as an attachment to the site investigation report or as part of the groundwater GIS registry attachment to the case close out report,

and

2. I believe that legal descriptions for all of the properties within or partially within the contaminated site's boundaries that had soil contamination exceeding generic or site-specific residual contaminant levels as determined under ch. NR 720.09, 720.11 and 720.19 at the time that case closure is requested, other than public street or highway rights-of-way or railroad rights-of-way, have been submitted to the agency with administrative authority for the site, either as an attachment to the site investigation report or as part of a soil GIS registry attachment to the case close out report.
