RE: **Final Closure**

Commerce # 54639-9998-01 WDNR BRRTS # 03-63-280903
NRP Enterprise, 301 W Main St, La Farge

Dear Mr. Nelson:

The Wisconsin Department of Commerce (Commerce) has received all items required as conditions for closure of the site referenced above. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable state and federal regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 261-5404.

Sincerely,

RE: **Conditional Case Closure**

Commerce # 54639-9998-01 **WDNR BRRTS # 03-63-280903**
NRP Enterprise, 301 W Main St, La Farge

Dear Mr. Nelson:

The Wisconsin Department of Commerce (Commerce) has reviewed the request for case closure prepared by your consultant, METCO, for the site referenced above. It is understood that residual soil and groundwater contamination remains on-site. Commerce has determined that this site does not pose a significant threat to the environment and human health. No further investigation or remedial action is necessary.

The following condition must be satisfied to obtain final closure:

Monitoring well MW-6 must be properly abandoned and the appropriate documentation forwarded to the letterhead address.

This letter serves as your written notice of "no further action". Timely filing of your final PECFA claim (if applicable) is encouraged. If your claim is not received within 120 days of the date of this letter, interest costs incurred after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 261-5404.

Sincerely,

A handwritten signature in black ink, appearing to read "Gena M. Larson", with a horizontal line extending to the right.

Notification: NRP Enterprise LUST Site, Conditional Case Closure Notification

Dear Ms. Te Beest,

I am writing on behalf of Mr. Earl Nelson to inform you that groundwater contamination from the NRP Enterprise LUST site, located at 301 West Main Street, La Farge, WI, exists within the right of way of State Highway 82/131 (West Main Street) and Silver Street.

As part of the required documentation, you and Mr. Wayne Carpenter of the Village of La Farge are hereby notified that residual petroleum hydrocarbon contamination exists in soil and groundwater in the right-of-way of Hwy 82/131 and Silver Street to the north and east of the NRP Enterprise site. Groundwater contamination was found to exist in the area of the removed UST's and dispensers and appears to be migrating toward the southwest. Residual groundwater contamination exceeding the NR140 Enforcement Standards (ES) may exist in the road right of way of State Highway 82/131 (Main Street) and Silver Street to the north and east of the subject property. Depth to groundwater in this area is approximately 4-6 feet and smear zone contamination (caused by a fluctuating watertable) exists from approximately 4-6 feet below ground surface. We are enclosing a site map displaying an inferred benzene isoconcentration map for groundwater.

If you have any questions, or require more detailed information, please contact me at METCO's La Crosse office (608-781-8879).

Sincerely,

Jason T. Powell
Staff Scientist
